Report of the Chairman

Secretary Wengryn attended two budget hearings for the department which included discussion on the farmland preservation program. He also attended a

summit with Sussex and Warren County which focused on the New Jersey beef industry. Warren County transferred land to its community college in the hopes of opening a food processing facility and creating a related agricultural curriculum.

Report of the Executive Director

Mr. Roohr announced that the Patricelli auction was successful and the farm was sold to a new farmer.

Woodland easement regulations are in development and outreach to various interest groups will increase. Staff discussed the program at the quarterly CADB Administrators meeting and received constructive feedback.

The Ag-tourism grant program will announce the recipients soon and SADC staff will work with easement holders and preserved farm owners to discuss deed of easement compliance regarding their planned projects.

Mr. Roohr acknowledged SADC staff is undergoing some changes as Cindy Roberts of Communication & Resources will be retiring in June, Katie Mazzella of Acquisition will be leaving on maternity leave, and staff has welcomed Catie Buck as a Stewardship Specialist.

Public Comment

Ms. Patricia Springwell from Hunterdon County asked the SADC to be aware of the rise of AI data centers and use preservation efforts to halt the development of them. She stressed the importance of farm inspections to reduce deed of easement violations, and the program should focus on food production and preserving fertile soils.

Mr. Marco Ortiz from Gloucester County expressed concern over activities occurring on a neighboring farm and deed of easement compliance regarding SOEs, the location of storage containers and the construction of solar panels.

Ms. Danielle Vallandingham, Mr. Ortiz's wife, from Gloucester County acknowledged the same concerns as Mr. Ortiz and asked the committee to review the SOE and Right to Farm issues of the neighboring farm.

Mr. James Farro, zoning officer from South Harrison, stated his office has received complaints regarding activities occurring on the farm and expressed concern regarding the SOE approval the farm received from the county.

II. Special Occasion Events law

WHEREAS, P.L. 2023, c.9, effective February 3, 2023, recognizes that, under certain conditions, the holding of special occasion events (SOEs) can have a positive effect on the operations of preserved farms and that, with proper oversight, SOEs on preserved farmland can have minimal impact on land's viability for farming and provide new business opportunities for farmers, without displacing agricultural or horticultural production as the first priority use of preserved farmland or disrupting neighborhoods that surround preserved farms; and

WHEREAS, the SOE statute defines an SOE as a wedding, lifetime milestone event, or other cultural or social event conducted, in whole or in part, on preserved

farmland on a commercial farm, and states that SOEs shall not include activities eligible for the protections of the Right to Farm Act, N.J.S.A. 4:1C-1 et seq.; recreational uses permitted under the farmland preservation deed of easement; weddings held for the owner, operator, or employee of the commercial farm; and weddings held for certain family members of the commercial farm owner; and

WHEREAS, the SOE statute requires that farm owners and farm operators apply to the farmland preservation easement holder for approval prior to holding SOEs on preserved farmland; and

WHEREAS, if the Applicant is the Operator but not the Owner of the farm, the Operator shall submit a notarized affidavit from the Owner authorizing the application; and

WHEREAS, the occupied area associated with an SOE shall be no more than the lesser of 10 acres or 10 percent of the preserved farmland; and

WHEREAS, SOEs shall not interfere with the use of the preserved farmland for agricultural or horticultural production; and

WHEREAS, the SOE statute shall not apply to SOEs, or the parts of SOEs, that are held on exception areas or other locations that are not preserved farmland.

WHEREAS, the SOE statute contains the following requirements regarding holding SOEs on preserved farmland:

4. A municipality may require a municipal application if the SOE would: (a) generate a parking or traffic flow situation that could unreasonably interfere with the movement of normal traffic or emergency vehicles or other organized group sharing similar common purposes or goals proceeding in or upon any street, park, or other public place within the municipality; or (b) require the expenditure of municipal resources or inspections from agencies or authorities of the municipality; and
5. No new permanent structures shall be constructed on preserved farmland for the purpose of holding SOEs; and
6. Improvements to existing structures shall be limited to the minimum required for the protection of health and safety; and
7. Permanent structures constructed fewer than five years prior to the date of the application shall not be used for the purpose of holding SOEs, unless: 1) the permanent structure was constructed and is used in accordance with N.J.S.A. 4:1C-9 by a winery for the primary purpose of facilitating the tasting, sale, consumption, production, packaging, or marketing of wine, wine-related products, or farm-related products, as determined by the easement holder; or 2) the total amount of revenue to be earned from all SOEs identified in the application, and approved to be held on the farm during the calendar year, will not exceed 10 percent of the total revenues accruing to the farm in that calendar year; and

