

NJ ManureLink

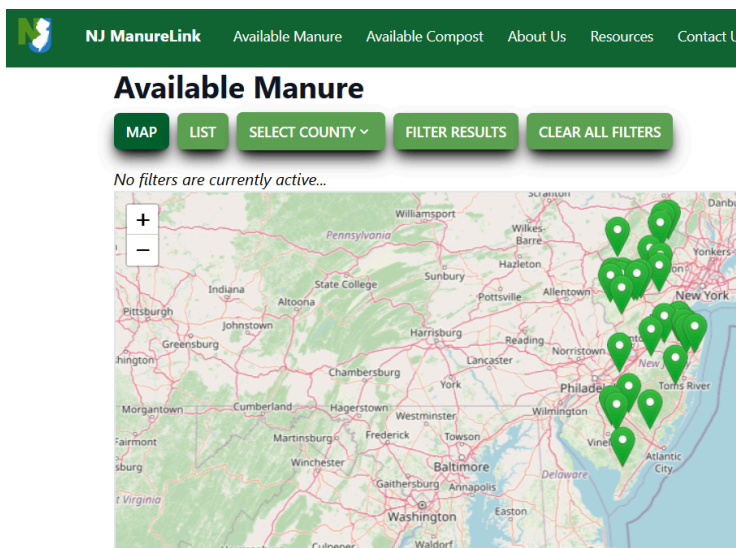

“Where to find what feeds your field.”

njmanurelink.rutgers.edu

The website is designed to help connect individuals who have manure or compost with those seeking to acquire it, utilizing an online tool. Search the listings, and/or create a listing to advertise your available resources.

The screenshot shows the homepage of the NJ ManureLink website. The header includes navigation links: NJ ManureLink, Available Manure, Available Compost, About Us, Resources, Contact Us, Login, Subscribe, Register Now, and Recover Password. The main heading is "Welcome to New Jersey ManureLink!". Below this, a paragraph explains the website's purpose: to help connect those with manure or compost to those seeking it. A list of bullet points provides instructions: "Looking for manure or compost?", "Do you have manure or compost and seeking to dispose of it sustainably?", and "Search the listings, and/or create a listing to advertise your available resources." To the right, there are three sections: "Want notifications!" with a "Subscribe For Notifications!" button, "Are you a new user?" with a "Register Today!" button, and "Existing User?" with a "Login to Create A Listing!" button. Below these is a "Have you come back for more? Please select an account type" section with two radio buttons: "Advertiser I made an account with a login." (selected) and "Subscribed Only I only signed up for notifications." Below this is an "Email" field with a placeholder "Enter email" and a "Password" field.

The screenshot shows the "Available Manure" page on the NJ ManureLink website. The header includes navigation links: NJ ManureLink, Available Manure, Available Compost, About Us, Resources, and Contact Us. The main heading is "Available Manure". Below this, there are five buttons: "MAP", "LIST", "SELECT COUNTY" (with a dropdown arrow), "FILTER RESULTS", and "CLEAR ALL FILTERS". Below the buttons, a message states "No filters are currently active...". Below this is a map of New Jersey with several green location pins indicating available manure resources. The map shows major cities and towns across the state.

Collaborating Organizations

Funding for NJ ManureLink is made possible through the USDA-NRCS, Conservation Innovation Grant # NR222B29XXXXG002
