***Baseline Document Change Announcement***

**Metric Electrical Material Specifications (EB Specifications)**

**BDC00S-11**

**February 23, 2001**

**Subject: Release of the Electrical Material Specifications (EB Specifications) in Metric Units.**

The Department's Metric Electrical Material Specifications, also known as Metric EB Specifications, have been revised to change the effective date, the method of referencing other documents, the word processing program, and correcting the plan sheet size.

In general, the revisions are as follows:

1. The effective date of all metric EB Specifications has been changed to July 1, 2001.
2. All Department mailing addresses have been changed to reference the P.O. Box instead of CN Number.
3. The references to the applicable Illuminating Engineering Society (I.E.S.) specifications have been changed from a "specific date" to state "the current" I.E.S. specification applies.
4. The references to Department specifications have been changed from identifying a date and subsection to state the "current NJDOT Standard Specification applies".
5. The size of mylars has been corrected.
6. The word processing program has been changed from AmiPro to Microsoft Word.

**Instructions to Designers:**

The effective date of these Metric Electrical Material Specifications (EB Specifications) is July 1, 2001.

The following BDC Announcement memorandums will be superseded on July 1, 2001 when the new EB Specifications become effective.

BDC96S-005 entitled "Electrical Material (Metric) Specifications", dated October 23, 1996.

BDC97S-028 entitled "Additions and Revisions to the Electrical Material Specifications", dated December 1, 1998
