Ordering C.O.M., C.O.L., and C.O.V.

Bonduel, Green Bay, Ontario, and Tupelo

Ordering C.O.M., C.O.L., and C.O.V.

Bonduel, Green Bay, Ontario, and Tupelo

How to Specify C.O.M. Upholstery

Textile designs often have intricate patterns. Not all individuals will interpret fabric direction in the same manner.

As a standard procedure, KI cuts fabrics off the roll in a horizontal fashion as shown in Diagram A at the right. By cutting in this fashion, most waste is eliminated. Our requirements for yardage in this book are based on this type of cutting. When directional or patterned fabrics are used, they often require more yardage than solid colors.

By providing KI with a completely filled-out copy of the form on this page, we will be able to expedite your order. We find it particularly helpful with directional or patterned upholstery material. It is critical that copies of this form accompany test quantities as well as production quantities of C.O.M.

C.O.M. must be supplied in continuous yardage.

C.O.M., C.O.L. and C.O.V. Testing

KI will require for testing actual yardage to upholster one chair. The testing requirements depend on which chair you have selected on your order.

Test samples will be applied to the order and will be held for 6 months if needed. After 6 months, the sample can no longer be applied to your order. For all products to be tested, send test samples for approval to:

KI
1440 Ontario Street
Green Bay, WI 54311
Attn: C.O.M. Specialist

To expedite the procedure, attach a copy of the "C.O.M. Information Form" on this page.

All C.O.M., C.O.L. and C.O.V. must be labeled with the purchase order number.

C.O.M., C.O.L. and C.O.V. Production

Customer's fabrics and leathers must be approved prior to acceptance for production. Upon test approval, a 1" square sample swatch of upholstery material must accompany the order. KI assumes no responsibility for wear, defects or performance of customer's own fabrics, vinyl or leather. C.O.M., C.O.L. and C.O.V. orders are available on a deferred delivery basis.

Orders for production of C.O.M., C.O.L. and C.O.V. upholstered products are not scheduled for processing until upholstery material is received. Upon receipt, KI will provide an acknowledgement and an estimated shipping date.

KI recommends that leather be ordered in yardage. Leather must be usable. The outer edges cannot be calculated as square feet or yardage.

The C.O.M., C.O.L. and C.O.V. yardage requirements accompanying products in the pricing section are for 10 chairs/seats or less, 54" wide nondirectional material. On larger orders, less material is required.

For exact production yardage requirements, call 1-800-424-2432, ext. 2707.

C.O.M., C.O.L. and C.O.V. Order Processing
For products shipped from Green Bay, WI facility, ship upholstery material to:

KI
Attn: C.O.M. Storage
1440 Ontario Street
Green Bay, WI 54311

For products shipped from Tupelo, MS facility ship material to:

KI Tupelo
Attn: C.O.M. Storage
2112 South Green Street
Tupelo, MS 38801

For products shipped from Bonduel, WI facility, ship material to:

KI
Attn: C.O.M. Storage
204 West South Street
Bonduel, WI 54107

For products shipped from Ontario, CA facility, ship material to:

Avail/Impress/Kismet/Medical & Laboratory Stools/Pilot
Attn: C.O.M. Storage
1110 S. Mildred Ave.
Ontario, CA 91761

Intricate Patterns

In the event of specific requirements for positioning of intricate patterns or pattern repeats on seats and backrests, provide a sketch noting requirements, as in Diagram B, along with materials for testing, and with the order.

Diagram B

Treated Materials

If C.O.M. requires processing such as Scotchgard® or acrylic backing, it often shrinks. To prevent delays in delivery or back ordering due to shrinkage, please have your processor remeasure after processing and assure adequate yardage shipment.

Split Orders

If a portion of the shipment which does not require C.O.M., C.O.L. or C.O.V. applications is to be processed and shipped early, KI will enter the order immediately at your request. These split shipments are subject to minimum order changes.

Contact the C.O.M. Specialist at 1-800-424-2432, ext. 2707, with questions or to verify a split order.

Excess Upholstery Material

KI will dispose of excess upholstery material at the time of shipment unless expressly requested to return it with the product shipment.

