ATLV™ 4300

Vacuum, Litter Model ATLV™ 4300, has a powerful 28 HP water-cooled diesel engine to pick up all types of litter. 110-gallon litter capacity, climbs 270 degrees and has a 4" reach. 46" wide frame, 7" curbs, 8" hose swings, large 18" and 23" tires. Comes with headlights and taillights. Has OSHA 29CFR1928.52 approved rollover protection safety guard (ROPS).

ATLV™ 4300 Litter Vacuum

All Terrain Litter Vacuum (ATLV™) picks up litter on asphalt or turf.

Climbs 7" curbs with ease.

Four-wheel stance allows greater stability on hills and ramps.

24-month or 2,000 hours warranty (except for normal wear items).

7100 Power Scrubber

Cleans quickly, quietly with fume-free battery power.

More productive and cost-effective than a walk-behind scrubber.

Scrubs aggressively.

Extremely quiet 72 dBA operation.

Small, 28" path allows unit to get into close, congested areas.

On-board electronic self-diagnostics.

**7100 Scrubber 28"
Disk**

Scrubber, Battery Power, Model 7100 with Disk Brushes, 28" scrubbing path and frame no wider than 33". Dispenses solution, scrubs with two disk brushes, and vacuum from a 30-gallon is recovered into a 45-gallon (includes a dries in one pass dirty solution demisting chamber) recovery tank. The scrubber has a scrub head that will allow it to clean flush next to walls and pallets. It has on-board electronic self-diagnostics. This is designed to check the actuators, propelling system, brush motors, vacuum fan, and other sensors. Should any problems be detected, the control panel will indicate to the operator and/or the mechanic what needs to be corrected. No-tool squeegee blade replacement. Powered by a 36-volt, 244 amp hour battery pack (#390828). Includes a 25 amp, 12-volt "smart" charger, headlights, power shutdown button, a Nationally Recognized Testing Laboratory Label on the machine, an automatic squeegee lift, and two nonscuff poly brushes (#222320). The vacuum fan shall be protected by an inline synthetic filter.

7300 Power Scrubber

Cleans quickly, quietly with fume-free battery power.

Scrubs aggressively.

Easy to operate, scrubs up to a 48" path.

Leaves any floor - whether smooth or rough - nearly dry and spotless.

FaST® - Foam-action Scrubbing Technology System.

		<u>Part Number</u>	<u>List Price</u>	<u>NJ Price</u>
7300 Scrubber Disk w/MaxPro® 1000	Scrubber, Battery Power, Model 7300 Disk Brushes w/MaxPro® 1000 , 40" scrubbing path with a frame no wider than 45". Dispenses solution from a 57-gallon solution tank, scrubs with two disc brushes and vacuum dries in one pass. Dirty solution is recovered into a 74 gallon (including the demisting chamber) recovery tank. The sliding scrub head allows it to clean flush next to walls and pallets. To prevent damage, the scrub head retracts on impact. It has on-board electronic self-diagnostics. This is designed to check the actuators, pumps, brush motors, vacuum fan and other sensors. Should any problems be detected, the control panel will indicate to the operator and/or the mechanic what needs to be corrected. Scrub head automatically lifts in reverse, when machine is in idle, or when batteries reach 80% discharge. Slide on/off squeegee blade replacement. Has recovery tank warning light, automatic vacuum fan shutoff, plugged recovery system indicator (363328), battery discharge indicator with hour meter, a Nationally Recognized Testing Laboratory Label on the machine, and two brushes (14953). FaST® increases productivity by extending scrubbing time up to 400%, uses less water and has self-collapsing foam. Does not include battery and charger.	M7300D/1000	\$26,597.00	\$25,666.11
7300 Scrubber HD Disk w/MaxPro® 1000	Scrubber, Battery Power, Model 7300 Heavy-Duty Disk Brushes w/MaxPro® 1000 , same as above, but with heavy-duty brush motors.	M7300D/HD/1000	\$27,097.00	\$26,148.61
7300 Scrubber Disk w/MaxPro® 1200	Scrubber, Battery Power, Model 7300 Disk Brushes w/MaxPro® 1200 , same as above, but with a 48" scrubbing path and three scrubbing brushes (30241).	M7300D/1200	\$28,397.00	\$27,403.11

550 Power Scrubber

Cleans a 50" path. Scrubs and picks up debris in one step.

Holds 140 gal. Solution. Covers 85,000 sq. ft. per hour.

Battery, gas, LP or diesel power.

Helps avoid F.O.D. (foreign Object Damage) to operating equipment.

2-year/2,000 hour warranty on engine and hydraulics (except normal wear parts).

