Description of Change

Revised the contrast striping details for both paint and tape applications to match the current specification. A table of Standard Striping Materials and Procedures was removed from the specifications and added to the standard drawing.

Reason for Change

Standard Drawing PM-5 has been revised to provide details for both paint and tape applications for Contrast Striping in accordance with the current Standard Supplemental Specification. The table of Standard Striping Materials and Procedures relocated to the standard drawing as it is a more appropriate location for this information.