VI. Deed of Easement Compliance

WHEREAS, on October 10, 2024, the SADC performed an annual monitoring inspection of the Premises; and

WHEREAS, on December 18, 2024, SADC staff issued a notification letter to the Owner regarding potential violations of the SOE law and paragraphs 1-4 of the farmland preservation deed of easement for modifying the Premises'

agricultural land to host SOEs and the displacement of agricultural or horticultural production as the first priority use of the preserved farmland; and

WHEREAS, the primary concerns noted by the SADC, based on observations from the October 10, 2024 site inspection and follow-up inspections on March 14, 2025 July 8, 2025, and April 8, 2026, are: the possible modification, grading, and development of the area west of and near the barn for non-agricultural purposes; the use of the barn primarily for SOEs and SOE equipment storage, in place of the barn being available for agricultural uses; and the growing-season long siting in a sod field of an atrium tent for non-agricultural purposes, with the atrium tent's use for SOEs disturbing the sod underneath and the atrium tent's remaining-in-place preventing the land from being returned to productive agricultural use after each SOE; and

WHEREAS, in correspondence from the Owner's attorney between January 2025 and April 2026 and during the four site visits, the Owner expressed his position that that farm was not in violation of the SOE law and farmland preservation deed of easement; and

WHEREAS, the Owner described how he had cleaned up the area around and near the barn through clearing weeds, removing trash and debris, adding and smoothing soil, and covering the area in sod; that he was using this area for SOEs; and that he planned to also use this area for agricultural purposes, noting that he held a spring and fall plant sale in 2025 and expressing a variety of possible intended uses, such as to use the area for potted flower and herb production, nursery production with the farm's recent addition of irrigation in this area, or for direct market or CSA program sales; and

WHEREAS, the Owner described that the atrium tent was in an area where sod was not typically harvested, that he had stored farm equipment in the atrium tent, and that in addition to using the atrium tent for SOEs, the Owner was considering using it for on-farm direct marketing activities or sales; and

WHEREAS, the Owner described how the barn, in addition to being used for SOEs, was used for some farm equipment storage and in the future would be used for some initial nursery plant propagation processing before moving the plants in the two nearby greenhouses; and

WHEREAS, on July 22, 2025, the SADC sent the Owner a status letter acknowledging that the Owner was in the early stages of establishing a new agricultural production operation and that the SADC would take a measured approach to enforcement and defer further discussion until the time of SOE permit renewal; and

WHEREAS, after the Owner's submission of the SOE permit renewal application on November 18, 2025, the SADC worked with the Owner to get more information on the SOE application, the status of the Owner's current agricultural operation

and plans, and other details that would help inform the SADC regarding its concerns; and

WHEREAS, in correspondence dated April 1, 2026 and during the April 8, 2026 follow-up inspection, the Owner stated that he was amending the SOE application to not include the use of the atrium tent; and

WHEREAS, during the April 8, 2026 follow-up inspection, the SADC observed significant investment in the property for a new nursery production operation, including the addition of two greenhouses, a wood boiler, and irrigation in the area immediately north of the barn; the addition, on the Owner's adjacent preserved farm, of ten hoopouses, irrigation, and active nursery production with plants being processed into pots and there being plants in the ground, in pots outdoors, and in pots in the new hoopouses as well as the high tunnels that had been used for vegetable production the prior year; and the utilization of deer fencing that had been installed in the past year; and

