

NOTE: The following language is ADDED to the version of the NJTA 2004 Standard Supplementary Specifications which existed prior to the issuance of this DCA.

104.20 DIESEL EQUIPMENT OPERATIONS.

- (A) The Contractor shall ensure that all diesel non-road construction equipment used during the construction of the Project use ultra-low sulfur fuel (<15 ppm sulfur) in accordance with the federal Nonroad Diesel Rule, 40 CFR Parts 9, 69, 80, 86, 89, 94, 1039, 1051, 1065, 1068.

- (B) The Contractor shall ensure that all vehicles, including non-road construction equipment operated at, or visiting, the Project site comply with the three (3) minute idling limit, pursuant to N.J.A.C. 7:27-14 and 15 , and ensure that every equipment operator and site superintendent has received a copy of the policy and has been instructed on its implementation.

- (C) No separate payment will be made for complying with the requirements of this Subsection.