Cancelled or Changed Orders

KI assumes no responsibility for extra C.O.M., C.O.L. or C.O.V. material due to a change of upholstery or cancellation of an order. It is the customer's responsibility to arrange for return of this material.

C.O.M., C.O.L. and C.O.V. Information Form

A copy of this form should accompany test requests and production orders. Please fill it out completely, and, if your order has been acknowledged, provide the acknowledgement number.

SPECIFICATIONS

Torsion® Seat

Seat and Backrest

Seats and backrests are molded compound curved polypropylene with a textured finish. Seat is two-piece construction. Upholstered chairs have partially exposed polypropylene surfaces. Fabric is upholstered over 9/16" foam on the backrest and 15/16" on the seat.

Backrest Supports

Two die-cast aluminum backrest supports attach the backrest to the Torsion® mechanism. A steel tube is cast into each backrest support for added strength.

Torsion® Mechanism

The back flex is achieved by the Torsion® mechanism. It consists of two flat torsion springs captured at both ends by brass bushings which in turn engage with the backrest supports. The Torsion® mechanism creates gradually increasing resistance

over the full 12° of back flex.

Design

Designed by Giancarlo Piretti and manufactured in the USA by Krueger International, Inc. under license from Pro-Cord S.p.A.

Intellect Wave™

Shell

One-piece contoured shell shall be made of static-free, high-impact polypropylene. Colorfastness ensured through complete color impregnation throughout the molded part. Strength and durability shall be assured through an engineered internal structural cavity which eliminates the need for unsightly ribs on the back of the shell. Rolled edges for comfort and strength. Textured front and back. Wide, ergonomic handle molded into chair back for ease of mobility. Shell fastens to frame with six 3/16" multi-grip, high-strength steel rivets.

Seat Height Adjustment

Seat height adjustment shall be available via pneumatic cylinder. Lever-controlled pneumatic height adjustment has infinite height selection within the range. Seat swivel shall be standard. An optional auto height, auto return cylinder is lever-controlled pneumatic height adjustment with infinite height selection within a range and returns seat to the highest forward position when unoccupied, leaving an orderly look to any room.

Worksurface

Worksurface construction shall be 3/4", 45# density, MDF worksurface with .030' laminate, .020" paper backer, and 74P edge. Square and rectangular worksurfaces shall have comfort curve on user side and 1.5" radius corners. Tops are predrilled.

Worksurface depth adjustment shall allow for 4" of belly room adjustment via holes in the spider plate and metal inserts in the worksurface.

Frame

Desk frame shall consist of one unitized welded frame consisting of a 1.00" x 3.00" x 14-gauge elliptical steel tube, 1.75" OD x 14-gauge round steel tubing, 13 ga. formed pipe, and a 0.250" thick steel plate. The 13 ga. steel tube is formed to a taper to accept the pneumatic cylinder for the seat.

Front and Rear Rollers

Front and rear rollers embedded in a grey TPU overmold to reduce floor marring. Front roller orientation with die-cast aluminum housing shall allow wheelbarrow type movement of desk when seat is lifted. Weight-activated rear roller orientation in die cast aluminum housing shall allow desk rotation around worksurface column. Rear rollers compress when desk is occupied transferring the weight to three glides preventing movement. Glides will have a non-skid grey base.

Finishes

Metal surfaces are finished with baked-on,

electrostatically-applied, 30 sheen epoxy powder coating.

Wire Book Rack

Wire book rack construction is of .250" diameter steel wire.

Plastic Book Box

Plastic book box construction is of .150" thick thermal-formed polystyrene.

INFORMATION

C.O.M. Testing and Production Requirements

Not all materials are suitable for upholstering Torsion® or Dorsal® seats. A 1 yd. x 54" sample must be submitted and approved prior to acceptance of an order. If the fabric is directional in pattern or weave, the direction must be indicated on the submitted sample, and additional yardage may be requested.

Test samples must be sent to:

HOW TO ORDER

Indicate the following information on order form:

- Quantity of each item.
- Model number, including options. See "How To Build a Model Number".
- Any special service required.

