

Project Management Plan Process

Concept Development

In the beginning of Concept Development, the Project Manager takes the Project Management Plan template and makes it project specific. A Project Management Plan applies to all projects.

The Project Manager obtains approval for the Project Management Plan from the Program Manager.

Near the end of Concept Development, the Project Manager can update, revise, or adjust the Project Management Plan, as necessary.

The Project Manager obtains approval for the revised Project Management Plan from the Program Manager.

Preliminary Engineering

At the beginning of Preliminary Engineering, the Project Manager can update, revise, or adjust the Project Management Plan, as necessary.

The Project Manager obtains approval for the revised Project Management Plan from the Program Manager.

Final Design

At the beginning of Final Design, the Project Manager can update, revise, or adjust the Project Management Plan, as necessary.

The Project Manager obtains approval for the revised Project Management Plan from the Program Manager.