WHEREAS, in terms of the Owner's plans for 2026, the Owner described how he intended to continue expanding the area in nursery production; grow vegetables in another field but not have the CSA be a focus because of low participation in 2025; grow sweet corn in the field that had been used for flower production the prior year; sell the farm's agricultural products in the area near the barn and greenhouses and under a market tent, such as through a Mother's Day sales event, a Fall mums sales events, and seedling and plant sales throughout the year; and use the market tent or lawn if any on-farm direct marketing events were to be scheduled and have them focus on the sale of agricultural products; and

WHEREAS, during the April 8, 2026 inspection, the SADC observed two new doorways being added to the barn, one in the back and one on the side, which the Owner stated were needed to create more efficient access between the barn and the two nearby greenhouses in back of the barn; and

WHEREAS, during the April 8, 2026 inspection, the SADC observed the barn being used primarily for SOE equipment storage, including tables, chairs, bar structures, and string lights, along with storage for one piece of agricultural equipment; and

WHEREAS, the website for the Owner's nursery production operation, [REDACTED], states that it supplies landscapers, contractors, garden centers, and others, grows most of its trees and shrubs on site, and has a full wholesale inventory of shade trees, evergreens, ornamentals, flowering trees, and shrubs.

VII. Review of Application and Certification

WHEREAS, in order to measure the acreage of the occupied area depicted on the Occupied Area Applicant Map, the SADC created a GIS map, attached hereto as **Schedule C**; and

WHEREAS, the occupied area is approximately 4.58 acres, or approximately 5.24% of the Premises, as calculated using the Occupied Area SADC Map; and

WHEREAS, to review whether the preserved farmland produces agricultural or horticultural products worth \$10,000 or more annually, the SADC considered its observations from several site inspections, the attestation provided by the farm's accountant, and an Agricultural/Horticultural Production Value Estimating Tool For SOE Applications, as shown in **Schedule D**, using some of the information from the application; and

WHEREAS, the value of agricultural or horticultural products produced on the Premises appears to be more than \$10,000 annually; and

WHEREAS, the SADC reviewed whether the farm is in compliance with the SOE law and its farmland preservation deed of easement as part of its review of the SOE permit renewal application; and

WHEREAS, the SOE statute states that the easement holder shall approve an SOE application upon a determination that the farm is in compliance with the terms of the farmland preservation deed of easement and a finding that the applicant and proposed SOEs comply with the requirements of the SOE statute and any rules and regulations adopted by the SADC.

NOW THEREFORE BE IT RESOLVED:

1. The WHEREAS paragraphs above are incorporated herein by reference.
2. The SADC makes the following relevant findings of fact and conclusions of law regarding the application by the Owner to hold SOEs on the Premises:
 - a. The farm is in compliance with the farmland preservation deed of easement, provided that:
 - i. The area west of and near the barn is being used not only for SOEs but also, and primarily, for the production and/or marketing of agricultural or horticultural products grown on the farm;
 - ii. The barn is being used not only for SOEs but also, and primarily, for agricultural use or purposes; and
 - iii. Continued monitoring of the farm does not find compliance issues.
 - b. There is a commercial farm on the Premises.

 - f. The proposed number of SOEs that would have 250 guests or more in attendance at any time during the event is not more than 6.
 - g. The farm and proposed SOEs comply with the requirements of the SOE statute, provided that continued monitoring of the farm's operation, activities, and events does not find otherwise
3. The SADC approves the Owner's application to hold SOEs on the Premises in calendar years 2026 and 2027, provided that the farm remains in compliance with ARDA, the terms of the farmland preservation deed of easement, the SOE statute, and this resolution.
4. The installation and use of temporary structures on preserved farmland for the purpose of holding SOEs is limited to the timeframe from April 1 to November 30.
5. The atrium tent will not be used for SOEs in 2026 unless concerns regarding compliance with the SOE law and the farmland preservation deed of easement are addressed through continuing discussion with the SADC or in future SOE regulations.
6. The Owner shall annually certify to the SADC, in a form and manner prescribed by the SADC, information about the SOEs that were held in the prior calendar year, including, but not be limited to, the date, occasion, and approximate number of attendees of each event.
7. The Owner shall provide the SADC with an end-of-year description of and proof of any agricultural production or marketing of the farm's production in the area west and near the barn during 2026, and shall provide an end-of-year description of the barn's uses in 2026.
 - a. Any trees, shrubs, or nursery products the [REDACTED] sources from other farms to directly fill clients' orders are not considered [REDACTED]' own agricultural production.

