04/11/2022. We will make sure that the menu items contain the proper portion size for our age group

**Flagged by Lorena Paredes 04/01/2022 10:15 AM**

Documentation for WG Calzone served on 1/16/22 states item provides 3.25 oz. equivalent of Grains. However, calculations show that calzone provides 1.75 oz. equivalent of Grains. The high school meal pattern daily requirement of Grains is 2 oz. equivalent and this item does not meet that requirement. At lunch, portion sizes planned for each component must meet both daily and weekly minimum requirements for each appropriate grade group. When planning menus, refer to the Lunch Meal Pattern Charts, available on the Department of Agriculture's Form web site for specific component and minimum quantity requirements. Failure to fix identified issues may also lead to fiscal action/repeat violations in subsequent reviews as these are Performance Standard 2 (PS2) violations. Explain in detail, how the finding will be corrected and the measures taken to ensure that it will not reoccur in the future. Indicate the date of implementation.