550G Scrubber

Scrubber, Model 550G, EPA Certified, 50" path. Applies detergent solution, scrubs aggressively with dual opposed-rotation cylindrical brushes, picks up debris and vacuums dry in one operation. Articulated power steering and all hydraulic drive (eliminates maintenance items). 83 HP industrial 4 cyl. liquid-cooled engine. Stainless steel 40 gal. solution/120 gal. recovery tanks. 2.5 cu. ft. debris hopper. Includes two #75718 brushes.

<u>Part Number</u>	<u>List Price</u>	<u>NJ Price</u>
M550G	\$73,197.00	\$70,635.11

550LP Scrubber

Scrubber, Model 550LP, EPA Certified, same as 550G but with 83 HP industrial engine equipped for LP gas operation. Includes LP tank.

550 SRS® Power Scrubber

Exclusive SRS® model EXTENDS SCRUB TIME UP TO 6 HOURS, dramatically cuts fill and dump time.

Cleans a 50" path. Scrubs and picks up debris in one step.

Helps avoid F.O.D. (foreign object damage) to operating equipment.

Battery, LP, diesel or gas power.

2-year/2,000 hour warranty on engine and hydraulics (except normal wear parts).

**550G SRS®
Scrubber**

Scrubber, Model 550G SRS®, EPA Certified, 50" path. Applies scrubbing solution, scrubs aggressively with dual opposed-rotation scrub brushes, picks up debris and vacuums dry in one operation. Recycles solution for reuse to extend productive scrubbing time. The Solution Recycling System provides greater productivity and saves on cleaning solution and water usage. Articulated power steering and all hydraulic drive. 83 HP industrial 4 cylinder liquid-cooled engine. Stainless steel 265 gal. recycling tank. 2.5 cu. ft. hopper. Includes two #75718 brushes.

<u>Part Number</u>	<u>List Price</u>	<u>NJ Price</u>
M550G SRS®	\$84,297.00	\$81,346.61

**550LP SRS®
Scrubber**

Scrubber, Model 550LP SRS®, EPA Certified, same as 550G SRS® but with an 83 HP industrial 4 cylinder engine equipped for LP gas operation. Includes LP tank.

M550LP SRS®	\$86,197.00	\$83,180.11
-------------	-------------	-------------

**550D SRS®
Scrubber**

Scrubber, Model 550D SRS®, EPA Certified, same as above but with 3.0 liter liquid-cooled 4 cylinder industrial Kubota diesel engine. Offers lower maintenance costs, cleaner emissions.

M550D SRS®	\$87,797.00	\$84,724.11
------------	-------------	-------------

**550E SRS®
Scrubber**

Scrubber, Model 550E SRS®, same as above but battery powered. Uses two (3.2 HP, 72 volt) electric motors for propelling drive. Brushes are driven by two (2 HP, 72 volt) electric motors. Includes two 36 volt, 510 amp hour batteries and one three-phase 220/440 volt charger.

M550E SRS®	\$92,097.00	\$88,873.61

1550 SRS® Power Scrubber

Spill Response/Glycol Recovery Vehicle

SRS® Solution Recycling System allows up to 10 hours scrubbing before refilling is required. Huge solution tank holds 510 gallons.

Powerful vacuum system and curved, double-wall squeegee gives unequalled water pickup. Scrubs spillage and picks up small objects, broken bottles, etc.

Articulated power steering gives maximum maneuverability.

		<u>Part Number</u>	<u>List Price</u>	<u>NJ Price</u>
1550G SRS® Scrubber	Scrubber, Model 1550G SRS®, EPA Certified , has 50" path and 83 HP industrial engine. Applies detergent solution, scrubs aggressively, picks up debris and vacuums dry in one operation. 8300 Power Sweeper/Scrubber

Cleans quickly, quietly with fume-free battery power.

Sweeps and scrubs aggressively.

Easy to operate, scrubs up to a 48" path.

Leaves any floor - whether smooth or rough - nearly dry and spotless.

FaST® - Foam-action Scrubbing Technology System.

2-year/2,000 hour warranty on all components except normal wear items, 6 months labor.

