## Introduction

Pursuant to P.L.2009, c.189, a State tax expenditure report must be included in the Governor's annual budget message. This is the fifth annual tax expenditure report.

There are features within the tax system whose functions are tantamount to direct expenditures. Rather than sending a payment to a recipient for performing a specific public service, his/her tax revenue is simply reduced by that amount and the same effect is realized, while eliminating an unnecessary exchange. When the State disburses resources from revenue already collected, it is referred to as *direct expenditure*; when revenue collected is reduced, instead, the practice is termed, *tax expenditure*. It is often extremely difficult to distinguish between aspects of the tax code that are strict analogues of direct expenditure and which exist as refinements to a revenue generation system, so no strict delineation of which tax provisions constitute tax expenditures is possible.

In this *Report*, we list and examine features of the New Jersey tax system in whose absence final tax liability would be greater. By including all of these, without prejudice, we allow the reader to determine which conform to his or her notions of what constitutes "true" tax expenditure. Examples of such tax features include, but are not limited to, tax law definitions, deductions, exclusions, exemptions, deferrals, credits, preferential tax rates or other special tax provisions.

P.L. 2009, c.189, requires the publication of all state tax expenditures made in the last completed fiscal year, the current fiscal year and the fiscal year to which the budget message applies. For the purposes of this report, those years are FY 2013, FY 2014 and FY 2015.

In addition to the estimates of the value of the tax expenditures, the law requires this report include the following information:

- Citation of the enabling legislation
- Effective date of the tax expenditure
- Objective of the tax expenditure
- Description of the tax expenditure
- Effectiveness in achieving its stated purpose
- Effect of each State tax expenditure on the fairness and equity of the distribution of the tax burden
- Public and private costs of administering the State tax expenditures
- Data source used for the estimate, and
- A measure of the reliability of the estimate

The State tax expenditures included in this report are organized by categories in a comprehensive table, and explained in greater detail throughout the sections which follow.

For the purposes of this report, the Division of Taxation considers "tax expenditures" only those explicitly provided under state law, whether through enabling statutes or subsequent amendments modifying the original statute. Those statutory provisions mainly allow for four categories of

preferential tax treatment: exemptions, exclusions, deductions and credits. This year's report continues the practice of including certain business assistance programs that award funds to qualifying recipient taxpayers based on taxes paid. These four categories are defined below:

**Exemptions** are categories of goods, or certain uses thereof, or services that the law bars from subjectivity to taxation. These expenditures are often not required to be reported. For example, prescription drugs are exempt under the New Jersey sales tax law. Also, Social Security income is exempt for New Jersey income tax purposes and need not be reported on the state income tax return.

**Exclusions** are similar in nature to exemptions, but may apply to only a portion of that otherwise-taxed category. For example, unlike Social Security income, only a portion of pension income is nontaxable and that portion of pension income not subject to tax is the pension exclusion.

**Deductions** reduce income or receipts subject to tax by a specified dollar, percentage amount or specific category of recipient. Deductions are provided for any number of reasons, including the avoidance of double taxation on items which may have been taxed already. Common New Jersey income tax deductions include certain medical expenses and alimony.

**Credits** are direct reductions from the amount of taxes that must be paid. The provision of tax credits in tax law directly reduces taxes collected and, therefore, has a greater effect on revenues than exemptions, exclusions or deductions.

Credits may result in refunds to taxpayers having no tax liability, as in the case of the New Jersey Earned Income Tax Credit.

The estimates used in this report are from the Office of Revenue and Economic Analysis within the Office of the Chief Economist, the New Jersey Economic Development Authority, the New Jersey Division of Revenue and various offices within the New Jersey Division of Taxation. Current tax returns do not provide certain detailed data that would *enhance* tax expenditure reporting but which is not necessary to be disclosed for tax purposes. Additionally, the Division of Taxation, in an effort to relieve taxpayer burden, limits the information to only those disclosures absolutely required to be included in taxpayer filings.

Some estimates in this document are the result of standard economic forecasting and modeling techniques using publicly available information combined with data collected by the Division of Taxation. We use a 1-6 scale to indicate and rank the reliability of estimates based on their data source, as follows:

**1 – The tax liability of the entire population of verified tax returns is recalculated with the tax expenditure removed and from this is subtracted the actual tax liability.**

**2 – A similar process to 1 is performed, but on a statistical sample of returns rather than the entire population of returns.**

- 3 – A similar process to 2, but the sample returns contain incomplete or unverified data.
- 4 – Aggregate data from an external source is applied to average or marginal tax rates.
- 5 – The Federal estimate of comparable tax expenditure is scaled to a New Jersey level.
- 6 – Another state’s estimate of its comparable tax expenditure is scaled to a New Jersey level.

**NOTE:** The reporting of zeroes (00) in the summary of identified state tax expenditures indicates that no deduction was claimed in that category for FY13, FY14 and FY15.

## What is New in this Edition

This fifth edition of the New Jersey Tax Expenditure Report reflects a number of enhancements and improvements over previous editions. This section highlights changes you will see in this report.

The purpose of the Tax Expenditure Report is to present the estimated costs associated with the various tax expenditures required under State law. Each report must contain estimates for the last, current and next fiscal year. Thus, each report will include estimates for two years that were reported in the preceding edition. In some cases the estimates shown in the current report will differ from the corresponding estimates in the prior report. This may be due to our having identified more reliable data sources, finding superior methods for calculating the cost of those tax expenditures, or the revision of data provided by third-parties.

The reader should note that the effective date of a provision does not necessarily indicate the date on which it is first applied. For example, under the Gross Income Tax, there may be a tax expenditure whose law became effective in July 1999, but which applies to tax years beginning on January 1 of either 1999, 2000, or some later year. In this report, we begin to report on the applied dates as well as the effective dates.

This report is greatly expanded to include information on the objective or purpose of tax expenditures reported. The objectives of tax expenditures may fall into one of several categories. For example, there are tax expenditures which are required by Federal law or by the Federal or State Constitution. For others, a clear purpose was expressed in either the legislative intent of the law or in the sponsors' introduction memorandum.

This edition of the tax expenditure report includes several of the tax expenditures noted in the Appendix that were not included last year. New laws, such as the Angel Investor Tax Credit (P.L. 2013, Chapter 14) and The New Jersey Economic Opportunity Act of 2013 (P.L. 2013, Chapter 161) will make a major impact on the state's economy and are specifically summarized hereunder. The following tax expenditures that had not been listed, or were listed without estimates, are now available in this report:

### **Sales and Use Tax:**

- Laundry and Dry-cleaning Services
- Garbage Disposal and Sewer Services
- Motor Vehicle, Airplane and Railroad Fuels Exemption(s)
- Urban Enterprise Zone 50% Reduced Sales Tax Rate

### **Gross Income Tax:**

- Angel Investor Tax Credit
- Taxpayer and Spouse/CU Partner Personal Exemption(s)
- Blind/Disabled Exemption(s)
- Age 65 and Over Exemption(s)
- Dependent Child Exemption(s)
- Other Dependent Exemption(s)

### **Corporation Business Tax**

- Angel Investor Tax Credit
- New Jersey Economic Opportunity Act of 2013

## **The New Jersey Angel Tax Credit**

The New Jersey Angel Investor Tax Credit Act establishes credits against corporation business and gross income taxes for angel investor cash investments (equity placements by investor into high-risk start-up ventures) in New Jersey emerging technology businesses. The Act was signed into law on January 31, 2013 and is effective for privilege periods and taxable years beginning on or after January 1, 2012.

Upon approval by the New Jersey Economic Development Authority P.L. 2013 Chapter 161, (NJEDA), a corporate taxpayer is allowed a credit against the “franchise tax” (section 5 of P.L.1945, c.162 (C.54:10A-5)), of 10% of the qualified investment made in a New Jersey emerging technology business, up to a maximum allowed credit of \$500,000 for the taxable year for each qualified investment made by the taxpayer.

