**Kings Highway (CR 608), Route 83 to CR 628**

*DBNUM: S2310 / UPC: 233250*

The existing surface from Route 83 to CR 628 is in need of resurfacing as it is over 25 years old. The road surface is rated as fair to poor on the 2019 PCI pavement assessment. The roadway services numerous container trash trucks in route to the CMCMUA landfill. It also services numerous residences along the road including subdivisions. The roadway connects to existing seasonal campgrounds and a bicycle path that is part of the countywide network. The road is seeing more bicycle and pedestrian use due to the completion of the bike path. It also provides access to two golf courses that form a portion of the tourist economy. The roadway provides a connection to both Sea Isle and Avalon barrier islands to the central part of the county and an eventual link to Route 55.

**Ocean Drive (CR 619), 99th Street South to Great Channel Bridge (0500-028)**

*DBNUM: S2311 / UPC: 233260*

The existing paving surface is beyond its serviceable life span and in need of resurfacing. The project will include 2" mill and pave, installation of new concrete gutters and curbs for enhanced drainage flow and replacement of all ADA public access ramps. Work will also include limited drainage improvements that will tie into a Borough funded island-wide drainage upgrade. The project will complete the resurfacing of CR 619 within the Borough since it will be the follow up project to the FY 2023 resurfacing FHWA project from 99th Street north. The project will provide enhanced pedestrian and bicycle awareness with the addition of high visibility markings. The route is posted at 25mph and as such the improvements will support the use of LSV sharing the lanes with motor vehicles thereby increasing vehicle transport and reducing emissions. The corridor is the main north south roadway servicing the island and its tourist economy forming a connection from North Wildwood to Ocean City. It also serves as an evacuation route for the island.

(\$ millions)

**Roosevelt Boulevard (CR 623)**

*DBNUM: S2312 / UPC: 233270*

Rosevelt Boulevard is one of two routes servicing Ocean City that can accommodate legal truck loadings. It is the most travelled connector to the business district and southern portion of the island. It also has direct access to the Garden State Parkway and Route 9. Roosevelt Boulevard is the key corridor for tourist access to Ocean City, the busiest tourist destiny in Cape May county and consistently ranked as one of the premiere resorts in the nation. The corridor also serves as a critical evacuation route. The roadway is in need of reconstruction as the underlying concrete sub base has heaved and the asphalt overlay has buckled. In addition, the roadway needs to be elevated in order to provide resiliency against nuisance flooding and potential sea level rise. The work that is proposed is the removal of the existing sub base concrete and replacement with DGA, and the milling and resurfacing of the roadway with a new 7 1/2" paving section so that the proposed grade can be elevated approximately 12" above the existing elevation. This project is being proposed in concert with another project, the raising of the easterly portion of 34th Street as part of a joint venture between the County and City. The expectation is that the roadway will be elevated approximately 12" to provide for added evacuation servicabilty while not adversely impacting business access. The roadway is also of critical importance as it is listed as an NHS route. The roadway is classified as a Rural Principal Collector.

**Shunpike Road (CR 620), Oyster Road to Dias Creek Road (CR 612)**

*DBNUM: S2313 / UPC: 233280*

Shunpike Road is an urban minor collector that services subdivisions and residential dwellings. In addition, it provides access to the Middle Township School recreation field and play area. The roadway provides access to several seasonal campgrounds in the area which are critical to the Township's tourist industry. Shunpike road Parallels the county bike path network, and provides for easy vehicle access to the bike path at multiple locations along its length. The southern end of Shunpike services the CMCMUA transfer station and a new natural gas servicing station. The roadway has some accident history near the Oyster Road intersection. The project will include milling and paving, drainage improvements to correct existing spread onto the roadway during rain events, widening to provide for a consistent cross section of (2) 11' wide lanes and (2) 7' wide shoulders for enhanced bicycle and pedestrian safety, centerline rumble stripes south of Shellbay Avenue and ADA improvements. Additional safety measures such as lane text and double warning signage will be included in the project.

**Townbank Road (CR 648), Clubhouse Drive to Bayshore Road (CR 603)**

*DBNUM: S2314 / UPC: 233290*

Townbank Road (Cr) 648 is a urban collector consisting of (2) 12' wide thru lanes and shoulder areas. The project will consist of 2" milling and paving the road surface, installation of targeted drainage improvements, construction of new curbs, new ADA access ramps and gutter where required by grade. Traffic calmng measures will be installed including the installation of RRFBs and lane markings for speed awareness. The Township may entertain allowing the speed to be reduced to 25mph by statute, which will permit the use of LSVs. The final cross section will consists of (2) 11' wide lanes, (2) 5' wide bike lanes and a buffer area adjacent to the lane of 4' in width. Townbank road services residential dwellings and a church and fire station and provides a direct connection for the North Cape May area residents to the Delaware Bay . The project will accomodate bike traffic that curently travels along the corridor to reach the business district of Bayshore road to the east, and the beach of the Delaware Bay to the west. Townbank road provides tourist access to the businesses and the Cape May Beach section of the township primarily consists of second homes. The demographics of population fronting Townbank Road include multi-cultural/ multi ethnic individuals. Many of the residents are of low to moderate income and as a result the roadway sevicees both vehicluar, bicycle, and pedestrian traffic.