II. Special Occasion Events law

WHEREAS, P.L. 2023, c.9, effective February 3, 2023, recognizes that, under certain conditions, the holding of special occasion events (SOEs) can have a positive effect on the operations of preserved farms and that, with proper oversight, SOEs on preserved farmland can have minimal impact on land's viability for farming and provide new business opportunities for farmers, without displacing agricultural or horticultural production as the first priority use of preserved farmland or disrupting neighborhoods that surround preserved farms; and

WHEREAS, the SOE statute defines an SOE as a wedding, lifetime milestone event, or other cultural or social event conducted, in whole or in part, on preserved farmland on a commercial farm, and states that SOEs shall not include activities eligible for the protections of the Right to Farm Act, N.J.S.A. 4:1C-1 et seq.;

recreational uses permitted under the farmland preservation deed of easement;
weddings held for the owner, operator, or employee of the commercial farm;
and weddings held for certain family members of the commercial farm owner;
and

WHEREAS, the SOE statute requires that farm owners and farm operators apply to the farmland preservation easement holder for approval prior to holding SOEs on preserved farmland; and

WHEREAS, a farm operator, with written authorization from the farm owner, may apply to hold SOEs on preserved farmland; and

WHEREAS, if the Applicant is the Operator but not the Owner of the farm, the Operator shall submit a notarized affidavit from the Owner authorizing the application; and

WHEREAS, the farm must be in compliance with the farmland preservation deed of easement to qualify to hold SOEs; and

WHEREAS, the preserved farmland must be a commercial farm and also produce agricultural or horticultural products worth \$10,000 or more annually to qualify to hold SOEs; and

WHEREAS, the SOE statute defines the area used to hold SOEs as the “occupied area”, meaning any area supporting the activities and infrastructure associated with a special occasion event including, but not limited to: an area for parking, vendors, tables, equipment, infrastructure, or sanitary facilities; an existing building; or a temporary or portable structure; and

WHEREAS, the occupied area associated with an SOE shall be no more than the lesser of 10 acres or 10 percent of the preserved farmland; and

WHEREAS, SOEs shall not interfere with the use of the preserved farmland for agricultural or horticultural production; and

WHEREAS, SOEs shall have minimal effects on the occupied area and shall be designed to protect the agricultural resources of the land and ensure that the land can be readily returned to productive agricultural or horticultural use after an SOE; and

WHEREAS, the SOE statute does not apply to SOEs, or the parts of SOEs, that are held on exception areas or other locations that are not preserved farmland.

WHEREAS, the SOE statute contains the following requirements regarding holding SOEs on preserved farmland:

1. SOEs that involve the service of alcoholic beverages shall comply with all applicable State and local laws, regulations, resolutions, and ordinances; and

2. All applicable State and local laws, regulations, resolutions, and ordinances including, but not limited to, those concerning food safety, litter, noise, solid waste, traffic, and the protection of public health and safety shall apply to the special occasion event and all activities related thereto; and
3. To comply with local laws, regulations, resolutions, and ordinances, and if the proposed SOE meets certain conditions, the municipality may require that the owner or operator of the farm submit an application to the municipality for approval, but the municipality shall not charge an application fee of more than \$50.00, and the application shall not require more information than the identification and location where tents and other temporary structures, sanitary facilities, parking, access and egress will be located, where music will be played, the number of expected guests, and other information that may be required of a similar event when conducted at a public park or public venue; and
4. A municipality may require a municipal application if the SOE would: (a) generate a parking or traffic flow situation that could unreasonably interfere with the movement of normal traffic or emergency vehicles or other organized group sharing similar common purposes or goals proceeding in or upon any street, park, or other public place within the municipality; or (b) require the expenditure of municipal resources or inspections from agencies or authorities of the municipality; and
5. No new permanent structures shall be constructed on preserved farmland for the purpose of holding SOEs; and
6. Improvements to existing structures shall be limited to the minimum required for the protection of health and safety; and
7. Permanent structures constructed fewer than five years prior to the date of the application shall not be used for the purpose of holding SOEs, unless: 1) the permanent structure was constructed and is used in accordance with N.J.S.A. 4:1C-9 by a winery for the primary purpose of facilitating the tasting, sale, consumption, production, packaging, or marketing of wine, wine-related products, or farm-related products, as determined by the easement holder; or 2) the total amount of revenue to be earned from all SOEs identified in the application, and approved to be held on the farm during the calendar year, will not exceed 10 percent of the total revenues accruing to the farm in that calendar year; and

