<b>*CrossBow &amp; Airflow CB Notes:</b>															
1) For 2/4 point stringing machines: CrossBow racquets require a special pattern on these machines - Please contact HEAD customer service or <a href="http://www.head.com">www.head.com</a>															
2) For 6 point stringing machines: CrossBow racquets require a special adaptor at the 12:00 position - every racquet is shipped with this adaptor & instructions															
3) Crosses must begin at the head on the same side with the marked tie off hole -- This insures that the strings will match the grommets at 3 and 9 o'clock.

 Features HEAD's patented Power Channel System  
 On IGS Racquets, crosses must be started on the same side of the frame as the tie off hole at 4T (4T has 2 IGS holes on this side of the frame). On IGS Racquet crosses, tension must be pulled over or under the frame. Before pulling tension you must lock the table on the machine. Pull tension and clamp far enough from the frame so you can tehn run the cross through the IGS channel and weave the next cross. Repeat until all crosses are done. Alternate stringing 2-3 mains on each side. Feed first left main from 1LH through 1LT (top hole). As you feed string into 1LT it will automatically come out of 2LT (top hole) and then proceed to 5LH for second main. Continue to 7LH down to 2LT (second hole) for third main. String will automatically come out of 1LT (second hole) and proceed to 2LH for fourth main. Continue feeding string through 3LH to 1LT (third hole) for fifth main. String will come out of 2LT (third hole) and proceed to 9LH for sixth main. Continue string through 12LH to 2LT (fourth hole) for seventh main. String will come out of 1LT (fourth hole) and proceed to 4LH for final main. Follow same procedure on right side but reverse level of entry on Power Channel System; i.e., feed first right main from 1 RH through 1 RT (bottom hole) and string will automatically come out of 2RT (bottom hole), then proceed to 5RH for second main, etc. Tie off short side at 5H. Start 1X at 6RH and weave over fifth main.

### STATEMENT OF POLICY

It is HEAD Penn Racquet Sports' policy to provide consumers with the highest quality equipment available in the marketplace, and to sell this equipment through dealers who devote their efforts to promoting such high quality products and who represent the quality image associated with HEAD and Penn brand products. The purpose of the Statement of Policy is to affirm HEAD Penn Racquet Sports' commitment to protecting the quality image and goodwill of HEAD and Penn brand products purchased by dealers and resold in the sporting goods marketplace.

- Fail to comply with all applicable federal, state, county and local laws and ordinances regulating sales and advertising practices by retailers;
- Fail to adequately represent and promote the quality image and goodwill associated with HEAD and Penn brand products;
- If the dealer who maintains a walk-in sales premise fails to maintain a qualified staff of sales personnel to assist consumers in selecting their equipment; or
- If the dealer who maintains a walk-in sales premise fails to provide attractive facilities for consumers to view and be properly fitted for HEAD and Penn brand products.

HEAD Penn Racquet Sports will continue to value the business of dealers who, in its view, share HEAD Penn's commitment to excellence.

HEAD and Penn products are shipped on the understanding that all purchases are for US retail sales or Dealer's use and not for wholesale distribution. Retail dealers engaging in unauthorized wholesale distribution are subject to account termination.

HEAD Penn's Statement of Policy supersedes all previous statements. HEAD Penn Racquet Sports reserves the right to rescind or modify it in the future. Any questions regarding this Statement should be directed to the President of HEAD Penn Racquet Sports.
