Independent Auditors' Report

The Members
State Investment Council,
Division of Investment,
Department of the Treasury,
State of New Jersey

We have audited the accompanying statements of net assets of the State of New Jersey Cash Management Fund (the Fund) managed by the Division of Investment (the Division), Department of the Treasury, State of New Jersey, as of June 30, 2010 and 2009, and the related statements of changes in net assets for the years then ended. These financial statements are the responsibility of the Division's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Division's internal control over financial reporting of the Fund. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Division's internal control over financial reporting of the Fund. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in Note 1, the financial statements present only the Fund and do not purport to, and do not, present fairly the financial position of the State of New Jersey as of June 30, 2010 and 2009 and the changes in its financial position for the years then ended in conformity with U.S. generally accepted accounting principles.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the State of New Jersey Cash Management Fund managed by the Division of Investment, Department of the Treasury, State of New Jersey, as of June 30, 2010 and 2009, and the changes in its financial position for the years then ended in conformity with U.S. generally accepted accounting principles.

The management's discussion and analysis on pages 3 through 5 is not a required part of the basic financial statements but is supplementary information required by U.S. generally accepted accounting principles. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information included in the schedule of Portfolio of Investments is presented for purposes of additional analysis and is not a required part of the basic financial statements as of and for the year ended June 30, 2010. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Management's Discussion and Analysis
(Unaudited)

June 30, 2010 and 2009

Introduction

This section of the financial statements of The State of New Jersey Cash Management Fund (the Fund) presents our discussion and analysis of the Fund's financial position as of June 30, 2010 and 2009. Since this discussion and analysis is designed to focus on current activities, it should be read in conjunction with the Fund's basic financial statements, which follow this section.

Financial Statements

The Fund's basic financial statements include statements of net assets and statements of changes in net assets, which have been presented in accordance with accounting principles generally accepted in the U.S. as applicable to governmental entities.

The statements of net assets provide information on the financial position of the Fund at year-end. The statements of changes in net assets present the results of investment activities during the fiscal year. The notes to the financial statements offer additional discussion that is essential to the full understanding of the data presented in the financial statements. The notes give more detail about accounting policies, significant account balances and activities, material risks, obligations, contingencies and subsequent events, if any.

Statements of Net Assets

The statements of net assets present the assets, liabilities and net assets (assets minus liabilities) of the Fund as of the end of the fiscal year and are point in time financial statements.

The statements of net assets are comprised of the following major components:

<i>(in millions)</i>	June 30		
	2010	2009	2008
Assets:			
Interest receivable	\$ 10	\$ 26	\$ 23
Investments, at fair value	13,118	14,538	18,793
Total assets	<u>13,128</u>	<u>14,564</u>	<u>18,816</u>
Liabilities:			
Accrued expenses	1	1	1
Net assets	<u>\$ 13,127</u>	<u>\$ 14,563</u>	<u>\$ 18,815</u>

Statements of Changes in Net Assets

Changes in net assets from year to year are presented in the statement of changes in net assets. The purpose of this statement is to present the net investment income earned by the Fund as well as the contributions of and distributions to participants. A summary follows:

<i>(in millions)</i>	Year ended June 30		
	2010	2009	2008
Net investment income	\$ 58	\$ 225	\$ 766
Administrative expenses and reserve fund fees	(5)	(7)	(7)
Net earnings distributed to participants	(53)	(218)	(759)
Decrease in net assets from unit transactions	<u>(1,436)</u>	<u>(4,252)</u>	<u>(1,110)</u>
Decrease in net assets	(1,436)	(4,252)	(1,110)
Net assets, beginning of year	14,563	18,815	19,925
Net assets, end of year	<u>\$ 13,127</u>	<u>\$ 14,563</u>	<u>\$ 18,815</u>

During the fiscal year ended June 30, 2010, net assets decreased by \$1.4 billion, or 9.9%, primarily due to net participant withdrawals. Net investment income of \$58 million was comprised primarily of \$54.2 million of interest income and net realized gains, plus an increase of \$3.3 million due to the net appreciation in the fair value of investments. This appreciation occurs because certain forms of money market investments are sold at a discount in lieu of having a stated interest rate; the difference between the purchase price and the amount received at maturity is essentially equivalent to interest earnings on the investment. These gains were more than offset by an increase in the net participant's withdrawals. The average daily rate of return was 0.45% for State participants and 0.34% for Other-than-State participants. These returns are lower than those returned in the fiscal year June 30, 2009, due to lower short term market rates available in the marketplace resulting from the Federal Reserve's continuing policy of maintaining lower short term interest rates.