8300 Disk 1000 Sweeper/Scrubber

Sweeper/Scrubber, Battery Power, Model 8300 Disk with MaxPro® 1000, 40" scrub path with a frame no wider than 45". Dispenses solution from a 57 gallon solution tank, scrubs with two disc brushes and vacuum dries in one pass. Dirty solution is recovered into a 74-gallon (including the demisting chamber) recovery tank. The sliding scrub head allows it to clean flush next to walls and pallets and retracts on impact to prevent damage. The sweeper/scrubber is equipped with a 60" multi-level dump debris hopper and a 52.5 sq. ft. dust filter that traps dust to 3 microns. When the hopper is raised the brushes are deactivated. The dust filter is cleaned with a timed filter shaker motor. The unit includes an automatic fire sensing device that is permanently mounted, resettable and maintenance free. The fire sensing device automatically shuts down the vacuum fan and power steering. It has on board electronic self-diagnostics. This is designed to check the actuators, pumps, brush motors, vacuum fan and other sensors. Should any problems be detected, the control panel will indicate to the operator and/or the mechanic exactly what needs to be corrected. Scrub head automatically lifts in reverse, when the machine is in idle or when batteries reach 80% discharge. Slide on/off squeegee blade replacement. Has recovery tank warning light, headlights and taillights, automatic vacuum fan shutoff, plugged recovery system indicator, battery discharge indicator with hour meter, battery and charger, a Nationally Recognized Testing Laboratory Label on the machine, one 363868 sweeping main brush, one 87419 side sweeping brush and two 14953 scrubbing brushes. FaST® increases productivity by extending scrubbing time up to 400%, uses less water and has self-collapsing foam. **Does not include battery and charger.**

8410 Power Sweeper/Scrubber

Sweeping and scrubbing capabilities available in one machine. Single buttons control both functions to simplify operation. Brushes and squeegees change quickly without tools.

Effective sweeping in nearly any application. Direct-throw sweeping combines with II-Speed™ cleaning system to pick up full range of debris indoors or out.

Outstanding scrubbing results from aggressive brush action and a high-volume pickup system. Has excellent water control even on turns. Unique positionable scrub head cleans right up to walls, edges, and pallets.

R14 Dual Technology Carpet Maintainer

Carpets are clean, dry and ready for traffic in less than 30 minutes with ReadySpace technology.

Remove even the most deeply-embedded dirt from carpets with powerful restorative extraction.

ReadySpace technology uses 80% less water, and leaves behind up to 90% less water versus traditional extraction, helping to reduce mold growth and increasing environmental health and safety.

The R14 has superior ergonomics to prevent operator fatigue.

**TENNANT COMPANY NORTH AMERICAN
INDUSTRIAL LIMITED WARRANTY**

NEW MACHINES

Tennant Company warrants to the original purchaser for the period stated below that goods manufactured by it will be free from defects of workmanship and material, provided such goods are installed, operated, and maintained in accordance with Tennant Company's written manuals or other instructions. No warranty is made with respect to items supplied by Tennant Company on special order of purchaser. Tennant Company's sole obligation under this Warranty will be to repair or replace, at Tennant Company's option, parts that do not conform to this Warranty.

LABOR COVERAGE

For six (6) months from date of installation, Tennant Company will, at its option, provide labor for repair, pay for outside repair service, or pay the customer straight time in accordance with Tennant Company's flat rate schedule for particular warranty repairs. After six (6) months, Tennant Company's sole obligation shall be limited to the repair or replacement, at Tennant Company's option, of parts that do not conform to this Warranty according to the schedule below.

PARTS WARRANTY PERIOD

Tennant Company warrants its equipment for a set number of months or for a set number of hours of use, whichever comes first. The warranty periods and hours of use vary depending upon the machine model. The warranty periods for Tennant Company's various machines are:

SPECIALTY MACHINES

Machine Model	Warranty Period	Machine Model	Warranty Period
ATLV 4300	24 months/2000 hours	8210*	24 months/2000 hours
LitterHawk™	24 months/2000 hours	8300*	24 months/2000 hours
8200*	24 months/2000 hours	8410*	24 months/2000 hours

SCRUBBERS

Machine Model	Warranty Period	Machine Model	Warranty Period
550	24 months/2000 hours	7300	24 months/2000 hours
1550	24 months/2000 hours	7400*	24 months/2000 hours

SWEEPERS

Machine Model	Warranty Period	Machine Model	Warranty Period
Sentinel	24 months/2400 hours	6200	24 months/1000 hours
800*	48 months/2800 hours	6400	24 months/2000 hours
810*	48 months/2800 hours	6600/6650*	48 months/2800 hours

*Ford engines installed as original equipment on TENNANT Models 6600, 6650, 800 and 810 carry a 5 year/3000 hour parts only warranty. General elts, carburetors, fuel pumps, and alternator assemblies are excluded

GMC engines installed as original equipment carry a 5 year/3000 hour parts only warranty. General maintenance items such as spark plugs, fan belts, fuel pumps, and alternator assemblies are excluded.

*Duramer hopper, solution and recovery tanks, and optional Pre-hopper 5 years/5000 hours.

Models T7, 6100, 7100 and 7200 are covered by Tennant Commercial Machine Warranty.

