Subject: Release of English Version of the Bid Price Report
for Standard Pay Items, January to December, 1996

Attached is a copy of the "Bid Price Report for Standard Pay Items" covering the period January to December, 1996. This Report shall be used in the preparation of construction cost estimates using the *NJDOT Standard Specifications for Road and Bridge Construction, 1989*.

Designers are reminded that the Average Weighted Price is presented only as general information which may indicate year to year price trends for various items. It should not be used exclusively in preparing construction cost estimates. Instead the project location, size, and type of construction should be considered when choosing unit prices. Memorandum to All Design Units entitled "Construction Cost Estimates", dated July 26, 1994, or subsequent revisions, should be consulted for further direction.