Note: • The indicates that a choice is required.

- The absence of the indicates that no choice is required.
- Alpha-numeric characters in place of indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

A Select basic model.

B Select top shape.

- RD** - Round 24" diameter
- RT** - Rectangle 20" x 24"
- SQ** - Square 24" x 24"

C Select worksurface height.
30" - 30" high

D Select frame color.
Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

E Select seat and back color.
Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

F Select laminate color.
Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

G select edge color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

H Select carton code.

- CTN** - Cartoned; add \$24
- NP** - Standard Packaging

I Select upholstery grade/color.
Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

INFORMATION

Cartoning Information

Uncartoned shipments are standard for single order quantities of thirty or more units shipped via KI carrier. Specify NP.

Cartoning Available

Specify CTN. Cartoning is required for single orders of less than thirty units or orders sent via air freight or UPS. Dealer requested carriers may also require cartoning.

C.O.M. Testing and Production Requirements

C.O.M. requirement is 5/8 yard per upholstered seat chair and 1 yard per upholstered seat and back chair of 54" wide non-directional fabric. For complete information on ordering C.O.M. see the KI Seating price list in the Ordering/C.O.M. and C.O.L. section.

SPECIFICATIONS**Frames**

Duplex nickel chrome plated or powder coated .75 x 1.5" o.d. x 15-gauge elliptical steel tubing.

Seat and Back

Solid, molded, 1/4" thick, ABS plastic attached to frame with screws.

Tops

Solid, molded ABS plastic with comfort curve along back edge, integral pencil grooves on each side. Glue-in, high-pressure, vertical-grade laminate insert is bonded into recessed area on desk top and has a shallow transition between laminate and the ABS edge. The center section of the Two-Student Table is black molded ABS plastic that separates work areas and provides cable management.

ADA Top

Worksurface construction shall be 3/4". 45# high-density particleboard core with 0.030"

high pressure laminate top, phenolic backing sheet, and 74P (2mm) edge. Radius corners with comfort curve along user side.

Glides

Glides are made of two components—the glide body and the glide cap. The glide body is made of heavy-duty nylon plastic for strength and durability. Front and rear nylon glides feature a molded plastic bottom with a flat contour for better weight distribution. The bottom is molded to the glide body for a secure bond. Rear steel glides consist of a zinc cap attached to the bottom of the glide body. Felt caps are also available for the bottom of the nylon glides and are field replaceable. The rear glides are angled to prevent tipping and act as a wallsaver. On the two-student desk, the center leg has two adjustable threaded glides to level the desk on uneven floors.

Swivel type polished zinc-plated steel or nylon floor-saver glides are also available. (Note: Specification of the swivel glides will increase the height of the product by 3/4".)

A felt cap can be added to either the steel or nylon glide for enhanced floor protection. Steel glides are recommended for carpet floors and felt caps are recommended for tile floors. Nylon floor saver is not for use on carpet but can be used on tile floors that are properly maintained.

Chair and Double-Entry Handle

Ergonomically designed handles are located behind seat back on chair on either size double-entry desk. Made of black nylon.

Book Box

Optional solid, molded ABS plastic book box installs by sliding into integral steel track on underside of desk or two-student table (two book boxes can be used with the two-student table). Book box can be used as storage tote when removed from the unit. Stacks up to ten high. Can be used as a computer keyboard tray when in the extended position. Can be fitted with optional mouse tray.

Mouse Tray

Arched piece of solid, molded ABS plastic can be added to optional book box when used as keyboard tray. Slides side-to-side for either left- or right-handed use.

SPECIFICATIONS**Shell**

One-piece contoured shell made of static-free, high-impact polypropylene. Colorfastness ensured through complete color impregnation throughout the molded part. Strength and durability shall be assured through an engineered internal structural cavity which eliminates the need for unsightly ribs on the back of the shell. Rolled edges for comfort and strength. Textured front and back. Wide, ergonomic handle molded into chair back for ease of mobility. Fastens to frame with six 3/16" multi-grip, high-strength steel rivets. Upholstered chairs have partially exposed polypropylene surfaces. Fabric is upholstered over 9/16" foam on the back and seat and fastened to an inner shell with screws.