Like the corporate taxpayer’s allowed credit, upon approval by the NJEDA, a taxpayer is allowed a credit against the gross income tax (N.J.S.54A:1-1 et seq.) amount due for the taxable year, of 10% of the qualified investment made in a New Jersey emerging technology business, up to a maximum allowed credit of \$500,000 for the taxable year for each qualified investment made by the taxpayer. A partnership itself does not receive the credit under this section; the partners may claim the credit, based on pre-determined proportional distribution. The State will issue a refund to the taxpayer if the tax credit exceeds the taxpayer’s tax liability. If the tax credit exceeds a corporate taxpayer’s liability, it may choose either to receive a refund or have the excess carried forward to be applied against tax liabilities in the next 15 years.

## **The New Jersey Economic Opportunity Act**

The New Jersey Economic Opportunity Act of 2013, P.L. 2013 Chapter 161, takes five incentive programs and reduces it to two, expanding the Grow New Jersey Assistance Program (Grow NJ) and the Economic Development and Growth Grant (ERGG), which are administered by the New Jersey Economic Development Authority (NJEDA), and eliminating the Business Employment Incentive Program (BEIP), the Business Retention and Relocation Assistance Grant (BRRAG) and the Urban Transit Hub Tax Credit (UTHTC). These three programs are eliminated effective December 31, 2013. The Act serves to make Grow NJ the State’s primary business attraction and retention incentive and the ERGG the State’s sole redevelopment incentive. It allows for a greater geographic area of New Jersey to be eligible for its benefits.

Highlights of Grow NJ

- Approved “Mega Projects” as defined in the law
- Garden State Growth Zones (GSGZ) ,the four cities with the lowest median family income
- Distressed Municipalities
- Priority Areas and Eligible Areas as defined in the law

Grow NJ requires certain minimum capital investments for various types of eligible projects, as well as minimum full time employment for businesses and industries claiming the credits. All successful projects under Grow NJ are subject to comprehensive net benefit analysis to verify the revenues the State receives will be greater than the incentive provided. There are bonuses available under Grow NJ for specific types of developments and projects, as well as for certain areas of the State.

The ERGG provides incentive grants if the project meet specific requirements. The Act allows a range of bonuses from 10% - 40% for GSGZ projects dependent on the location of the project. For Local Incentive Grants provided by the ERGG, there is a cap on the bonus of 100% if the developer is a municipal government or redevelopment agency. As is the case with Grow NJ, all of these projects are subject to the standards of

comprehensive net benefit analysis.

The ERGG also provides Bonus Awards of up to 10% if the projects are located in areas including distressed municipalities and in GSGZ. Further, the ERGG provides county allocations for the \$600 million authorized for qualified residential projects.

## **Gross Income Tax Overview**

### **Description**

This graduated tax is levied on gross income earned or received after June 30, 1976, by New Jersey resident and nonresident individuals, estates, and trusts.

### **Rate**

Rates for tax years beginning on or after January 1, 2004, range from 1.4% – 8.97%. For tax year 2009, the maximum tax rates were 10.25% for those whose incomes ranged from \$500,000 to \$1,000,000, and 10.75% for income in excess of \$1,000,000. These rates expired after that year due to Governor Christie's veto of an extension proposed by the Legislature.

### **Filing Threshold**

For tax years beginning before January 1, 1994, filers with incomes of \$3,000 or less for the entire year (\$1,500 or less for married persons filing separately) pay no tax. For the 1994 to 1998 tax years, filers with incomes of \$7,500 or less for the entire year (\$3,750 or less for married persons filing separately) pay no tax. The income levels were raised for the 1999 tax year as part of a three-year phase-in of higher filing thresholds, and filers with incomes of \$10,000 or less for the entire year (\$5,000 or less for married persons filing separately) pay no tax.

For tax year 2000, the filing threshold was \$10,000 or less for the entire year (single filers and estates and trusts), \$15,000 or less for the entire year (married couples filing jointly, heads of household, and surviving spouses), and \$7,500 or less for the entire year (married persons filing separately). For tax year 2001 and thereafter, the filing threshold is \$10,000 or less for the entire year (single filers, married persons filing separately, and estates and trusts), and \$20,000 or less for the entire year (married couples filing jointly, heads of household, and surviving spouses).

Effective for tax years beginning on or after January 1, 2007, any reference to a spouse also refers to a partner to a civil union recognized under New Jersey law.

### **Exemptions**

- Taxpayer, \$1,000
- Taxpayer's spouse/civil union partner or domestic partner who does not file separately, \$1,000

## Recent History

Beginning with the 2000 tax year, C. 372, P.L. 1999, provides a deduction for a qualified conservation contribution.

Chapter 80, P.L. 2001, established a New Jersey Earned Income Tax Credit, which is a percentage of a person’s Federal Earned Income Credit. To be eligible for the New Jersey credit, a person must have

had at least one “qualifying child” for purposes of the Federal Earned Income Credit and must have had no more than \$20,000 in New Jersey gross income.

Chapter 84, P.L. 2001, amended the military pension or survivor’s benefit exclusion by eliminating the requirement that the taxpayer be at least 62 years old or disabled.

Under P.L. 2001, C. 93, qualified deposits into or withdrawals from an “individual development account” (established under the New Jersey Individual Development Account Program and 42 U.S.C. s. 604(h) for an “eligible individual”), including interest earned on such accounts, are exempt from Gross Income Tax.

Effective beginning with the 2002 tax year, C. 162. P.L. 2001, increased the exclusion for commuter transportation benefits to \$1,200 and authorizes an annual inflation adjustment.

P.L. 2002, C. 40, effective beginning with the 2002 tax year, requires partnerships to pay a \$150 filing fee per owner (up to \$250,000) and a tax prepayment made on behalf of nonresident partners.

P.L. 2002, C. 43, effective beginning with the 2003 tax year, created a tax credit for qualifying first-time homebuyer-occupants who have purchased residential property in a qualifying municipality during the municipality’s “period of economic recovery.”

P.L. 2003, C. 9, created an exclusion for the income of victims who died as a result of the September 11, 2001, terrorist attacks. The exclusion applies for tax year 2000 and all later years up to and including the year of death.

P.L. 2003, C. 246, allows a \$1,000 personal exemption for a domestic partner who does not file separately.

Chapter 40, P.L. 2004, imposes a tax rate of 8.97% on income over \$500,000, effective beginning with the 2004 tax year.

Chapter 55, P.L. 2004, requires that nonresident individuals, estates, or trusts pay estimated tax on gain from the sale or transfer of real property in New Jersey as a condition for recording the deed. The law is effective for sales or transfers occurring on and after August 1, 2004.

Effective beginning with the 2004 tax year, section 26 of P.L. 2004, C. 65, “decouples” the calculation of depreciation and section 179 expenses from recent Federal income tax provisions. Under these amendments, the expenses must be calculated by applying Federal code provisions as they were in effect on December 31, 2001 (or December 31, 2002, for section 179 expenses).

P.L. 2004, C. 139, effective for tax years beginning on or after January 1, 2005, allows a limited Gross Income Tax deduction to qualified primary care physicians and dentists practicing in or within 5 miles of a Health Enterprise

Effective for tax years beginning on or after January 1, 2004, Chapter 63, P.L. 2005, provides a gross income exclusion for housing and subsistence allowances received by members of the active and

reserve components of the U.S. Armed Forces and by members of the New Jersey National Guard while on State active duty.

P.L. 2005, C. 125, authorized a multistate reciprocal refund set-off program under which the New Jersey Division of Taxation may “withhold” a taxpayer’s Gross Income Tax refund to forward to another state for an income tax debt if the other state withholds New Jersey gross income tax claims from its personal income tax refunds.

P.L. 2005, C. 127, uncoupled New Jersey income tax law from many provisions of the IRC Section 199 deduction for certain qualified production activities income.

P.L. 2005, C. 130, limits the pension and other retirement income exclusions to taxpayers with gross income of \$100,000 or less, effective for tax years beginning on or after January 1, 2005.

Chapter 210, P.L. 2005, requires employers to provide certain employees with written notification of the availability of both the Federal and New Jersey earned income tax credits.

P.L. 2005, C. 288, requires partners and other owners of pass-through entities to credit payments made on their behalf against estimated taxes to end “double withholding.”

