	<p>Corrective Action Plan: Submitted by Chava Shemesh 02/29/2024 10:09 AM</p> <p>Effective 2.1.24 we have put a new system of checks and balances in place, where one secretary enters the meal counts into the computer from the roster and another secretary reviews and checks her work before the claim is submitted.</p> <p>Flagged by Casey Miller 01/30/2024 02:48 PM</p> <p>Breakfast and lunch counts by category (free, reduced and/or paid) must be correctly used in the claim for reimbursement. This includes ensuring that the counts were correctly recorded, counted, and combined from the point of service. If this involves transferring counts from one document/computer to another, a streamlined and consistent process should be used to prevent errors. Meal counts for each school should be verified prior to submitting and certifying the claim. Fiscal action may be assessed for meal counting and claiming errors.</p> <p>Error: On some days during the review month, check marks for students who received a meal and absent marks for students that were recorded on the classroom roster used at the point of service were incorrectly transferred and inputted into the computerized roster used to obtain total meal counts for the month. This clerical error led to incorrect counts by category being submitted on the review month claim for reimbursement voucher.</p> <p>Explain in detail, how the finding will be corrected and the measures taken to ensure that it will not reoccur in the future. Indicate the date of implementation.</p>
