Baseline Document Change Announcement

**Design Manual-Roadway
6" Traffic Stripes**

BDC07MR-03R

September 27, 2007

SUBJECT: Revision to Section 14-06, Traffic Stripes and Traffic Markings, Pages 14-5 thru 14-7 of the 2001 Design Manual Roadway.

REFERENCE: BDC07S-04 dated 9/13/07 revisions to Subsections 618.04, 618.06, 618.10 and 618.15 of the 2001 Standard Specifications and Subsection 912.12 of the 2001 Standard Inputs for both the English and Metric Units.

The recently issued BDC07MR-03 dated 9/14/07 is rescinded and replaced with BDC07MR-03R. The purpose of this revision is to state that the page sequencing is correct and the attached pages complement the progression of the numbered pages of BDC04MR-01.

Section 14-06 is revised to provide for the requirement for the use of permanent six inch wide lane lines, longitudinal edge lines and edge lines on ramps on all interstate highways.

BDC04MR-01 dated 10/20/2004 and CAN066 dated 7/19/07 are hereby superseded.

Replace the current pages 14-5, 14-6 and 14-7 with the attached revised pages.

These revisions must be utilized in conjunction with the referenced BDC Announcement dated 9/13/07.

Implementation Code R (Routine)

Changes must be implemented in all applicable Department projects scheduled for Final Design Submission at least one month after the date of the BDC announcement. This will allow designers to make necessary plan, specifications, and estimate/proposal changes without requiring the need for an addenda or postponement of advertisement or receipt of bids.