P.L. 2005, C. 318, allows Gross Income Tax credits to businesses providing employment to qualified handicapped persons at sheltered workshops.

P.L. 2005, C. 345, provides Gross Income Tax credits for film production expenses incurred in New Jersey and provides for the transfer of those tax credits to other taxpayers.

P.L. 2006, C. 36, authorizes the Director of the Division of Taxation to permit or mandate reasonable methods for filing and paying, which may include electronic methods of filing and paying. The law further requires tax practitioners who prepared or filed 100 or more 2005 New Jersey resident income tax returns to electronically file all 2006 New Jersey resident income tax returns. This requirement was extended, for tax year 2007, to preparers who filed 50 or more 2006 Gross Income Tax returns. The law imposes a \$50 per return penalty for noncompliance with this mandate, which may be abated, in full or in part, at the Director’s discretion.

P.L. 2006, C. 85, requires any person (other than a governmental entity, a homeowner, or a tenant) who maintains an office or transacts business in New Jersey to withhold New Jersey gross income tax at the rate of 7% from payments made to unregistered, unincorporated contractors for services performed in this State.

P.L. 2006, C. 103, establishes the legal relationship of “civil union” under the State’s marriage laws. A civil union is “the legally recognized union of two eligible individuals of the same sex established pursuant to this act.” Parties to a civil union will have the same legal benefits, protections, and responsibilities as parties to a marriage, including those based on tax laws, such as those governing local property tax, homestead rebates, realty transfer fees, gross income tax, and transfer inheritance taxes.

P.L. 2007, C. 109, extends the eligibility of the State earned income tax credit to any individual who is eligible for the Federal earned income tax credit and enhances the benefit amount.

P.L. 2007, C. 114, establishes penalties for employers who misclassify construction work employees as “independent contractors.”

P.L. 2009, C. 69, temporarily adjusted the New Jersey Gross Income Tax rates for taxpayers with taxable income exceeding \$400,000 in taxable years beginning on or after January 1, 2009, but before January 1, 2010. The law provided for adjusted income taxation of the following brackets at the following rates: over \$400,000 but not over \$500,000 was adjusted from 6.37% to 8%; over \$500,000 but not over \$1,000,000 was adjusted from 8.97% to 10.25%; and over \$1,000,000 was adjusted from 8.97% to 10.75%.

The law provided that for the 2009 taxable year, taxpayers who had gross income of more than \$250,000 and were not (1) 65 years of age or older or (2) allowed a personal exemption as a blind or disabled individual, were not eligible for the property tax deduction.

Additionally, the maximum property tax deduction was capped at \$5,000 for taxpayers who had gross income of more than \$150,000 but not more than \$250,000 and were not (1) 65 years of age or older or (2) allowed a personal exemption as a blind or disabled individual.

The law also provides that for tax years beginning on or after January 1, 2009, New Jersey Lottery winnings from prizes exceeding \$10,000 are taxable for New Jersey Gross Income Tax purposes and that the New Jersey State Lottery is required to withhold income tax on such taxable winnings at the rate of 3%.

P.L. 2010, C. 20, temporarily suspends the tax credits provided for qualified film and qualified digital media content production expenses and requires the State Treasurer to make and file a report regarding the ability of the tax credits to meet their statutory goals and objectives.

P.L. 2010, C. 27, reduces the New Jersey earned income tax credit from 25% of the Federal amount to 20% of the Federal amount, effective beginning with the 2010 tax year.

P.L.2011, c.57, provided for voluntary contributions by taxpayers on gross income tax returns to support the Boys and Girls Clubs in New Jersey.

P.L.2011, c.60, established an alternative business calculation under gross income tax to permit consolidation and carryforward of certain business-related losses. This is the first allowance of its kind for business taxpayers who pay taxes on their business income through their State personal tax return. This change provides similar treatment for small business as has been traditionally enjoyed by larger businesses that pay corporate business tax.

P.L.2011, c.117, provided for voluntary contributions by taxpayers on gross income tax returns for New Jersey National Guard members and their families in need of assistance.

P.L.2011, c.131, required the Division of Taxation to display Senior Gold prescription program

information on tax return instructions.

P.L.2011, c.211, provided for voluntary contributions by taxpayers on gross income tax returns to the "American Red Cross-NJ Fund."

P.L.2011, c.227, provided for voluntary contributions by taxpayers on gross income tax returns to support the Girl Scouts councils in New Jersey.

P.L.2013, c.13, allows for voluntary contributions through gross income tax returns to support New Jersey athletes participating in 2014 Special Olympics USA Games.

## 5 Business Employment Incentive Program (BEIP)

**Citation:** N.J.S.A. 34:1B-124 (P.L. 1996, c.26)

**Effective Date:** 5/9/1996

**2015 Estimate:** \$0

**Applied Date:** 6/1/1996

**Description:** The Business Employment Incentive Program, codified at 34:1B-124 (P.L. 1996, c.26) is one of the State's tools, jointly administered by the New Jersey Economic Development Authority and the New Jersey Division of Taxation, to promote job growth in New Jersey.

Approved businesses receive annual cash grants based on the number of new jobs they have created in the State of New Jersey.

In order to qualify for a BEIP grant, businesses must create at least 25 new jobs within a two-year period; emerging high technology and biotech companies' eligibility threshold is 10 new jobs. A business must also demonstrate that the BEIP grant is a "material" factor in moving the job expansion or relocation forward in New Jersey, and that it is economically viable.

The standard BEIP incentive is limited to 50% of the employees' state income taxes withheld on the newly created jobs; however, companies that meet certain Smart Growth objectives can have their grant boosted to 80%. Qualifying businesses may be eligible for up to 10 years' worth of grants, though they must maintain the project and the jobs in New Jersey for at least 1.5 times the number of years the grant is in effect. Greater consideration is given to positions that average 1.5 times the minimum wage during the grant agreement.

There are protections built into the program that ensure that grant recipients meet the strict criteria under which the grant was made. (See N.J.S.A. 34:1B-132).

Businesses receiving assistance under the Business Retention and Relocation Assistance Grant program (P.L.1996, c. 25) codified in N.J.S.A. 34:1B-112, et seq., may not receive assistance under this program without specific authorization from the State Treasurer.

## 6 Cafeteria Plan, Qualified Option

**Citation:** N.J.S.A. 54A:6-24 (P.L. 1995, c.111)

**Effective Date:** 6/1/1995

**Objective:** To allow a gross income taxpayer to exclude the value of employee "cash-out options" under employer provided cafeteria benefit plans. Cafeteria plans, authorized under section 125 of the federal Internal Revenue Code of 1986, permit an employer to offer employees individual choices among federally nontaxable employer provided benefits and choices between those benefits and cash. The employee must recognize federally taxable income only if receipt of cash is actually chosen. The five permitted benefits are group life insurance, group accident and health insurance, medical cost reimbursement, dependent care services, and cash or deferred arrangements.

The exclusion is restricted to cash-out options under plans that only allow cash-outs for employees who demonstrate their other source of coverage; such an employee will only recognize income under a cafeteria plan if the cash-out is exercised and cash is actually received.

**Description:** The law does not include in gross income the value of an employee's qualified option under a cafeteria plan if the employee does not elect to receive cash, and the value of the option is excludable from federal taxable income.

**Effectiveness:** Several of the Federal 'cafeteria plan' optional deductions are recognized as New Jersey tax deductions.

The bill conforms the gross income tax treatment of such gain to a similar federal income tax exemption provided under the federal Taxpayer Relief Act of 1997.

**Description:** Gross income does not include up to \$500,000 in gain from the sale of a personal residence, subject to certain timing restrictions similar to restrictions found in the parallel federal income tax exclusion.

**Data Source** January 2014 Gross Income Tax Calculator and IRS published data.

The credit is the greater of the tax actually paid or a calculated amount representing the proportion of income subject to tax in the other jurisdiction as compared to income from all sources which is taxable to a New Jersey resident.

