***Baseline Document Change Announcement***

***Bid Price Reports for Standard Pay Items***

**January to December, 2001**

**BDC02T-01**

**February 13, 2002**

**Subject: Release of *Bid Price Reports for Standard Pay Items, January to December, 2001***

The *Bid Price Reports for Standard Pay Items* covering the period January to December 2001 is now available in both the Metric and English versions. These reports shall be used in the preparation of construction cost estimates for projects developed using the following specifications:

- NJDOT *Standard Specifications for Road and Bridge Construction*, 1996, as amended by the 1998 *Supplemental Specifications* (Metric units)
- NJDOT *Standard Specifications for Road and Bridge Construction*, 2001 (U.S. Customary English and Metric units)

Designers are reminded that the Average Weighted Price is presented only as general information which may indicate year to year price trends for various standard pay items. It should not be used exclusively in preparing construction cost estimates. Instead, the project location, size, and type of construction should be considered when choosing unit prices. The NJDOT *Procedures Manual* (Section 4.3.3, Engineer's Estimate and Proposal) should be consulted for further direction.

This Announcement supersedes BDC01T-1, dated March 2, 2001, entitled *Bid Price Report for Standard Pay Items*, January to December 2000.

**Distribution to In-House Staff and Various Outside Agencies**

This memorandum is being distributed as an electronic document only to our in-house staff and various outside agencies based on our standard distribution list and in-house Bid Price Report user's list maintained by the Engineering Documents Unit.

**Announcement Access Information**

This BDC Announcement file and the Bid Price Report Database files can be viewed and/or downloaded from the New Jersey Department of Transportation Web Page:
