The portion sizes will be reviewed on a daily basis using the Fruit and vegetable Buying Guide. Portion sizes offered for each required lunch component must meet daily and weekly minimum requirements for the appropriate grade group (K-5, 6-8, K-8, 9-12). When planning menus, refer to the Lunch Meal Pattern Charts, available on the Department of Agriculture Forms web site for specific requirements. To determine the creditable amount for each menu item’s contribution to the meal pattern, refer to the following resources: Child Nutrition (CN) Labels, Signed Manufacturers Product Formulation Statements, USDA Food Buying Guide, Whole Grain Rich (WGR) Resource, USDA Foods Information Sheets. Explain, in detail how the finding will be corrected and the measures taken to ensure that it will not reoccur in the future. Indicate the date of implementation.

At breakfast and lunch, all required meal components must be offered to students daily. When planning menus, the SFA must make sure that all 5 components of the reimbursable lunch, in minimum daily and weekly requirements, are offered. Daily production records and supporting documentation (including but not limited to standardized recipes, food labels, CN Labels, manufacturer product formulation statements, USDA Foods Information Sheets, etc.) must be used to make sure menus are in compliance with the meal pattern. Explain in detail, how the finding will be corrected and the measures taken to ensure that it will not reoccur in the future. Indicate the date of implementation.

All food and beverage items sold a la carte to students during the school day must meet Smart Snack requirements. The requirements apply to items sold anywhere on the school campus (including but not limited to the cafeteria, vending machines, school store, etc.) The Alliance for a Healthy Generation calculator can be used to determine if a food or beverage meets Smart Snack requirements. A link to the calculator is available under Resources in SNEARS. The water in the vending machine was flavored and was a 20 ounce bottle. K-8 is not allowed to have flavored water. Explain in detail, how the finding will be corrected and the measures taken to ensure that it will not reoccur in the future. Indicate the date of implementation.