## **Sales and Use Tax (N.J.S.A.54:32B-1 et seq.)**

### **Overview**

#### **Description**

Sales and Use Tax applies to receipts from retail sale, rental, or use of tangible personal property or digital property; retail sale of producing, fabricating, processing, installing, maintaining, repairing, and servicing tangible personal property or digital property; maintaining, servicing, or repairing real property; certain direct-mail services; tattooing, tanning, and massage services; investigation and security services; information services; limousine services; sales of restaurant meals and prepared food; rental of hotel and motel rooms; certain admission charges; certain membership fees; parking charges; storage services; sales of magazines and periodicals; delivery charges; and telecommunications services, except as otherwise provided in the Sales and Use Tax Act.

A compensating use tax is also imposed when taxable goods and services are purchased and New Jersey sales tax is either not collected or is collected at a rate less than New Jersey's sales tax rate. The use tax is due when such goods, or the goods on which taxable services are performed, come into New Jersey. If sales tax was paid to another state, the Use Tax is only due if the tax was paid at a rate that is less than New Jersey's rate.

All persons required to collect the tax must file a Business Registration Application (Form NJ-REG). Each registrant's authority to collect the sales tax is certified by a Certificate of Authority issued by the Division, which must be prominently displayed at each place of business to which it applies.

Major exemptions include: sales of newspapers; magazines and periodicals sold by subscription and membership periodicals; casual sales except motor vehicles and registered boats; clothing; farm supplies and equipment; flags of New Jersey and the United States; unprepared food and food ingredients purchased for human consumption; food sold in school cafeterias; prescription and certain nonprescription drugs and other medical aids; motor fuels; textbooks; professional and personal services unless otherwise taxable under the Act; real estate sales; tangible personal property used in research and development; production machinery and equipment.

The Sales and Use Tax Act was amended, effective October 1, 2005, to conform New Jersey's law to the requirements of the Streamlined Sales and Use Tax Agreement.

SSUTA, which is a multi-state effort to simplify and modernize the collection and administration of sales and use taxes. The adoption of the SSUTA resulted in significant changes in New Jersey's tax policy and administration, including uniform product definitions and changes in the taxability of specific items. In addition, the SSUTA provided for the creation of a new central registration system, certain amnesty provisions, and minor changes in the treatment of exemption certificates.

#### **Rate**

The rate of tax is 7% on taxable sales occurring on or after July 15, 2006. Formerly, the tax rate was 6%.

## **Disposition of Revenues**

Revenues are deposited in the State Treasury for general State use.

## 9 Business Retention and Relocation Assistance Grants

**Effective Date:** 5/9/1996

**2015 Estimate:** \$14,050,000

**Applied Date:** 5/9/1996

**Objective:** The purpose of the program is to encourage economic development, preserve existing jobs, and stimulate new job activity in New Jersey.

**Description:** The Business Retention and Relocation Assistance Act (C.34:1B-112 et seq., was signed into law on May 9, 1996 and has been subsequently amended and expanded in scope.. P.L 2004, c.65 gave the State new tools in the effort to retain jobs under threat of leaving New Jersey. On January 13, 2008, the Business Retention and Relocation Assistance Act was amended by P.L. 2007, c.310 (C.34:1B-115), which reduced the program's eligibility threshold from 250 retained full-time jobs to 50 retained full-time jobs. Most recently, P.L. 2010, c.123, signed into law January 6, 2011, expanded the definition of the "designated industries" eligible for the grant; expanded the job retention grant from a one-time \$1,100 to \$1,500 grant for the number of jobs retained to a six-year award, in the same amounts, based on the number of jobs retained, e.g., a six-year award of \$1,500 per job retained, per year and allowed for an additional 50 percent bonus grant to be applied to any business that retains 2,000-plus jobs and invests double the amount they would receive in the tax credit. This would be on top of the existing \$750 per job bonus grant currently available to businesses keeping 2,000-plus jobs in the state and created a "net benefit test," in which potential grant recipients must prove that the state would see a net benefit from providing the tax credit, i.e., the anticipated tax revenue must be greater than the credits awarded under BRRAG; required that businesses maintain the relocated jobs in New Jersey for five years from the last year tax credits were awarded, essentially requiring businesses to keep the jobs in the state for 11 years if they wish to receive the full amount of the tax credits. For businesses that do not comply, a clawback provision exists to allow the state to recapture the awarded tax credits; and allowed for a business to receive BRRAG awards even if it's not relocating, so long as the business makes a capital investment equal to or greater than the total value of the grants to be received.

The BRRAG Program is a one-time grant of corporation business tax credits (or insurance premiums tax credits as applicable) to businesses to assist them in retaining jobs and developing projects that relocate within the state. Additionally, an eligible business may be authorized to acquire certain materials without payment of sales tax. There are specific statutory criteria that must be met.

The amount of the grant for a business relocating between 50 and 499 full-time employees can be up to \$1,500 per job and is scored based on a number of factors, such as the type of industry, quality of the jobs, and consistency with New Jersey's Smart Growth policies. Businesses relocating 500 or more full-time workers are eligible for a tax credit of \$1,500 per job retained. Businesses relocating 2,000 jobs or more into a designated urban center can qualify for a "bonus grant" of 50 percent in addition to their base grant amount.

The BRRAG program caps the tax credits that can be issued during any single fiscal year in New Jersey at \$20 million. Moreover, the credits issued to a business can be applied in the tax year issued or the tax year following issuance. The program rules also have a recapture or "claw back" provision for businesses that do not retain the necessary number of jobs for the agreed upon five-year period or that are otherwise in default according to the Project Agreement contract.

There are 5 components to the BRRAG program:

1. The Business Retention and Relocation Assistance Grant (BRRAG) Program;
2. The Sales and Use Tax Exemption (STX) Program;
3. The BRRAG Tax Credit Certificate Transfer Program (Transfer Program);
4. The Urban Enterprise Zone Energy Sales & Use Tax Exemption for Manufacturers Program; and

## Corporation Business Tax Overview

### Description

The Corporation Business Tax Act imposes a franchise tax on a domestic corporation for the privilege of existing as a corporation under New Jersey law, and on a foreign corporation for the privilege of having or exercising its corporate charter in this State or doing business, employing or owning capital or property, maintaining an office, deriving receipts, or engaging in contracts in New Jersey. The tax applies to all domestic corporations and all foreign corporations having a taxable status unless specifically exempt. The tax also applies to joint-stock companies or associations, business trusts, limited partnership associations, financial business corporations, and banking corporations, including national banks. Also, a corporation is defined as any other entity classified as a corporation for Federal income tax purposes and any state or Federally chartered building and loan association or savings and loan association. Taxpayers must pay the greater of their liability under the net income tax or the alternative minimum assessment. The income-based tax is measured by that portion of the net income allocable to New Jersey. The tax applies to net income for the firm's accounting period (calendar year or fiscal year), or any part thereof during which the corporation has a taxable status within New Jersey. The alternative minimum assessment is based on apportioned gross receipts or gross profits. Exempt from the tax are certain agricultural cooperative associations; Federal corporations which are exempt from state taxation; corporations created under the limited-dividend housing corporation law; nonprofit cemetery corporations; nonprofit corporations without capital stock; non-stock mutual housing corporations; railroad and canal corporations; sewerage and water corporations; insurance companies subject to premiums tax; and certain municipal electric corporations.

### Rate

The tax rate is 9% upon entire net income, or the portion of entire net income allocated to New Jersey. For tax years beginning in calendar year 2002 and thereafter, the minimum Corporation Business Tax is \$500 or \$2,000 for all members of a controlled or affiliated group of corporations if the aggregate annual payroll for all corporations is \$5 million or more. Rates for New Jersey S corporations were also changed in 2002. New Jersey S corporations with an entire net income of \$100,000 or less are still subject to the minimum tax, but if entire net income exceeds \$100,000, the rate for periods ending on or before June 30, 2006, is 1.33%. For periods ending on or after July 1, 2006, but on or before June 30, 2007, the rate is 0.67%

For accounting years beginning on and after January 1, 2002, the 7.5% Corporation Business Tax rate for corporations with entire net income of \$100,000 or less is reduced to 6.5% for corporations with entire net income of \$50,000 or less.

For privilege periods ending on or after July 1, 2006, but before July 1, 2009, each taxpayer shall be assessed and must pay a surtax equal to 4% of the amount of tax liability remaining after applying credits against liability, other than credits for installment payments, estimated payments made with

a request for extension to file a return, or overpayments from a prior privilege period.

For calendar years beginning in 2006 and thereafter, the minimum tax shall be based on New Jersey gross receipts as defined in the Business Tax Reform Act (P.L. 2002, C. 40).

For New Jersey gross receipts of less than \$100,000, the minimum tax is \$500. For New Jersey gross receipts equal to or greater than \$100,000, but less than \$250,000, the minimum tax is \$750. For New Jersey gross receipts equal to or greater than \$250,000, but less than \$500,000, the minimum tax is \$1,000. For New Jersey gross receipts equal to or greater than \$500,000, but less than \$1,000,000, the minimum tax is \$1,500. For New Jersey gross receipts equal to or greater than \$1,000,000, the minimum tax is \$2,000.

The minimum tax for affiliated or controlled groups remains the same, \$2,000 for each member of a group that has a total payroll of \$5,000,000 or more for a privilege period.

### **Disposition of Revenues**

Revenues collected from general business corporations are deposited in the State Treasury for general State use. Revenues collected from banking and financial corporations are distributed 25% to counties, 25% to municipalities, and 50% to the State.

Article 8, Section 2, paragraph 6, of the State Constitution was amended to dedicate 4% of Corporation Business Tax revenue to fund hazardous discharge cleanup, underground storage tank improvements, and surface water quality projects.

Chapter 40, P.L. 2002, Section 32, created within the General Fund a restricted reserve fund to be known as the "Corporation Business Tax Excess Revenue Fund."

### **History**

Corporation Business Taxes date back to 1884 when a franchise tax was imposed upon all domestic corporations. Between 1884 and 1946, the franchise tax was based upon the total amount of capital stock issued by the taxpayer and outstanding as of January 1 of each year (C. 159, P.L. 1884).

There was no franchise tax on foreign corporations prior to 1936, when provision was made for an annual tax (C. 264, P.L. 1936). This tax was replaced in 1937 (C. 25, P.L. 1937) with a new franchise tax providing for allocation of capital stock of foreign corporations.

Effective January 1, 1946 (C. 162, P.L. 1945), the tax became a net worth tax applicable to both domestic and foreign corporations and measured by net worth allocated to New Jersey. Allocation was measured by the greater of an assets factor or a three-part business factor (property, sales, and payroll).

Chapter 88, Laws of 1954, increased the tax on allocable net worth from 8/10 mills per \$1 to 2 mills per \$1.

Chapter 63, Laws of 1958, amended the Corporation Business Tax Act by adding a tax at 1¾% based upon allocated net income to the tax based upon allocated net worth. The 1958 amendment also changed the tax year from a calendar year for all corporations to a privilege period coinciding with the accounting year for each taxpayer.

In 1975, the Corporation Business Tax was imposed on banking corporations and incorporated financial businesses.

In 1982, there was enacted into law a measure phasing out the Corporation Business Tax on net worth. The tax was phased out at 25% per year over a four-year period with taxpayers whose accounting or privilege periods began on or after April 1, 1983 (C. 55, P.L. 1982). The net worth tax has been eliminated for periods beginning after June 30, 1986.

Net Income Tax rates have changed as follows:

<b>Effective Date</b>	<b>Rate</b>
January 1, 1959 (C. 63, P.L. 1958)	1¾%
January 1, 1967 (C. 134, P.L. 1966)	3¾%
January 1, 1968 (C. 112, P.L. 1968)	4¾%
January 1, 1972 (C. 25, P.L. 1972)	5½%
January 1, 1975 (C. 162, P.L. 1975)	7½%
January 1, 1980 (C. 280, P.L. 1980)	9%

For taxable years ending after June 30, 1984, a carryover of net operating loss was allowed as a deduction from entire net income for seven years following the year of the loss (C. 143, P.L.1985, approved April 22, 1985).

A surtax of 0.417% was invoked for privilege periods ending between July 1, 1990, and June 30, 1991; and 0.375% for privilege periods ending between July 1, 1989, and June 30, 1990, and July 1, 1991, through June 30, 1993. The 0.375% surtax on corporate net income was repealed effective January 1, 1994. The surtax had been scheduled to end July 1, 1994 (C. 3, P.L. 1994).

A new jobs investment tax credit, enacted in 1993 (C. 170), allows corporations to take a credit against Corporation Business Tax and property taxes for qualified investments in new or expanded business facilities resulting in new jobs in the State. The credit against Corporation Business Tax is for up to 50% of the portion of the tax that results from investment in new or expanded facilities. The credit was extended to midsize businesses by P.L. 2002, C. 40. P.L. 1993, Chapter 171, allows for a credit against Corporation Business Tax for investment in qualified equipment. The credit is 2% of

the cost of qualified machinery purchased (the investment credit base). Taxpayers taking the 2% equipment credit may also take an employment credit of \$1,000 per new employee (up to a maximum of 3% of the investment credit base). A small business benefit was added by P.L. 2004, C. 65. Chapter 175 P.L. 1993, allows for a credit for increased research activities.

Two changes in 1993 brought New Jersey corporation tax law into closer alignment with Federal corporation tax law. Chapter 172 allows corporations to use the Federal modified accelerated cost recovery system for depreciation of property under the New Jersey Corporation Business Tax for property placed in service for accounting years beginning after July 7, 1993. Chapter 173 allows, for the first time, an S election to be made under New Jersey law. As noted above, a New Jersey S corporation pays a reduced tax rate on that portion of entire net income not subject to Federal corporate income tax. The shareholder is taxed on net pro rata share of S corporation income under the Gross Income Tax.

The allocation formula for multistate corporations was changed in 1995. Under prior law, multistate corporation income was allocated to New Jersey based on equally weighted New Jersey property, payroll, and sales compared to total property, payroll, and sales. The new formula counts sales twice, so that sales account for half the allocation formula (C. 245, P.L. 1995).

The legislature continued to provide additional tax benefits for corporation business taxpayers. These include a tax benefit certificate transfer program to assist certain emerging companies (C. 334, P.L. 1997), later modified by P.L. 1999, C. 140 and P.L. 2004, C. 65, and supplemented by a credit transfer program P.L. 2004, C. 65, the Small New Jersey Based High Technology Business Investment Tax Credit Act (C. 349, P.L. 1997), the carryforward of net operating losses under the Corporation Business Tax for certain taxpayers (C. 350, P.L. 1997), the extension of the carryforward of the research and development tax credit (C. 351, P.L. 1997), and the Neighborhood and Business Child Care Tax Incentive Program (C. 102, P.L. 1999).

Other credits against Corporate Business Tax liability have also been enacted for effluent equipment (P.L. 2001, C. 321), neighborhood revitalization (P.L. 2001, C. 415), HMO credit (P.L. 2000, C. 12), the economic recovery tax credit (P.L. 2002, C. 43), and the remediation tax credit (P.L. 2003, C. 296).

Electric and telephone companies were subjected to the Corporation Business Tax effective January 1, 1999.

Chapter 369, P.L. 1999, excludes certain hedge fund activity income of corporations of foreign nations from taxation under the Corporation Business Tax.

Chapter 12, P.L. 2000, provides that holders and former holders of a certificate of authority to operate a health maintenance organization are allowed a Corporation Business Tax credit for certain payments they are required to make.

Chapter 23, P.L. 2001, provides for a three-year phase-out of the corporate taxation of the regular income of S corporations with annual income in excess of \$100,000, and for S corporations whose net income is under \$100,000 whose privilege periods end on or after July 1, 2001. Also, the bill

provides for the adjusted minimum tax amount to be rounded to the next highest multiple of \$10.

Chapter 136, P.L. 2001, provides for the Corporation Business Tax payment obligations of certain partnerships and limited liability companies for privilege periods beginning on and after January 1, 2001.