Sweepers, Scrubbers, Sweeper/Scrubbers, self-propelled, industrial type, rider operated

Warranty for Models T7, 6100, 7100 and 7200 Only

U.S. and Canada Commercial New Machine Warranty

The warranty terms outlined below are in lieu of any other warranties, either expressed or implied, including any implied warranty of merchantability, fitness for a particular purpose or otherwise. Under no circumstances will seller be liable for any loss, damage, expense or consequential damages arising in connection with the use, or inability to use, these products.

This warranty does not apply to damage or defect caused by accident, misuse, negligence, abuse, fire or to any Tennant product that has been serviced by anyone other than an authorized Tennant service representative. Parts that are damaged as a result of improper use of the machine are excluded from this warranty. Please refer to the Owner's Manual for proper machine use and maintenance. Parts that are expected to wear from normal use, including, but not limited to: batteries (warranty pro-rated for one year), belts, drive chains, brushes, pad drivers, filters, squeegees, tires, skirts, hand grips, battery cables, power cords, cord restraints, external hoses, vacuum bags, fuses and carbon brushes, are not covered under the parts warranty.

This warranty begins on the date of purchase of the product by the original end user from an authorized Tennant sales representative, subject to proof of purchase. A Machine Installation/Warranty Report form included with the Owner's Manual must be completed and returned immediately at the time of purchase. If proof of purchase date is unavailable, the warranty begins ninety (90) days after the sale of the product to an authorized Tennant dealer.

10-3-3 Warranty for T7 Model

Subject to the conditions outlined above, Tennant warrants the rotationally molded polyethylene parts on all of its machines to be free from defects in materials and workmanship, under normal use and service for ten (10) years to the original end user. Under this warranty, Tennant guarantees the performance of non-polyethylene parts and components to be free from defects for up to three (3) years or 2,500 hours of operation (1,500 hours on the T7 Model), whichever comes first, to the original end user. Parts replaced or repaired under this warranty are guaranteed for the remainder of the original warranty period or ninety (90) days. Labor charges are covered for three (3) years (includes polyethylene and non-polyethylene parts) from the date of purchase for Tennant models, provided an authorized Tennant service provider is used for repair. Travel is covered for ninety (90) days on battery models. No travel coverage is extended for electric cord models.

10-2-6 Warranty for 6100, 7100 and 7200 Models

Subject to the conditions outlined above, Tennant warrants the rotationally molded polyethylene parts on the 6100, 7100 and 7200 models to be free from defects in materials and workmanship under normal use and service for ten (10) years to the original end user. Under this warranty, Tennant guarantees the performance of non-polyethylene parts and components on the 6100, 7100 and 7200 models to be free of defects for up to two (2) years or 1,000 hours of operation, whichever comes first, to the original end user. Parts replaced or repaired under this warranty are guaranteed for the remainder of the original warranty period or ninety (90) days. Travel and labor charges are covered for six (6) months from date of installation. Tennant will, at its option, provide travel (maximum of 3 hours) and labor for repair, or pay for outside repair service in accordance with Tennant Company's flat rate schedule for certain warranty repairs.

Ultimate Performance Guarantee

The following machines are covered by the Ultimate Performance Guarantee:

Model ATLV 4300	Model 800	Model 5700	Model M6650	Model M8200
Model Centurion	Model 810	Model 6100	Model M7100	Model M8210
Model Litter Hawk	Model 1550	Model 6200	Model M7200	Model M8300
Model Sentinel	Model 3640	Model 6400	Model M7300	Model M8410
Model 550	Model 5680	Model 6600	Model M7400	

The Tennant "Ultimate Performance Guarantee" states that, for the first six months following the date of installation of your Tennant machine, your machine's performance is guaranteed - subject to the provisions listed below and on the reverse side. If your machine does not perform to design specifications after Tennant has had the opportunity to resolve any concern with the performance during the first six months after installation, you may return it to us for a full refund, including tax and freight charges, or return it in exchange for a new machine of equal value.

PROVISIONS:

1. Your local Tennant sales representative will install the machine after it arrives at your facility, instructing your personnel how to operate and maintain the machine in accordance with the Tennant operation manual.
2. You will perform routine maintenance as outlined in the machine manual.
3. If you experience any problems with your machine, you will allow us adequate time to respond to and correct the problem. We will respond to your request for assistance within two business days. Any corrective action necessary will be given our highest priority.
4. In addition to the above coverage, all other provisions of our normal warranty will apply.
5. See the reverse side for other restrictions.
6. Contact your local Tennant representative for details at 1-800-553-8033 (Continental U.S. and Canada).