Frames

Cantilever Chair, 4-Leg Chair, 4-Leg w/ Casters, Music Chair, and Cafe Stool

.75" x 1.5" O.D. x 15-gauge elliptical steel tubing welded to a 14-gauge steel plate. Frame shall be duplex nickel chrome plated or powder coated after all welding processes are complete.

Task Chair and Stool

The frame is constructed of a 12-gauge base plate powder coated black.

Book Rack (under seat)

External framework of 5/16" diameter solid wire rod welded to the chair frame. Cross braces of 5/16" diameter solid wire rod welded between the external framework.

Glides

Swivel type polished zinc-plated steel and nylon floor-saver glides. A felt cap can be added to either the steel or nylon glide for enhanced floor protection. Steel glides are recommended for carpet floors and felt caps are recommended for tile floors. Nylon floor saver is not for use on carpet floors but can be used on tile floors that are properly maintained.

Glides - Task Chair and Stool

Adjustable molded, high-impact plastic glides.

Casters - Task Chair, Task Stool, and 4-Leg Chair w/Casters**Carpet Casters**

Double wheels of high-impact thermoplastic. High-impact plastic frame. Black finish only.

Hard Floor Casters

Double wheels of soft plastic. High-impact plastic frame. Black finish only.

Pneumatic Height Adjustment - Task Chair and Stool

Lever-activated pneumatic cylinder enables seat height adjustment from 16-1/2" to 21-1/2" (large chair), 14" to 16-1/2" (medium chair), and 20-1/4" to 30-3/4" (stool).

Base**Task Chair**

24" injection-molded, glass-reinforced nylon 5-blade base.

Task Stool

26" injection-molded, glass-reinforced nylon 5-blade base.

Armrest - Task Chair and Stool

A tubular steel frame supports self-skinning urethane armrests. The support is bolted to the seat underside. Armrest paint color and top pad are always black. (Field installable)

Fixed top height	29"	29"	30"	29"

SPECIFICATIONS

Shell

One-piece contoured shell made of static-free, high-impact polypropylene. Colorfastness ensured through complete color impregnation throughout the molded part. Strength and durability shall be assured through an engineered internal structural cavity which eliminates the need for unsightly ribs on the back of the shell. Rolled edges for comfort and strength. Textured front and back. Wide, ergonomic handle molded into chair back for ease of mobility. Fastens to frame with six 3/16" multi-grip, high-strength steel rivets. Upholstered chairs have partially exposed polypropylene surfaces. Fabric is upholstered over 9/16" foam on the back and seat and fastened to an inner shell with screws.

Frames

Tablet Arm Chair and Double Entry Desk
0.75" x 1.5" O.D. x 15-gauge elliptical steel

tubing welded to a 14-gauge steel plate. Frame shall be duplex nickel chrome plated or powder coated after all welding processes are complete.

Combination Desk

0.75" x 1.5" O.D. x 15-gauge elliptical steel tubing welded to a 12-gauge steel plate. Frame shall be duplex nickel chrome plated or powder coated after all welding processes are complete.

Fixed Height - 4-Leg Desk and Trapezoid Desk

0.75" x 1.5" O.D. 15-gauge elliptical steel tubing welded to a heavy 11-gauge steel plate. Frame shall be duplex nickel chrome plated or powder coated after all welding processes are complete. Legs fasten to top with K50 2.24 x 13mm Torx head screws.

Fixed Height - Cantilever Desk and Two Student Desk

0.75" x 1.5" O.D. 15-gauge elliptical steel tubing welded to a heavy 11-gauge mounting bracket. Frame shall be duplex nickel

chrome plated or powder coated after all welding processes are complete. Frames fasten to top with K50 2.24 x 13mm Torx head screws.

Adjustable Height - 4-Leg Desk, Trapezoid Desk, and ADA 4-Leg Desk

1.68" x 0.99" OD 17-gauge elliptical steel tube welded to a heavy 11-gauge steel plate. Top section of leg powder coat finish after all welding processes are complete. Telescoping lower section of 0.75" x 1.5" OD 15-gauge elliptical steel tube in bright chrome finish; locks with 1/4" screw in 1" increments in a 22"-34" height range. Legs fasten to top with K50 2.24 x 13mm Torx head screws.

