| ROUTE/PROGRAM | Project ID Number |
| Passaic Street, Ward Street to Rochelle Avenue | NS9601 |

Passaic Street is a two-lane roadway that crosses Route 17 in Rochelle Park. It is the municipality's major commercial street, connects with heavily congested Route 17, and provides access to the Garden State Plaza Mall. As a result, Passaic Street experiences high traffic volumes and a deteriorating level of service. Westbound traffic is negatively impacted by left-turn movements to and from the Route 17 ramps. During peak periods, the queues from vehicles turning left onto the Route 17 south ramp extend for over 500 feet and impact the Passaic Street/Rochelle Avenue intersection. Possible improvements such as the widening of Passaic Street, traffic signalization, and realignment of the Route 17 off-ramp will be studied.

| 17 Essex Street, Drainage | 93173 |

This drainage improvement will convey stormwater from Route 17 along a closed system from Route 17 to the Saddle River, and will provide for a 15-year storm protection. The drainage pipe will be approximately 11 feet in diameter. The outfall structure will be equipped with an automated stainless steel sluice gate to prevent backwater from entering the system and causing upstream flooding when the Saddle River reaches flood stage. A secondary back-up valve will also be installed. Also, an intake structure will be constructed in the vicinity of Marty's Plaza to receive I-80 stormwater. Due to the nature of the project, it is not designed to be bicycle/pedestrian compatible.

This is a multi-year funded project under the provisions of Section 13 of P. L. 1995, c.108.