may be extended to preserved farmland for the purpose of holding special occasion events; and

10. Parking for SOEs shall be provided through the use of existing parking areas on the farm and curtilage surrounding existing buildings to the extent possible, and additional on-site areas required for temporary parking shall comply with the standards in the Agricultural Management Practice (AMP) for On-Farm Direct Marketing Facilities, Activities, and Events, N.J.A.C. 2:76-2A.13; and
11. If a farm holds more than one SOE on the same calendar day, only one of the SOEs held on that calendar day may have over 100 guests; and
12. A farm may hold 26 SOEs each calendar year, of which only six SOEs may have 250 guests or more in attendance at any time during the event; and
13. SOEs held by or for a nonprofit entity shall not count against the 26 SOE limit if the event has fewer than 100 guests and the permittee does not charge for, and receives no fees or compensation for, hosting the event, other than for reimbursement of out-of-pocket expenses, provided the maximum reimbursement to the permittee shall not exceed \$1,000; and
14. A retail food establishment, other than a temporary retail food establishment, shall not operate on a farm in support of SOEs, with the exception of a retail food establishment based at the farm; and

DISCUSSION. Knowledge of the individual's response to auditory and visual stimuli is important to the study of the cognitive functions of the brain. The data presented here were collected passively for sleeping patients. The positive accuracy and increase in the AICs data obtained in this study was small but, not as intended to be, relies upon a patient's location and location of the ground electrode and a virtual chance as well as obtained by an actual standard survey method of a hospital differential LAN survey.

NOW THEREFORE BE IT RESOLVED:

1. The WHEREAS paragraphs set forth above are incorporated herein by reference.
2. The SADC grants final approval to provide a buffered cost share grant to the County for the purchase of a development easement on the Premises, comprising approximately 31.137 net easement acres, at a State cost share of \$8,156.82 per acre, for a total grant of approximately \$253,978.90 pursuant to N.J.A.C. 2:76-26.12.
3. The SADC's final approval and cost share grant is conditioned upon receipt of all relevant resolutions and funding commitments for the purchase of the development easement.
4. Any unused funds encumbered from either the base or competitive grants at the time of closing shall be returned to their respective sources (competitive or base grant funds).

5. Should additional funds be needed due to an increase in acreage and if base grant funding becomes available the grant may be adjusted to utilize unencumbered base grant funds.
6. The SADC will be providing its grant directly to Warren County, and the SADC shall enter into a Grant Agreement with the Township and County pursuant to relevant provisions in N.J.A.C. 2:76-6.18 and 6.18A.
7. The SADC's cost share grant to the Township for the purchase of a development easement on the approved application shall be based on the final surveyed acreage of the Premises adjusted for proposed road rights-of-way, other rights-of-way, easements, encroachments, and streams or water bodies on the boundaries of the Premises as set forth in a survey prepared in accordance with Policy P-3-C or other superior interests (recorded or otherwise granted) in the property that conflict with the terms of the Deed of Easement or otherwise restrict the affected area's availability for a variety of agricultural uses.
8. The final acreage of the exception area shall be subject to onsite confirmation, and the Executive Director may approve final size and location of the exception area such that the size does not increase more than one (1) acre and the location remains within the substantially same footprint as the herein-approved exception, so long as there is no impact on the SADC certified value.
9. All survey, title and all additional documents required for closing shall be subject to review and approval by the SADC.
10. This approval is considered a final agency decision appealable to the Appellate Division of the Superior Court of New Jersey.
11. This action is not effective until the Governor's review period expires pursuant to N.J.S.A. 4:1C-4f.

