

*New Jersey Department of Transportation*

*Baseline Document Change*

**Electrical Material Specifications, October 1, 1996  
BDC96S - 005**

**October 23, 1996**

**MEMORANDUM**

**Baseline Document Change**

**Subject:** Release of Metric Version of Electrical Material Specifications

The Electrical Material Specifications are metric versions of the approved English Electrical Material Specifications. It also includes the RED LED (Light Emitting Diode) Traffic Signal Module, titled NJ Specification No. EBM-RED LED-TSM. This is a new specification and is needed due to the Department's plan to utilize LED technology for energy savings.

Distribution to In-House Staff and various Public Agencies

This memorandum along with a hard copy of the Electrical Material Specifications is being distributed to our In-House Staff and various Public Agencies based on our distribution list.

Additional hard copies of the Electrical Material Specifications can be acquired by contacting:

Document Control  
E & O Building, 5<sup>th</sup> Floor
