In the future, we will make sure that the correct portion size is being offered. In a case where the individual apples may not be a full cup, we will make sure to have signage indicating that they may take 2 of them.</p> <p>Flagged by Genel Cook-Wright 12/12/2025 04:34 PM</p> <p>Portion sizes offered for each required breakfast component must meet daily and weekly minimum requirements for the appropriate grade group (K-5, 6-8, K-8, 9-12). When planning menus, refer to the Lunch Meal Pattern Charts, available on the Department of Agriculture Forms web site for specific requirements. To determine the creditable amount for each menu item's contribution to the meal pattern, refer to the following resources: Child Nutrition (CN) Labels, Signed Manufacturers Product Formulation Statements, USDA Food Buying Guide, Whole Grain Rich (WGR) Resource, USDA Foods Information Sheets.</p> <p>Corrective Action Finding:</p> <p>During the breakfast observation on 12/11/25, the SFA ran out of apples and substituted small bagged apples whose crediting value could not be verified. 	12/16/2025. Although we did not provide a copy of the previous health inspection, we actually had about 6 months earlier than the posted one. At this time, since our last one was in July 2025, we will reach out to the Inspector after the Holidays to obtain another one

	SFA did not have both food safety inspections for the current school year or have documentation indicating that two food safety inspections were requested in the current school year. In addition, the SFA only had one food safety inspection for the 2024-2025 school year. Schools participating in the school lunch and breakfast programs must, at least twice during the each school year, obtain a food safety inspection conducted by a State or local governmental agency responsible for food safety inspections.				
	Describe in the corrective action how this will be corrected.