Chapter 40, P.L. 2002, among other things, effects the most extensive changes in the Corporation Business Tax since 1945. This law provides for a partnership filing fee, an alternative minimum assessment, nonresident partner withholding, a “throwout rule” on corporations apportioning income outside New Jersey, and new rules for related-party transactions. It also increases the minimum tax and broadens the definition of corporations that are subject to this tax.

Chapter 43, P.L. 2002, includes some provisions for incentives in the form of Corporation Business Tax credits to qualifying taxpayers engaged in a business in the qualified municipality during the municipality’s “period of rehabilitation and economic recovery.”

P.L. 2004, C. 47, limits the Corporation Business Tax application of net operating losses to 50% of taxable income for tax years 2004 and 2005.

P.L. 2004, C. 65, decouples Corporation Business Tax from changes in Federal bonus depreciation and certain expensing principles under IRC section 179.

P.L. 2005, C. 127, uncouples Corporation Business Tax from many provisions of the IRC Section 199 deduction for certain qualified production activities income.

P.L. 2005, C. 318, allows Corporation Business Tax credit to businesses providing employment to qualified handicapped persons at sheltered workshops.

P.L. 2005, C. 345, provides a credit under the Corporation Business Tax for film production expenses incurred in New Jersey and provides for the transfer of those tax credits to other taxpayers.

P.L. 2006, C. 38, imposes a 4% surcharge on the Corporation Business Tax liability and increases the minimum tax. The surcharge was in effect between July 1, 2006 and June 30, 2010.

P.L. 2007, C. 89, increases the amount of State tax credits granted to businesses providing funding to qualified neighborhood revitalization projects.

### **Installment Payments of Estimated Tax**

Taxpayers are required to make installment payments of estimated tax. The requirement for making these payments is based on the amount of the total tax liability shown on the most recent return.

(a) If the total tax liability is \$500 or more, the taxpayer must make installment payments. These payments are due on or before the 15th day of the 4th, 6th, 9th, and 12th month of the tax year.

(b) If the total tax liability is less than \$500, installment payments may be made as shown in (a) above or, in lieu of making installment payments, the taxpayer may make a payment of 50% of the total tax liability.

The Business Tax Reform Act (C. 40, P.L. 2002) provides for two significant changes regarding corporate estimated tax. First, for the tax year beginning on or after January 1, 2002, all corporations must base their fourth quarter payment on 25% of the actual 2002 tax computed under the changes to avoid penalty. This one-time change supersedes the prior rules for estimated returns. The fourth quarter payment must be 25% of the year 2002 liability even if the corporation may have already satisfied all or substantially all of its year 2002 corporation tax liability through prior year's overpayments or quarterly estimated payments in the first three quarters. The corporation must nonetheless remit 25% of the year 2002 tax to avoid penalties.

Secondly, for large corporations with sales of over \$50 million, beginning with the year 2003, the second and third quarter payments, normally due on the 15th day of the 6th and 9th months, will be combined into a single 50% payment due on the 15th day of the 6th month. No payments will be due for such corporations on the 15th day of the 9th month, and normal 25% payments will be due in the 4th and 12th months.

## **Partnerships**

Chapter 40, P.L. 2002, establishes a \$150 per partner filing fee for partnerships, LLPs, and LLCs deriving income from New Jersey sources. In general, the \$150 per partner fee is based on the number of K-1s issued. For professional service corporations, the \$150 fee applies for each registered professional who owns or is employed by the enterprise and is calculated using a quarterly average. In addition to the filing fee for the year, an installment payment equal to 50% of the filing fee is also required with the New Jersey partnership return. The annual fee is capped at \$250,000.

New Jersey partnership payments made on behalf of out-of-State corporate and noncorporate partners are based on taxable income whether the income is distributed or undistributed and are designated as a tax at a rate of 9% for nonresident corporate partners and 6.37% for noncorporate partners. Qualified investment partnerships and partnerships listed on a U.S. national stock exchange are not subject to the tax. The calculation is based on the partnership's "entire net income" multiplied by the partnership's New Jersey apportionment percentages computed under the Corporation Business Tax, not under Gross Income Tax.

Chapter 40, P.L. 2002, subjects savings banks and savings and loan associations to the Corporation Business Tax and repeals the Savings Institution Tax and the Corporation Income Tax.

Effective beginning with the 2002 tax year, P.L. 2003, C. 256, exempts investment clubs from the \$150 per owner annual partnership filing fee and from the requirement that partnerships remit Gross Income Tax payments on behalf of their nonresident noncorporate partners. To meet the definition of "investment club," the partnership must have income below \$35,000 per individual (up to a total of \$250,000) and satisfy other limitations and criteria.

P.L. 2005, C. 288, requires partners and other owners of pass-through entities to credit payments made on their behalf against estimated taxes to end double withholding. In addition, for privilege periods beginning on or after January 1, 2007, partnerships that are required to make tax payments on behalf of nonresident partners must make installment payments of 25% of that tax on or before the 15th day of the 4th, 6th, and 9th months of the privilege period, and on or before the 15th day of the 1st month following the close of the privilege period.

## **Banking and Financial Corporations**

Banking and financial corporations are subject to the Corporation Business Tax Act at the rate of 9% on net income or to the lesser rates stated above if their income meets those thresholds.

Chapter 170, P.L. 1975, provides that during each of privilege years 1976, 1977, and 1978, the amount paid by each banking corporation as taxes shall be the greater of (1) the amount which such banking corporation paid in calendar year 1975 as Bank Stock Tax, or (2) a sum equal to total of taxes paid by such banking corporation as Corporation Business Tax and Business Personal Property Tax. Formerly, banks were subject to a tax of 1.5% on net worth under the Bank Stock Tax Act. Bank Stock Tax was formerly administered by the Division of Taxation and the 21 separate County Boards of Taxation. The corporate tax upon banks is now administered solely by the Division. Financial business corporations were formerly subject to the Financial Business Tax. These included such corporations as small loan companies and mortgage finance companies which are now subject to Corporation Business Tax.

Chapter 171, P.L. 1975, provides that during each of the years 1976, 1977, and 1978, each financial business corporation shall pay as taxes, the greater of (1) a sum equal to the amount such financial business corporation paid under the Financial Business Tax Act in the calendar year 1975, or (2) a sum equal to the total of the taxes payable by such financial business corporation pursuant to the Corporation Business Tax Act. Chapter 40, P.L. 1978, extended the save harmless provision through 1979. It expired in 1980. As a result of changes in the Federal and State banking laws, interstate banking is now permitted (C. 17, P.L. 1996). An administrative rule adopted by the Division of Taxation (N.J.A.C. 18:7-1.14, effective June 16, 1997) sets forth certain conditions under which foreign banks and certain domestic banks will be taxed in New Jersey.

## **Investment Companies**

A taxpayer qualifying and electing to be taxed as an investment company is subject to an allocation percentage of 40% of the net income base. Investment companies are subject to a minimum tax of \$500.

*Regulated Investment Company* means any corporation which, for a period covered by its reports, is registered and regulated under the Investment Company Act of 1940 (54 Stat. 789), as amended.

The Corporation Business Tax on regulated investment companies was eliminated (P.L. 1983, C. 75), approved on February 24, 1983. Regulated investment companies in New Jersey were formerly taxed on both entire net worth and entire net income. These taxes were eliminated and a flat tax of

\$500 per year is imposed.

Real estate investment trusts qualifying and electing to be taxed as such under Federal law are taxed at 4% of entire net income.

### **Deferred Predissolution Payment**

Chapter 367, P.L. 1973, approved in 1974, eliminated the requirement for a certificate to be obtained in the case of merger or consolidation involving a domestic or foreign corporation qualified to transact business in New Jersey. It also provided alternatives to actual payment of taxes, or payment on account of such taxes by providing in lieu thereof, for a written undertaking to be given by a domestic corporation, or a foreign corporation authorized to transact business in New Jersey, to pay all taxes when payable on behalf of a corporation which otherwise would have to pay all taxes prior to taking certain corporate actions.

