			CAP Submitted TOVA HERSKOVITS 06/13/2018 01:30 PM	I have an accurate program for recording meals. Rosters are given out at the beginning of each month and collected at the end of the month. Teachers diligently mark off those that take bkfst or lunch and those that do not and those that are absent. The error occured because there was an error in the recording of several students who were put in wrong as free or reduced or vice versa. The corrections were made on 5/11/2018. Because of this, my calculations were different. For Fridays , lunch is now served on site until the end of the school year. The Friday correction took place on 4/20/2018.			
			CAP Rejected Lorena Paredes 06/13/2018 01:18 PM	Please indicate a date of correction for the error in meal counts and also the date in which Friday lunches began being served in school.

Explain in detail, how the finding will be corrected and the measures taken to ensure that it will not reoccur in the future. Indicate the date of implementation.  The state agency has determined that the inaccurate method counting, combining, and recording of meals for lunch and breakfast for the review period is an ongoing systemic problem. 			CAP Submitted TOVA HERSKOVITS 06/05/2018 10:14 AM	On the days indicated, lunch and or breakfast was more desirable to many students. they liked it alot more. Certain lunches students always prefer more so we have a higher number of meals taken  06/05/2018		
			Flagged Lorena Paredes 06/04/2018 10:43 AM	When conducting edit checks, if the free, reduced price, or paid counts on any day exceed the number of eligible students adjusted for attendance, an explanation must be provided. The explanation should be recorded in the "Comments" column of the Edit Check Worksheet. Explain in detail, how the finding will be corrected and the measures taken to ensure that it will not reoccur in the future. Indicate the date of implementation.  On 50% or more of the serving days during the review month, the number of free and reduced price meals claimed exceeded the number of attendance adjusted eligible students. This indicates a potential flaw in the accountability system and/or the system of updating all documentation. Immediate investigation and explanation is necessary. Explain in detail, how the finding will be corrected and the measures taken to ensure that it will not reoccur in the future. Indicate the date of implementation. Fiscal action may be taken. An over claim may be assessed.