Adjustable Height - Cantilever Desk and ADA Cantilever Desk

0.75" x 1.5" OD 15-gauge elliptical steel tube welded to a heavy 11-gauge steel mounting bracket. Telescoping lower section in bright chrome finish; locks with 1/4" screw in 1" increments. Adjustable height range is 24"-30" and ADA height range is 28"-34". Legs

fasten to top with K50 2.24 x 13mm Torx head screws.

Book Basket (under desk)

Chrome plated 7mm dia. solid steel wire attached to underside of top with eight K50 2.24 x 13mm Torx head screws.

Book Box (under desk)

Molded thermoplastic polypropylene installs quickly to underside of the top with nine K50 2.24 x 13mm Torx head screws. Translucent finish helps provide a safe environment while allowing for some degree of personal privacy. Molded-in pencil tray keeps items conveniently inside book box within easy reach, not on the floor or in the back of the book box.

Book Bag Hook

1/4" solid wire rod quickly installs to underside of top with two K50 2.24 x 13mm Torx head screws. Chrome finish provides long lasting wear resistance.

Glides

Swivel type polished zinc-plated steel and nylon floor-saver glides. A felt cap can be added to either the steel or nylon glide for enhanced floor protection. Steel glides are recommended for carpet floors and felt caps are recommended for tile floors. Nylon floor saver is not for use on carpet floors but can be used on tile floors that are properly maintained.

Top

Cantilever Desk, 4-Leg Desk, Combination Desk, Double Entry Desk, and Two Student Desk

Solid, molded thermoset plastic with pencil groove or high-density particleboard core covered with .03" high-pressure laminate top and .02" phenolic backing sheet and 74P PVC edge. Worksurfaces shall have comfort curve on user side and 2-3/8" radius corners. Hard plastic top is 5/8" thick and the laminate top is 3/4" thick. Rectangle tops measure 19" x 26" and the trapezoid tops measure 20-1/2" x 32". ADA tops measure 36-1/2" x 20" and the hard plastic

ADA tops do not have a comfort curve or pencil groove. Two Student Desk top measures 19" x 60" and is only available in 3/4" laminate. Two Student Desk has two comfort curves.

Tablet Arm Chair

Tablet boards are 5/8" 11-ply plywood core with high-pressure laminate with clear coat edge and plain backer sheet. The effective working surface of the standard tablet arm is 14" x 11" and the effective working surface of the laptop tablet is 18" x 14".

HOW TO ORDER

Indicate the following information on order form:

- Quantity of each item.
- Model number, including options. See "How To Build a Model Number".
- Any special service required.

Note: • The indicates that a choice is required.

• The absence of the indicates that no choice is required.

• Alpha-numeric characters in place of indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

A Select basic model.

B Select book storage option.

- BR** - Book basket; add \$25
- BB** - Book box; add \$20
- BH** - Book bag hook; add \$8
- BRBH** - Book basket & bag hook; add \$33
- BBBH** - Book box & bag hook; add \$28
- NB** - No book storage

C Select frame color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.
 Standard colors: No upcharge.
 Premium colors: Add \$2 list; 3 week lead time.
 Chrome frame: Add \$11 list.

D Select edge finish.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

E Select surface finish.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.
 Standard colors: No upcharge
 Premium colors: Add \$7 list; 3 week lead time.

F Select glide option.

- FS** - Nylon Carpin floor saver glides
- SG** - Steel glides
- FG** - Felt glides

SPECIFICATIONS

CHAIRS - Posture Series 10 & Teacher's Series TC

Frame
Chrome-plated 18-gauge, 1" o.d., non-swaged steel tubing.

Seat & Back
Contoured 5/8" thick, solid, molded thermoset plastic attached to frame with screws.

Glides - Posture Chair Series 10
Swivel-type steel glides (nylon optional).

Casters - Teacher's Chair Series TC
2" diameter dual-wheel type.