NOW THEREFORE BE IT RESOLVED:

1. The WHEREAS paragraphs set forth above are incorporated herein by reference.
2. The SADC grants final approval to provide a buffered cost share grant to the County for the purchase of a development easement on the Premises, comprising approximately 85.645 net easement acres, at a State cost share of \$8,440.16 per acre, for a total grant of approximately \$722,857.50 pursuant to N.J.A.C. 2:76-26.12.
3. The SADC's final approval and cost share grant is conditioned upon receipt of all relevant resolutions and funding commitments for the purchase of the development easement.
4. Any unused funds encumbered from either the base or competitive grants at the time of closing shall be returned to their respective sources (competitive or base grant funds).
5. Should additional funds be needed due to an increase in acreage and if base grant funding becomes available the grant may be adjusted to utilize unencumbered base grant funds.

6. The SADC's cost share grant to the county for the development easement purchase on the Premises shall be based on the final surveyed acreage of the Premises adjusted for proposed road rights-of-way, other rights-of-way, easements, encroachments, and streams or water bodies on the boundaries of the Premises as set forth in a survey prepared in accordance with Policy P-3-C or other superior interests (recorded or otherwise granted) in the property that conflict with the terms of the Deed of Easement or otherwise restrict the affected area's availability for a variety of agricultural uses.
7. The SADC shall enter into a Grant Agreement with the County in accordance with N.J.A.C. 2:76-6.18.
8. The final acreage of the exception area shall be subject to onsite confirmation, and the Executive Director may approve final size and location of the exception area such that the size does not increase more than one (1) acre and the location remains within the substantially same footprint as the herein-approved exception, so long as there is no impact on the SADC certified value.
9. All survey, title and all additional documents required for closing shall be subject to review and approval by the SADC.
10. This approval is considered a final agency decision appealable to the Appellate Division of the Superior Court of New Jersey.
11. This action is not effective until the Governor's review period expires pursuant to N.J.S.A. 4:1C-4f.

NOW THEREFORE BE IT RESOLVED:

1. The WHEREAS paragraphs set forth above are incorporated herein by reference.

2. The SADC grants final approval to provide a buffered cost share grant to the County for the purchase of a development easement on the Premises, comprising approximately 28.098 net easement acres, at a State cost share of \$12,361.50 per acre, for a total grant of approximately \$347,333.43 pursuant to N.J.A.C. 2:76-26.12.

4. Any unused funds encumbered from either the base or competitive grants at the time of closing shall be returned to their respective sources (competitive or base grant funds).
5. Should additional funds be needed due to an increase in acreage and if base grant funding becomes available the grant may be adjusted to utilize unencumbered base grant funds.
6. The SADC's cost share grant to the county for the development easement purchase on the Premises shall be based on the final surveyed acreage of the Premises adjusted for proposed road rights-of-way, other rights-of-way, easements, encroachments, and streams or water bodies on the boundaries of the Premises as set forth in a survey prepared in accordance with Policy P-3-C or other superior interests (recorded or otherwise granted) in the property that conflict with the terms of the Deed of Easement or otherwise restrict the affected area's availability for a variety of agricultural uses.
7. The SADC shall enter into a Grant Agreement with the County in accordance with N.J.A.C. 2:76-6.18.
8. The final acreage of the exception area shall be subject to onsite confirmation, and the Executive Director may approve final size and location of the exception area such that the size does not increase more than one (1) acre and the location remains within the substantially same footprint as the herein-approved exception, so long as there is no impact on the SADC certified value.
9. All survey, title, and all additional documents required for closing shall be subject to review and approval by the SADC.
10. This approval is considered a final agency decision appealable to the Appellate Division of the Superior Court of New Jersey.

This scoring template was developed by the New Jersey State Agriculture Development Committee (SADC) to estimate development easement values using the Statewide Formula Valuation methodology for farmland preservation as set forth in N.J.A.C. 27:26-26. Please note that to that final development easement consideration will be based upon N.J.A.C. 27:26-26.11 through 27:26-26.14, as applicable, along with the SADC's final approval for the purchase of a development easement or a cost sharing grant. Scoring template users acknowledge the potential for accuracy limitations in this product. If data is found to be incorrect prior to preservation, the final formula value is subject to change. Any questions or concerns about the scoring template or the data upon which it is based should be forwarded to SADC staff.

