	Corrective Action Plan: Submitted by Rich Collins 05/14/2026 01:52 PM **Finding was corrected immediately.We have discussed the requirement for recording temperatures at least twice daily with the employees at Parker Elementary, as it is a satellite location.** **District director is monitoring daily and confirms compliance with the area supervisor.** **Additionally, the entire district staff received retraining on May 1st regarding these procedures and all schools in the district are continuously monitored by FSDirector and area supervisor**				
	Flagged by Corinne Santos-Hernandez 05/01/2026 09:44 AM During the lunch observation, it was observed that the temperature for the meal warmer was not recorded for that day. Because the school does not have a cafeteria, all meals are delivered from the high school, and the multipurpose room is used for both breakfast and lunch service. Although a temperature log sheet is maintained, the required temperature check for the day of the review was not documented. In addition, the milk cooler temperature was not recorded during the lunch service. Explain in detail, how the finding will be corrected and the measures taken to ensure that it will not reoccur in the future. Corrective Action must be applied SFA-wide. Indicate the date of implementation.
