Justification for Quonset Hut Repair

The New Jersey Department of Agriculture Phillip Alampi Beneficial Insect Laboratory (PABIL) requires the replacement of greenhouse panels on the Quonset Hut in Ewing, New Jersey. The existing panels are over 30 years old and are collapsing. The attached images provided show the damage that is occurring. In addition, the adjacent panels are starting to break due to the stress of the damage. The replacement of the panels requires a company with expertise in greenhouse operation and repair. The new panels are currently being held in the PABIL pole barn and are awaiting installation.

STATE OF NEW JERSEY DEPARTMENT OF THE TREASURY
