Advanced Traffic Impact Notice

Date: November 5, 2008

Project: P100.052 Northern Bridge Deck Repairs and Resurfacing

Route/Direction/MP: Garden State Parkway / North / Exit 127

Municipality/County: Woodbridge Township / Middlesex County

Nature of work: The work includes installation & removal of catches, structural steel repair, deck joint replacement, milling, and paving. This phase of the construction is only deck joint replacement and spall repair.

During the construction period, the NB exit ramp of Interchange 127 will be closed. A detour route will be in place for motorists to access Routes 9 & 440 as well as I-287. Additionally, northbound travel lanes over the Driscoll Bridge will be reduced from eight (8) lanes to five (5) lanes during this period. Interchange 124 entrance ramp from Main Street to the Parkway north will also be closed during this time period. A detour route will be in place for motorists to access the Parkway northbound.

Proposed Start Date and Time of the Construction: The construction is scheduled to start at 8 p.m. on the evening of Friday November 6, 2008 to 5 a.m. on the morning of Monday November 9, 2009.

Anticipated Traffic Impacts: It is anticipated that moderate traffic back-ups will occur during the afternoons on Saturday and Sunday before clearing in the evening hours.

Other Comments: The construction schedule is weather permitting and will be adjusted accordingly. VMS will be in place advising of the construction. Motorists will be advised to use the NB express lanes. Highway Advisory Radio (HAR) will be utilized.