During the fiscal year ended June 30, 2009, net assets decreased by \$4.3 billion, or 22.6%, primarily due to net participant withdrawals. Net investment income of \$225 million was comprised primarily of \$139 million of interest income and net realized gains, plus an increase of \$85.3 million due to the net appreciation in the fair value of investments. These gains were more than offset by an increase in the net participant's withdrawals. The average daily rate of return was 1.55% for State participants and 1.40% for Other-than-State participants. These returns are lower than those returned in the fiscal year June 30, 2008, due to lower short term market rates available in the marketplace resulting from the Federal Reserve's continued easing of short term rates.

During the fiscal year ended June 30, 2008, net assets decreased by \$1.1 billion, or 5.6%, primarily due to net participant withdrawals. Net investment income of \$766 million was comprised primarily of \$433 million of interest income and net realized gains, plus an increase of in the fair value of the underlying portfolio (net appreciation in the fair value of investments) of \$332 million. These gains were offset by the increase in participant's withdrawals. The average daily rate of return was 4.11% for State participants and 3.97% for Other-than-State participants. These returns are lower than those returned in the fiscal year June 30, 2007, due to lower short term market rates available in the marketplace resulting from the Federal Reserve's easing of short term rates.

Division of Investment
Department of the Treasury
State of New Jersey
Cash Management Fund

Notes to Financial Statements

June 30, 2010 and 2009

1. Organization

The Division of Investment, Department of the Treasury, State of New Jersey (the Division) manages and invests certain assets of various funds, divisions, agencies and employees of the State of New Jersey in various groups of funds, such as the Cash Management Fund and the Pension Fund. The accompanying financial statements represent the State of New Jersey Cash Management Fund (the Fund) which is available on a voluntary basis for investment by State and certain “Other-than-State” participants. “Other-than-State” participants include counties, municipalities and school districts, and the agencies or authorities created by any of these entities. The Fund is considered to be an investment trust fund as defined in Governmental Accounting Standards Board (GASB) Statement No. 34. The operations of this Fund are governed by the provisions of State Investment Council Regulations for the purpose of determining authorized investments for the Fund.

The Fund is not a legally separate entity within the State of New Jersey. The assets managed by the Division are included in the financial statements of the State.

The accompanying financial statements present only the Fund and do not purport to, and do not present fairly the financial position of the State of New Jersey as of June 30, 2010 and 2009, and the changes in its financial position for the years then ended in conformity with accounting principles generally accepted in the United States.

2. Summary of Significant Accounting Policies

Measurement Focus and Basis of Accounting

The financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Under this method, revenues (additions) are recorded when earned and expenses (deductions) are recorded at the time liabilities are incurred, regardless of when the related cash flow takes place.

Division of Investment
Department of the Treasury
State of New Jersey
Cash Management Fund

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Valuation of Investments

Investments are reported at fair value as follows:

- Money Market Instruments (including short-term U.S. Government and Agency obligations) – amortized cost which approximates fair value.
- Other U.S. Government and Agency and Corporate obligations – prices quoted by a major dealer in such securities.

Investment Transactions

Investment transactions are accounted for on a trade date basis. Gains and losses from investment transactions are determined by the first in, first out method. Interest income is recorded on the accrual basis.

Administrative Expenses

Expenses of the Fund are paid by the Department of the Treasury of the State of New Jersey and are partially offset by the administrative expense fees collected from the “Other-than-State” participants (see Note 7). No operating expenses are allocated to the Fund.

3. Investments

New Jersey state statute provides for a State Investment Council (Council) and a Director. Investment authority is vested in the Director of the Division and a role of the Council is to formulate investment policies. The Council issues regulations which establish guidelines for

Division of Investment
 Department of the Treasury
 State of New Jersey
 Cash Management Fund

Notes to Financial Statements (continued)

3. Investments (continued)

permissible investments which include obligations of the U.S. Treasury, government agencies and corporations. Such investments may be in the form of fixed income securities, commercial paper, certificates of deposit, repurchase agreements, bankers acceptances and money market funds.

The Fund's investments as of June 30 are as follows:

	<u>2010</u>	<u>2009</u>
U.S. Government and Agency obligations	\$ 10,812,907,262	\$ 10,941,393,546
Certificates of deposit	448,000,000	1,280,000,000
Commercial paper	1,225,067,490	1,736,601,807
Corporate obligations	206,799,963	203,990,626
Canadian government/province obligations	424,878,233	375,486,607
	<u>\$ 13,117,652,948</u>	<u>\$ 14,537,472,586</u>

The Fund's investments are subject to various risks. Among these risks are custodial credit risk, credit risk, concentration of credit risk and interest rate risk. Each one of these risks is discussed in more detail below.

Custodial credit risk, as it relates to investments, is the risk that in the event of the failure of the custodian, the Fund will not be able to recover the value of investments that are in the possession of the third party. The Fund's investment securities are not exposed to custodial credit risk as they are held in segregated trust accounts in the name of the Fund with the custodian.

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The credit risk of a debt instrument is measured by nationally recognized statistical rating agencies such as Moody's Investors Service, Inc. (Moody's), Standard & Poor's Corporation (S&P) and Fitch Ratings (Fitch). Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer. There are no restrictions on the amount that can be invested in U.S. Treasury and government agency obligations. Council regulations require minimum credit ratings for all other categories of fixed income obligations and limit the amount that can be invested in any one issuer or issue. These credit ratings and limits are as follows:

Division of Investment
Department of the Treasury
State of New Jersey
Cash Management Fund

Notes to Financial Statements (continued)

3. Investments (continued)

<u>Category</u>	<u>Minimum rating (1)</u>			<u>Limitation of issuer's outstanding debt</u>	<u>Limitation of issue</u>	<u>Other limitations</u>
	<u>Moody's</u>	<u>S&P</u>	<u>Fitch</u>			
Corporate obligations	Baa3	BBB-	BBB-	10%	25%	Not more than 5% of fund can be invested in one corporation
Commercial paper	P-1	A-1	F1	N/A	N/A	None
Certificates of deposit and banker's acceptances						Certificates of deposit and banker's acceptances cannot exceed 10% of issuer's primary capital
Domestic	A3/P-1	A-/A-1	A-/F1			
International	Aa3/P-1	AA-/A-1	AA-/F1	N/A	N/A	
Collateralized notes and mortgages	Baa3	BBB-	BBB-	N/A	25%	Not more than 5% of fund can be invested in one issue; Not more than 10% of fund can be invested in this security
Canadian government/province obligations	Aa3	AA-	AA-	25%	Greater of 25% or \$10 million	Must be denominated in U.S. dollars; Not more than 1% of fund can be invested in one issuer
Money market funds	N/A	N/A	N/A	N/A	N/A	Not more than 10% of fund assets can be invested in money market funds; limited to 5% of shares or units outstanding

(1) Short-term ratings (e.g. P-1, A-1, F1) are used for commercial paper and certificates of deposit.

N/A – Not applicable

In addition, the Division sets individual issuer limits for commercial paper, certificates of deposit and other investments.

Division of Investment
 Department of the Treasury

(1) Short-term ratings (e.g. P-1, A-1, F1) are used for commercial paper and certificates of deposit.

Division of Investment
 Department of the Treasury
 State of New Jersey
 Cash Management Fund

Notes to Financial Statements (continued)

3. Investments (continued)

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Council regulations provide that the maturities of corporate obligations must be twenty-five months or less. Certificates of deposits and bankers acceptances are limited to a term of one year or less. Commercial paper maturities cannot exceed 270 days. The maturity of repurchase agreements cannot exceed 30 days.

All investments held in the portfolio at June 30, 2010 mature within one year, except for certain assets with a market value of \$375 million which will mature within two years.

4. Liabilities

Liabilities as of June 30, 2010 and 2009 are comprised of the following:

	2010	2009
Administrative expenses	\$ 233,256	\$ 221,336
Reserve fund fee	239,464	225,743
Due to participants	23,762	—
	\$ 496,482	\$ 447,079

Due to participants represents cash received by the Fund after close of business which has not yet been invested nor credited to the participants' accounts.

5. Units Outstanding

In accordance with State Investment Council Regulations, units of ownership in the Fund may be purchased or redeemed on any business day (excluding State holidays) at the unit cost or value of \$1.00. Investment income and net realized gains and losses on investments are distributed daily in the form of additional whole units at the current day's net asset value. Fractional units are included in the succeeding day's distribution.

The Fund values participants' shares on an amortized cost basis. Specifically, the Fund distributes income to participants on a daily basis based on (1) realized investment gains and

Division of Investment
 Department of the Treasury
 State of New Jersey
 Cash Management Fund

Notes to Financial Statements (continued)

5. Units Outstanding (continued)

losses calculated on an amortized cost basis (and added to the Reserve Fund for the pro-rata portion of such gains attributable to “Other-than-State” participants), (2) interest income based on stated rates, (3) amortization of discounts and premiums on a straight-line basis and (4) administrative and reserve fund fees charged only to “Other-than-State” participants.

As of June 30, 2010 and 2009, there were 13,127,038,971 and 14,563,319,447 units outstanding at a fair value per unit of \$.99999999993 and \$.9999998748, respectively.

6. Net Assets

Net assets as of June 30, 2010 and 2009 consist of the following:

	2010	2009
State participants	\$ 8,575,092,353	\$ 9,822,065,806
“Other-than-State” participants	4,551,946,618	4,741,253,642
Undistributed and net unrealized loss	(1)	(1,824)
	\$ 13,127,038,970	\$ 14,563,317,624

7. Reserve for Investment Losses and Administrative Expense Fund

“Other-than-State” participants contribute one twentieth of one percent (0.05%) per year of the value of the aggregate units owned by them for the Administrative Expense Fund. This fund is used to reimburse the State of New Jersey for administrative and custodial fees of the Fund.

In addition, “Other-than-State” participants contribute one twentieth of one percent (0.05%) per year of the value of the aggregate units owned by them to a Reserve Fund. These contributions are supplemented by the proportionate share of “Other-than-State” participants in any gain on investment transactions realized in the Fund. State Investment Council Regulations provide that the Reserve Fund will be charged, to the extent that funds are available, with the proportionate share of the “Other-than-State” participants in (a) any loss occasioned by the bankruptcy of an issuer of an investment held by the Fund and (b) any loss realized upon the sale of an investment by the Fund. These amounts are reinvested and participate in the Fund.

Division of Investment
Department of the Treasury
State of New Jersey
Cash Management Fund

Notes to Financial Statements (continued)

7. Reserve for Investment Losses and Administrative Expense Fund (continued)

During the fiscal years ended June 30, 2002 and June 30, 2006, the Reserve Fund was restructured pursuant to the State of New Jersey Appropriations Acts for fiscal years 2001-2002 and 2005-2006. Pursuant to these restructuring plans, investments in the amount of \$72 million and \$12 million in fiscal 2002-2003 and 2006, respectively, were released to the General Fund of the State of New Jersey. As of June 30, 2002, the State of New Jersey obtained a financial guaranty insurance policy in the amount of \$72 million, with a policy expiration date of December 1, 2012. The policy requires that a minimum of \$13 million be held in the Reserve Fund and utilized prior to any drawing on the policy. The State of New Jersey obtained a second financial guaranty insurance policy as of June 30, 2007 in the amount of \$12 million, with a policy expiration date of July 1, 2016. The second policy requires that a minimum of \$16 million in cash and liquid investments be held in the Reserve Fund and utilized prior to any drawing on the policy. The State of New Jersey has agreed to reimburse the policy issuer for any amounts drawn under the policies within two years of the date of such drawing, subject to and dependent upon an appropriation being made by the Legislature.

As of June 30, 2010, the cost basis of the amounts held as reserves for investment losses and administrative expenses, included in the accompanying financial statements, were \$36,405,345 and \$2,111,390, respectively. As of June 30, 2009, the cost basis of the amounts held as reserves for investment losses and administrative expenses, included in the accompanying financial statements, were \$33,842,662 and \$2,175,992, respectively.
