## Section 4 - Cost Proposal

**The bidder must submit its pricing using the format set forth in the State supplied price sheet(s) attached to this RFP. Failure to submit all information required will result in the bid being considered non-responsive. Each bidder is required to hold its prices firm through issuance of contract.**

To date under the current LexisNexis contract, New Jersey state agencies already have access to unrivaled public records and news content. LexisNexis is pleased to offer the State of New Jersey an even **more robust** content offering in our response to RFP 07-X-37378. LexisNexis continues to lead the way in expanding the State of New Jersey's access to broader data sets, providing the most innovative investigative technology available to Government and Law Enforcement. New Jersey agencies rely upon our data and technology under the current contract agreement. LexisNexis proposes the inclusion of **Accurint for Government, Accurint for Law Enforcement, Factiva News** and **Company Dossier** in addition to the current contract base product offerings. LexisNexis is confident the addition of these technologically superior products will greatly enhance each unique agency's ability to fulfill their obligations to the citizens of New Jersey in a thorough and efficient fashion. We at LexisNexis look forward to the opportunity to continue our long-standing partnership with the State of New Jersey.

### Flat-Rate Offering (price lines 00001 through 00042)

- **Public Records** - With a level of reliability unmatched in the industry, our online public records collection is also the largest. In-depth and up-to-date, it gives you data pooled from more than 8,800 sources. Coverage includes more than 33 billion individual and business records. To enhance your efficiency and support your decision-making process, you can access public records to complement your use of our news and business information.
- **News and Business** - Our vast news and business collection, including Factiva, Barron's, and Dow Jones and Reuters newswires, not to mention the Wall Street Journal and the New York Times, spans 30,000 news and business publications on lexis.com, including 3,400 crucial news, business, economic and financial information sources. Also, more than 500 separate sources of company-specific information—including Experian Business Reports, Standard & Poor's Register of Corporations, US Business Directory, & D&B's Global Duns Market Identifiers—as well as news stories on more than 35 million companies worldwide are available through our services.
- **Law Enforcement Solutions Page** - A single, easy-to-use web search page, gives you access to data from over 8,800 data sources. Now you can perform true nationwide searches, with the added ability to cross-check and verify information through powerful proprietary databases from LexisNexis, to find people, assets, businesses, to leverage background information, to keep on top of the latest news, and to search international public records.
- **SmartLinx** - The next generation in public records research, SmartLinx helps begin an investigation by searching for the most accurate and reliable information available. Within SmartLinx Person, Business, or Location Summaries, you can utilize the latest in data visualization technology to view a complete chart mapping the connections between the subject of the SmartLinx Summary and any assets, associated entities, locations, businesses, liens, judgments, bankruptcies or other data.
- **Accurint for Government** - This powerful investigative tool already is used by over 2,000 government agencies across the country, helping enforce laws and regulations, fight fraud, waste and abuse and provide citizen-centric services. The next-generation search technology enables government professionals to instantly gather and analyze current, comprehensive and authoritative LexisNexis public records, allowing them to perform their jobs more efficiently and effectively.
- **Accurint for Law Enforcement** - This cutting-edge investigative technology enables law enforcement to quickly locate suspects, find missing children and solve cases quicker by providing instant access to a comprehensive collection of public records data that would ordinarily take days to collect using traditional investigative methods.

- **Company Dossier** - Company Dossier provides basic and in-depth business information on more than 35 million global companies—designed around the way you work. This business information report product gives you access to; U.S. and global company overview information, financials, competitive information, executive information, subsidiaries list, Current news articles, press releases, docket listings, litigation trends, litigation risks, trademarks, access to court documents, summaries of cases, commentaries, inside/outside counsel, auditor, Bank information and more.
- **Industry Dossier** - Industry Dossier provides unparalleled industry information and metrics on more than 1,000 industries—designed around the way you work. Industry Dossier provides unparalleled industry information and metrics from authoritative business, financial, economic, merger, legal and news sources with current, comprehensive and easy-to-use market information driven solutions—all in one place. Information sources include-Mergerstat, Integra, Market Guide, U.S. Congress Bill Text and Bill Tracking and U.S. Census Bureau Data organized by state, employee size, product class and more; link to full reports and individual statistical tables.

## Optional Services (price line 00106)

- **Accurint Add-Ons**
  - **People at Work** - This powerful function links more than 132 million individuals to businesses and includes information such as business addresses, phone numbers, and possible dates of employment, all critical to investigations. For the first time ever, Accurint users can develop new leads using the most accurate, up-to-date information available based on probable current and historical employment information.
  - **Advanced Person Search** - With Advanced Person Search, you can dig deeper in locating that subject who's not easy to find and get an instant indication of what lingers in the shadows. Advanced Person Search's searching capabilities allow you to combine the information you have to make searching for your subject faster and easier, saving you time.
  - **Phones Plus** - The Phones Plus feature provides access to over 80 million records that contain name, address and non-Electronic Directory Assistance (EDA) phone numbers. Non-EDA might consist of cell phone numbers and other numbers that are not presently included in directory assistance data.
- **Accurint for Law Enforcement Plus** - Accurint for Law Enforcement Plus helps increase efficiency and save time by seamlessly integrating a comprehensive suite of analytical tools into one, easy-to-use desktop application. The result is a comprehensive analytical toolkit that enables investigators to instantly access vital information, rapidly identify potential leads and solve cases quicker.
- **Accurint for Health Care** - Accurint for Health Care is tailored to the needs of health care payers. You can expect to continuously see on-going system enhancements and the addition of new data for directed solutions for claim processing, waste, abuse and fraud prevention, detection and investigation, and patient and provider verification/validation.
- **InstantID** - InstantID employs a proprietary search and string technology to authenticate identities, check against government lists of known and suspected terrorists and identify circumstances often associated with high risk.
- **Screening** - Our Screening service is designed for organizations that need fast, easy, legally compliant employee screening and tenant applicant background checks with built-in reporting tools. Leveraging breakthrough data management technologies, a multi-billion record data repository and deep data expertise, this service provides quick results at the industry's lowest prices.
- **Optional Batch Services** - **LexisNexis is pleased to offer the first 1,000 Batch records per agency submitted at no charge.** LexisNexis leads the industry in database customization, working with our clients to create off-line delayed searches to their specifications. What makes LexisNexis unique in the batch market is our ability to work with any data input set and return to the client a customized, on-point result set. While most data providers require their clients to follow strict input/output layouts and file transfer methods, LexisNexis creates layouts and methods based on client requirements.
