

APRIL 2007 FUEL ADJUSTMENT ADD-ON

February Diesel price \$2.568 Base Diesel Price (2002) \$1.403

CALCULATION

Price Difference \$2.568 - \$1.403 = \$1.165

Premium Calculation

3 cents for every 10 cent increase/decrease \$1.165 / 10 = \$0.1165 Round to \$0.12

\$0.12 x 3 = \$0.36

Adjust for Class I Utilization* \$0.36 x =

* Please note that the calculations for the percent Class I utilization will be posted on the Department's website no later than **May 14, 2007**. Licensed processors can calculate the actual cost of the fuel adjustment add-on by adjusting the fuel adjustment add-on by the percentage of their individual Class I utilization.
