***Baseline Document Change Announcement***

***Contractor Payment System Front End (CPSFE), Version 1.4***

**BDC01T-4**

**November 29, 2001**

**Subject: Release of the Contractor Payment System Front End (CPSFE) Program, Version 1.4**

The *Contractor Payment System Front End (CPSFE), Version 1.4* is issued for use in preparing computer generated Final Engineer's Estimates on projects designed using the Department's 2001 English and Metric Standard Pay Item Lists. This updated Version 1.4 has been developed by incorporating various changes to the electronic files for the Standard Pay Items that are in accordance with the soon to be released English and Metric *2001 Standard Specifications for Road and Bridge Construction*.

This Announcement supersedes BDC99T-2, dated September 9, 1999, entitled CPSFE Program, Version 1.2.

**Instructions to Designers**

The CPSFE program Version 1.4 shall be used for all projects that are prepared using 2001 English and Metric Standard Pay Items. However, the designers are directed to follow the instructions on BDC01T-3, dated November 28, 2001 (Metric Standard Pay Items) for the projects on which Masters has been completed for Final PS&E.

Current users of the CPSFE program should upgrade their older Version of CPSFE with the new CPSFE program Version 1.4 and download the current CPSFE Manual. You will also need to download the latest Standard Pay Item Database files (BDC01T-2, dated 11/27/01 and BDC01T-3, dated 11/28/01) and the Bid Price Database files. Please read the instructions on the web page.

**Announcement Access Information**

This announcement is being distributed electronically to our in-house staff and various public agencies based on distribution list maintained by the Engineering Documents Unit.

This BDC announcement and the above mentioned electronic files can be viewed and/or downloaded from the New Jersey Department of Transportation Web Page:
