Treasurer Abelow issues statement

TRENTON -- State Treasurer Bradley Abelow issued the following statement in response to today's announcement by Senator Raymond Lesniak on asset monetization:

“We welcome Senator's Lesniak's continued interest and engagement in this issue.

“We have said from the beginning that the Legislature will play a prominent role in the debate and the process of forging potential public/private partnerships on state assets.

“The Senator has raised many of the same standards and concerns that we are examining and will continue to examine in our evaluation process. We are working hard to complete our assigned study so we can present the Governor with thorough and detailed options for asset monetization.”