### **Allocation Factor**

If a taxpayer has a regular place of business outside New Jersey, its tax liability is measured by net income allocated to New Jersey, according to a three-fraction formula based on an average of property, payroll, and sales, which is counted twice. The factor is computed by adding the percentage of the property and payroll fractions, and a fraction representing two times the sales receipts, and dividing the total by four.

The Business Tax Reform Act (P.L. 2002, C. 40) imposes a “throwout rule” on corporations apportioning income outside the State. The tax effect of the throwout rule on an affiliated or controlled group having \$20 million or more in net income is capped at \$5 million.

Chapter 40, P.L. 2002, also introduced an alternative minimum assessment (AMA) on apportioned gross receipts or gross profits of C corporations when the AMA exceeds the normal Corporation Business Tax. The assessment is based on either gross receipts or gross profits, with the taxpayer electing which formula to use. This formula must also be used for the next four tax periods. S corporations, professional corporations, investment companies, and unincorporated businesses are exempt from the AMA. The AMA also applies to non-New Jersey businesses deriving income from New Jersey sources with or without physical presence in the State that are not currently subject to the Corporation Business Tax.

For privilege periods beginning after June 30, 2006, the AMA is \$0, except for taxpayers claiming exemption under Pub. L. 86-272, for whom the previously prescribed rate will continue. For privilege periods beginning after December 31, 2006, the AMA for taxpayers otherwise subject to the AMA that consent to jurisdiction and pay the Corporation Business Tax will be \$0.

The use of net operating losses is suspended for tax years 2002 and 2003. For 2004 and 2005 net operating losses were limited to 50% of taxable income.

## Transfer Inheritance and Estate Taxes Overview

### Description

The Transfer Inheritance Tax applies to the transfer of all real and tangible personal property located in New Jersey and intangible personal property wherever situated in estates of resident decedents. In estates of nonresident decedents, the tax applies to real property and tangible personal property located in the State of New Jersey.

The Estate Tax is imposed in addition to the Transfer Inheritance Tax on the estates of resident decedents. An Estate Tax is payable if the Inheritance Tax paid to New Jersey is less than the portion of the Federal credit for state death taxes which is attributable to New Jersey property.

### Rate

The Transfer Inheritance Tax rates depend on the amount received and the relationship between the decedent and the beneficiary. No tax is imposed on class A beneficiaries (father, mother, grandparents, descendants, spouses, civil union partners, or domestic partners). Class C beneficiaries (brother or sister of decedent; husband, wife, or widow(er) of a child of decedent; civil union partner or surviving civil union partner of a child of decedent) are taxed at 11%–16%, with the first \$25,000 exempt. Class D beneficiaries (not otherwise classified) are taxed at 15%–16%, with no tax on transfers having an aggregate value of less than \$500. Charitable institutions are exempt from tax.

For decedents dying on or before December 31, 2001, the Estate Tax is based upon the credit for state inheritance, estate, succession, or legacy taxes allowable under the provisions of the Internal Revenue Code in effect on the decedent's date of death. For decedents dying after December 31, 2001, the Estate Tax is based upon the credit for state inheritance, estate, succession, or legacy taxes allowable under the provisions of the Internal Revenue Code in effect on December 31, 2001.

During 2001 there was no Federal estate tax due on Federal estates of less than \$675,000. Under the provisions of the Federal Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA), the applicable Federal exclusion amounts were increased to:

2002 and 2003	\$ 1.0 Million
2004 and 2005	1.5 Million
2006, 2007, and 2008	2.0 Million
2009	3.5 Million
2010	Tax Repealed

The New Jersey Estate Tax exclusion was frozen at the 2001 level for decedents dying in 2002 and thereafter. The Estate Tax is an amount equal to the Federal credit for inheritance, estate, succession, and legacy taxes allowable under provisions of the Internal Revenue Code in effect on December 31, 2001. A reduction is permitted for that portion of the credit which is attributable to

property located outside New Jersey plus any Inheritance Tax paid to New Jersey.

### **Exemptions from Transfer Inheritance Tax**

- All transfers having an aggregate value under \$500;
- Life insurance proceeds paid to a named beneficiary;
- Charitable transfers for the use of any educational institution, church, hospital, orphan asylum, public library, etc.;
- Transfers for public purposes made to New Jersey or any political subdivision thereof;
- Federal civil service retirement benefits payable to a beneficiary other than the estate, executor, or administrator;
- Annuities payable to survivors of military retirees; and
- Qualified employment annuities paid to a surviving spouse, civil union partner, or domestic partner.

### **Disposition of Revenues**

Revenues are deposited in the State Treasury for general State use.

### **History**

New Jersey first imposed an inheritance tax in 1892 at a rate of 5% on property transferred from a decedent to a beneficiary.

In 1909, legislation was enacted which formed the basis of the present Transfer Inheritance Tax (N.J.S.A. 54:33-1 et seq.).

In 1934, legislation was enacted which formed the basis of the Estate Tax (N.J.S.A. 54:38-1 et seq.). On June 30, 1992, the filing date for estate taxes for decedents dying after March 1, 1992, was shortened. The due date had been the later of 18 months after the date of death or 60 days after the Federal notification of Federal estate tax due. The new due date is 9 months after date of death (C. 39, P.L. 1992). Estate taxes are paid by the estate to the extent that inheritance taxes are below the Federal credit for State taxes.

On February 27, 1985, an amendment to the Transfer Inheritance Tax Act (C. 57, P.L. 1985) eliminated from taxation transfers from decedents to surviving spouses (retroactive to January 1, 1985) and to other Class A beneficiaries on a phased-out basis through July 1, 1988. On July 1, 1988, other Class A beneficiaries became totally exempt from the tax. Class C beneficiaries were granted a \$25,000 exemption effective on July 1, 1988.

In July 2002, legislation (C. 31, P.L. 2002) was enacted changing the manner in which Estate Tax is computed for the estates of decedents dying after December 31, 2001. Under the changes made to the Federal estate tax law, New Jersey's Estate Tax would have been phased out over a three-year period.

P.L. 2003, C. 246, the Domestic Partnership Act, recognized domestic partnerships and provided

certain rights and benefits to individuals participating in them. The Act made significant changes to the New Jersey Inheritance Tax for individuals dying on or after July 10, 2004. Transfers made to a surviving domestic partner were made exempt from the Inheritance Tax.

P.L. 2004, C. 132, enacted August 31, 2004, and effective on the 180th day following enactment, makes important changes in the way estates and trusts must be administered. This change would indirectly affect both Inheritance and Estate Tax.

P.L. 2005, C. 331, provides a surviving domestic partner with the same intestacy rights as a surviving spouse. Additionally, a surviving domestic partner now has the right to take an elective share in a deceased partner's estate, be appointed administrator of the estate, and make funeral arrangements.

P.L. 2006, C. 103, provides a civil union partner with the same rights as a spouse. Surviving civil union partners are exempt from the Inheritance Tax and are entitled to the same New Jersey Estate Tax marital deduction as a surviving spouse.

## **Taxes of the State of New Jersey**

*The following outline provides basic information regarding taxes imposed by the State of New Jersey and administered by the Division of Taxation and the Division of Revenue which a new business may be responsible for collecting and paying.*

### **NEW JERSEY GROSS INCOME TAX**

(N.J.S.A. 54:A:1-1 *et seq.*)

Personal income tax is imposed on the New Jersey taxable income of resident and nonresident individuals, estates and trusts for taxable years ending on or after July 1, 1976. Residents are subject to tax on all income, regardless of where it was earned, while nonresidents are only subject to tax on income derived from sources within New Jersey.

The withholding requirements apply to *every* New Jersey employer making payment of taxable wages. For New Jersey Gross Income Tax purposes, the term "employer" includes organizations that may be exempt from Federal income tax or New Jersey Corporation Business Tax, such as religious organizations and governmental agencies.