Arms - Teacher's Chair Series TC
1/2" wide molded firm plastic foam on 18-gauge, 1" o.d. steel support welded to frame.

Underseat Book Rack-Series 10
Chrome plated 9.5mm dia. solid steel wire

with four solid 8mm dia. wire crossbraces. Attached with two 3/16" high strength steel rivets in rear legs. Measures 13" x 16".

Underseat X-Bracing Series 10
8-gauge, 1/2" o.d. tubing.

DESKS - Series 20, 30, 40, and 60

Frame
Chrome-plated 18-gauge, 1" o.d., non-swaged steel tubing with 18-gauge, 3/4" o.d. u-shaped lower brace welded to legs.

Top
Solid, molded thermoset plastic with rounded edges & pencil groove or high-density particleboard core covered with .030" high-pressure laminate top and .020" phenolic backing sheet w/ sealed clear lacquer edge. 18" x 24" x 5/8". Study ADA (IL40) top measures 20" x 36-1/2" x 5/8". Trapezoid (IL60) top measures 21" x 33" x 5/8".

Glides
Swivel-type steel glides (nylon optional).

Open-Front Book Box - Series 20
One-piece, 20-gauge cold-rolled steel with embossed sides and bottom. 22" x 15-1/4" x 4-3/4"

Lift-Lid Book Box - Series 30
One-piece, 20-gauge cold-rolled steel. Full-length hinge. Two self-balancing lid supports. Interior dimensions = 22-1/4" x 15-1/4" x 5"

Book Basket - Series 40 & 60
Chrome plated 7mm dia. solid steel wire attached to underside of top with eight #10 x 5/8" SMPTH - Zinc screws.

Translucent Book Box - Series 40 & 60
Optional solid, molded thermoplastic polypropylene book box. Translucent finish helps provide safe environment while allowing for some degree of personal privacy. Molded-in pencil tray keeps items conveniently inside book box within easy reach, not on the floor or in the back of the book box. Measures 15" wide, 14" deep, and 4" high.

LAMINATE TOP DESK - Series 50

Tops
7/8" thick high-density particleboard core with 0.030" high-pressure laminate top and phenolic backing sheet predrilled to accept frame.

Frame
1-1/4" OD 18-gauge seam welded tubular steel legs. Telescoping lower section of tubular steel in bright chrome finish; locks with set screw in 1" increments from 22"-32". Side legs assemblies with 14-gauge perforated side aprons and book bag hook. Front modesty panel made from 14-gauge steel with patented interlocking teeth to fit in leg.

Book Tray
16-gauge hemmed steel with tabs to attach to side aprons with screws.

Shipping
Desks will ship k.d. and book trays will ship 4 trays per carton.

COMBINATION DESK - Series 56, 61

Frame
Chrome-plated 16-gauge, 1" o.d. side and back. Legs are 16-gauge, 1-1/4" o.d. Series 61 and Series 66 have a support brace of chrome-plated 16-gauge, 1" o.d. steel tubing.

Seat & Back
Contoured 5/8" thick, solid, molded thermoset plastic attached to frame with screws.

Top
Solid, molded thermoset plastic with rounded edges with pencil groove. 18" x 24" x 5/8". Angled or flat options.

Glides
Swivel-type steel glides (nylon optional).

Underseat Book Basket
Chrome plated 7mm dia. solid steel wire attached with four 3/16" high strength steel rivets to underside of chair frame. 11" L x 12" W x 8-1/2" H.

DOUBLE-ENTRY SLED BASE DESK - Series 58

Base Frame
Chrome-plated 11-gauge, 1-1/8" o.d. steel tubing.

Back Frame
Chrome-plated 16-gauge, 1" o.d. steel tubing.

Seat & Back
Contoured 5/8" thick, solid, molded thermoset plastic attached to frame with screws.

Top
Solid, molded thermoset plastic with rounded edges with pencil groove. 18" x 24" x 5/8".

Glides
Steel or nylon glides available (4 per unit).

Underseat Book Basket
Chrome plated 7mm dia. solid steel wire attached with four 3/16" high strength steel rivets to underside of chair frame. 11"L x 12"W x 8.5"H.

TABLET ARM CHAIR - Series 90

Frame
Chrome-plated 18-gauge, 1" o.d. steel tubing. Tablet arm support frame is 16-gauge, 1" o.d. steel tubing

Seat and Back
Contoured 5/8" thick, solid, molded thermoset plastic attached to frame with screws.

Tablet Arm
Contoured 5/8" thick, solid, molded thermoset plastic attached to frame with screws. Left- or right-handed units. 14" x 19" x 26".

Glides
Swivel-type steel glides (nylon optional).

Underseat Book Rack
Chrome plated 9.5mm dia. solid steel wire with four solid 8mm dia. wire crossbraces. Attached with two 3/16" high strength steel rivets in rear legs. Measures 13" x 16".

**All Terrain® Instructor's Desk**

Unit is based on a 22" deep x 22" wide and 35-1/2" high storage tower. The tower has three adjustable metal shelves and one laminate rollout shelf at the bottom of the storage unit. At the top of the storage tower is a landing pad that is made of 3/4" laminate with 74P edge, this surface is raised 3-3/4" above the top of the storage tower with aluminum extrusions.

A 1-1/4" thick laminate covered surface with a 74P edge is attached to the side of the storage tower on one end and supported by a 3" diameter support leg on the other end of the unit. There is a perforated partial modesty panel that is suspended from the underside of the surface. This modesty panel covers the area from the storage unit to the support leg.

There are three open grommets and one covered grommet for wire management on the storage tower. One grommet is on the top of the storage unit directly below the one covered grommet on the landing pad. The other two grommets are above and below the worksurface on the inside of the desk unit.

All Terrain® Mobile Instructor's Desk

This unit has an All Terrain® Binder Tower with the lectern option. Also there are four open grommets at the top and bottom of each of the binder's sides. There is a surface that is attached to the side of the Binder Tower and supported on the other end by an All Terrain® Table leg with casters. There is a perforated partial modesty panel that attaches to the leg and the binder tower.

Locks are standard on the Mobile Instructors' Desk with steel doors. Locks are not available on doors with acrylic doors. Locks are a high-security double-bit design. One KI break-away key and one standard key are included with each lock.

700 Series Instructor's Desk

This unit is identical to the standard 700 Series Desk with the following changes. The desk has a peninsula shaped top that overhangs the desks frame to allow for collaboration with students. The frame of the desk has a 12" deep bookcase that is the end panel opposite the peninsula overhang. The bookcase is 30" or 36" wide, which is the depth of the desktop. This unit is non-handed, there is no left or right, the side with the bookcase can be reconfigured after install should the need arise.

WorkZone Instructor's Desk

The WorkZone Instructors' desk is based on a standard WorkZone square shoe unit that has a worksurface supporting pedestal (BBF configuration) to support the extended side of the square shoe and a cantilevered frame on the other end. The surface is 1-1/4" thick with a high-pressure laminate.

All Terrain® Binder Tower (Lectern option)

The lectern option can be added to any All Terrain® Binder Tower that has both a land-

ing pad and outriggers. The podium option is an angled landing pad to allow better viewing for the instructor.

All Terrain® binder towers are available in heights and drawer combinations to suit personal or shared storage requirements. Binder towers specified without drawers are optimized for book, binder or bin storage. These units include two adjustable shelves. Units may be specified with a single file drawer that can be used for letter files, legal files or bins, or for A4 files. Units with a file drawer include one fixed and one adjustable shelf and may also be specified with pullout pencil drawer.

All Terrain® binder towers may be specified with or without a door, on casters or glides with outriggers. The binder tower always includes a laminate either directly attached or as a raised landing pad. These tops can be specified as bowed front rectangular or as shaped.

**You make the rules.
We make the rest.®**

Of course KI solutions work better for you. They're made for you. No one pays more attention to customer needs than we do. We don't design our furniture to win awards (even though it does). We don't rely on one-size-fits-all solutions (even though they would make our life easier). We find out what you need. And, we make it. The same applies to our service, distribution channels...everything we do. It's all built around knowing what you want and giving you the choice. KI solutions work, because we're working for you.