Generally, anything regarded as "wages" for Federal withholding purposes is subject to withholding for the New Jersey Income Tax. Every employer is required to file a quarterly return of tax withheld (NJ-927) for each calendar quarter. Some employers are also required to file a monthly remittance (NJ-500). Employers classified as "weekly payers" must remit payment of withholdings by means of Electronic Funds Transfer (EFT) on the Wednesday of the week following the week in which the taxes were withheld. Employers not classified as weekly payers must remit the tax withheld with their withholding return either monthly or quarterly, depending on the amount of withholding liability.

### **RECIPROCAL AGREEMENT**

(New Jersey & Pennsylvania Residents Only)

Under the Reciprocal Tax Agreement, the compensation derived by residents of either state (New Jersey or Pennsylvania) will be subject to income tax only in the state of residence including compensation income derived from sources within the other state.

Compensation that is limited to the provisions of the Reciprocal Agreement means salaries, wages, tips, fees, commissions, bonuses and other remuneration received for services rendered. Businesses or professional income earned by a resident of either state is not *covered* by the Reciprocal Agreement and is subject to the income tax of the state in which it is earned.

### **WITHHOLDING REQUIREMENT FOR CONTRACTOR SERVICES**

(N.J.S.A. 54A:7-1)

Effective January 1, 2007, the law requires persons, other than a governmental entity, homeowner, or tenant, who maintains an office or transact business in New Jersey and make payments for services to

certain unincorporated construction contractors and unregistered individuals to withhold New Jersey gross income tax at the rate of 7% from those payments. For more information regarding the withholding requirement for contractor services, go to the Division's Web site at:

[www.state.nj.us/treasury/taxation/noticegit.shtml](http://www.state.nj.us/treasury/taxation/noticegit.shtml).

### **UNEMPLOYMENT & DISABILITY TAXES**

If you are employing, or expect to employ, one or more persons, you should notify the Division of Revenue so that a determination can be made as to whether or not you are subject to the law. Under the law (N.J.S.A 43:21-19(h1) et seq.) it is your responsibility to make the fact known.

**Determination of Liability** - If you start a business and employ one or more individuals and pay wages of \$1,000 or more in a calendar year, you may be subject to the law.

If you acquire the organization, trade or business, or substantially all the assets of an employing unit which is already subject to the law, you immediately become a subject employer.

If you are subject to the provisions of the Federal Unemployment Tax Act (FUTA) you automatically become subject under the law, unless the services performed are specifically excluded under the New Jersey law. An employing unit is generally subject to FUTA if it had covered employment during some portion of a day in 20 different calendar weeks within the calendar year or had a quarterly payroll of \$1,500 or more.

**Note:** Agricultural Employers -You are liable for contributions on wages paid to agricultural employees if:

1. You were already a registered employer, or
2. Not registered, you were or became subject to the Law, having paid wages of \$1,000 or more in a calendar year to one or more workers for services performed in a non-agricultural business operation, or
3. You acquired the organization, trade or business, or substantially all the assets of an employing unit already subject to the law, or
4. You are subject to the Federal Unemployment Tax Act, or
5. Not subject under the above provisions, you:
  1. Paid gross cash remuneration of \$20,000 or more to individuals employed in agricultural labor during any calendar quarter, or
  2. Employed ten or more individuals in agricultural labor, regardless of whether they were employed at the same moment of time, for some portion of a day in each of 20 different calendar weeks, whether or not such weeks were consecutive.

**Special Employers** - Under certain circumstances, a crew leader who provides a crew to an agricultural employer, can be considered the employer of the crew for unemployment tax purposes. The agreement between the crew leader and entity must comply with all Federal and State regulations and the crew leader must be registered under the New Jersey Crew Leader Registration Act. For further information contact any Regional Office.

**Domestic Employers** - In order for you to become subject to the law, you must have paid gross cash wages of at least \$1,000 to domestic labor in a calendar quarter.

The State of New Jersey and its political subdivisions are subject to the law.

## **SALES AND USE TAX**

(N.J.S.A. 54:32B-1 *et seq.*)

A tax is imposed on the receipts from every retail sale or rental of tangible personal property, food and beverage sold by restaurants or caterers, and charges for admissions and occupancies of hotel rooms except as otherwise provided in the Act. The tax is also imposed on the receipts from every sale except for resale of certain services as enumerated in the Act including, for example, installing, repairing or maintaining tangible or real property, storage services, telecommunications, direct mail processing, investigation and security services.

A use tax is imposed on items acquired for use in this State on which a sales tax would be due but has not been paid.

The law exempts many items such as food ingredients for human consumption, prescription drugs, ordinary clothing and footwear, and utilities such as water, steam, and fuel.

The Act further provides tax exemptions for certain items and services when used or consumed under specifically defined conditions or circumstances.

The sales tax is imposed on the consumer; however, every person required to collect any tax imposed by this Act shall be personally liable for collecting and remitting such tax.

Persons required to collect the tax and persons accepting exemption certificates must complete the Registration Application (NJ-REG).

Sales and use tax returns (Forms ST-50/ST-51) must be filed electronically, either online or by phone. All vendors are required to file quarterly returns (Form ST-50), and some vendors may also have to file

### **CAPE MAY COUNTY TOURISM SALES TAX**

(N.J.S.A. 40:54D-1 *et seq.*)

The Tourism Improvement and Development District Act authorizes qualified municipalities to levy an additional sales tax on predominantly tourism-related retail sales. The retail sales to be taxed include admissions, hotel occupancies, food and drink sold in restaurants, or similar establishments.

To qualify for the additional sales tax, all such retail sales must be taxable under the Sales and Use Tax Act (P.L. 1966, c. 30; N.J.S.A. 54:32B-1 *et seq.*). The local sales tax would "piggyback" onto the State sales tax which would be collected by the Division of Revenue and placed in a special reserve fund to pay principal and interest on bonds and notes issued by the tourism authority for financing tourism

promotion activities and projects within the district. Businesses that make sales of tourism-related items will file the ST-350 return on a monthly basis.

### **COSMETIC MEDICAL PROCEDURES GROSS RECEIPTS TAX**

(N.J.S.A. 54:32E-1)

Effective September 1, 2004, the law imposes a 6% cosmetic medical procedures gross receipts tax (CMPGRT) on the purchase of certain "cosmetic medical procedures," which are medical procedures performed primarily in order to improve a person's appearance.

P.L. 2011, c. 189, which was signed into law on January 17, 2012, phases out the Cosmetic Medical Procedures Gross Receipts Tax over the next two years. A reduction in the tax is applicable for periods beginning in calendar year 2012.

Beginning July 1, 2012, the current 6% tax rate imposed on the gross receipts from cosmetic medical procedures as defined by the Act (N.J.S.A. 54:32E-1) will be reduced. The schedule for the tax phase out is as follows:

For procedures performed on or after July 1, 2012 but before July 1, 2013 the tax rate will be 4%.

For procedures performed on or after July 1, 2013 but before July 1, 2014, the tax rate will be 2%

For procedures performed on or after July 1, 2014 the tax rate will be 0% (the tax is entirely eliminated).

Note: The first returns reflecting the collection of tax at the 4% rate will be due on October 20, 2012. The tax does not apply to procedures that significantly serve to prevent or treat illness or disease or to correct abnormalities caused by birth defects, developmental abnormalities, trauma, tumors, infection or disease, or to promote proper functioning of the body. The tax also applies to the sale of goods and of facility occupancies (e.g., hospital or clinic stays) that are required for or directly associated with the taxable cosmetic medical procedure.

Providers of the taxable cosmetic medical procedures, or related goods or occupancies, must collect

the CMPGRT from the person on whom the taxable procedure is performed. The 6% tax is calculated on the amount charged to the subject of the taxable procedure for the procedure, or for the associated goods or occupancies. Providers of taxable cosmetic medical procedures, goods, and occupancies may include, but are not limited to, surgeons, dermatologists, electrologists, spas, hair replacement facilities, salons, hospitals, and clinics that may at some time perform cosmetic medical procedures or provide the subject with medical facility occupancies or goods required for or directly associated with such procedures.

Every quarter, on the 20th of the month following the end of the quarter, providers must file a quarterly cosmetic medical procedures gross receipts tax return, CMPT-100, via either Internet or telephone, and at that time must remit any CMPGRT tax collected during the quarter.