STATE AGRICULTURE DEVELOPMENT COMMITTEE

RESOLUTION #FY2026R4(17)

Preliminary Approval of SADC Easement Purchase on an "OTHER" FARM on the Property of

- SADC ID#: 17-0419-DE

APRIL 30, 2026

WHEREAS, on August 5, 2025, the SADC received a development easement sale application from [REDACTED], hereinafter "Owner," for the property identified as Block 4301, Lots 4, 5, 6, 7, 17, 26, 27, 28, 33, 34, 35, 36, 37, 38, and 39, Pennsville Township, Salem County, hereinafter "the Property," totaling approximately 625.19 gross acres, identified in (Schedule A); and

WHEREAS, the SADC is authorized under the Garden State Preservation Trust Act, N.J.S.A. 13:8C-1, et seq., to purchase development easements directly from landowners; and

WHEREAS, the Property includes three (3) non-severable exception areas and one (1) severable exception area resulting in approximately 594.84 net acres to be preserved:

- Exception C1: a 15-acre non-severable exception on Lot 26 for and limited to one (1) single family residential unit, existing club activities and flexibility of use.
- Exception C2: a 4.5-acre non-severable exception on Lot 26 for existing club activities and flexibility of use. The exception is limited to 0 single family residential units.
- Exception C3: a 7.85-acre non-severable exception on Lot 37 for existing club activities and flexibility of use. The exception is limited to 0 single family residential units.
- Exception C4: a 3-acre severable exception on Lot 26 for and limited to one (1) single family residential unit, and flexibility of use; and

WHEREAS, the portion of the Property outside the exception area(s) includes two (2) single family residential units, zero (0) Residual Dwelling Site Opportunities (RDSO), and zero (0) agricultural labor units; and

WHEREAS, an approximately 18-acre portion of the Property outside the exception areas includes pre-existing non-agricultural uses including:

- a building (approximately 2,800 square feet) and a run yard where they keep hunting dogs to be used on shoots with their guides; and
- six shooting events of varying lengths over the year where 500 to 600 people use an approximately 13-acre field for parking and camping. During these events temporary shooting stations are used throughout the farm in addition to the parking areas and shooting areas located in the exception areas, which will be identified in the Deed of Easement and on the survey as a pre-existing non-agricultural use; and

WHEREAS, at the time of application, the Property was in sorghum, wheat, permanent pasture, and waterfowl production; and

WHEREAS, the Owners' application has been evaluated in accordance with N.J.A.C. 2:76-6.16, SADC Policy P-14-E, Prioritization criteria, and the State Acquisition Selection Criteria approved by the SADC on August 26, 2024, which categorizes applications into "Priority", "Alternate" and "Other" groups; and

WHEREAS, the Property exceeds the minimum acreage criteria for the "Priority" category, which requires farm sizes of at least 93 acres, but the quality score of 34.64 does not meet the minimum quality score of 60 needed for a "Priority" farm and a quality score of 47 needed for a "Alternate" designation in Salem County, therefore, the Property is categorized as an "Other" farm (Schedule C), requiring SADC preliminary approval; and

WHEREAS, the Property meets the minimum eligibility criteria as set forth in N.J.A.C. 2:76-6.20 and, pursuant to N.J.A.C. 2:76-11.5(b), (c)1 and (c)2, there are no "priority" or "alternate" ranked applications that have not already been selected for processing at this time; and

WHEREAS, the property is not currently in the Salem County Agricultural Development Area (ADA), but the County agreed to amend its ADA to include it along with four other nearby Pennsville Township properties that have submitted applications for preservation; and

WHEREAS, final approval will be conditioned on Salem County adding the property to its ADA; and

NOW THEREFORE BE IT RESOLVED: The WHEREAS paragraphs set forth above are incorporated herein by reference.

1. The SADC approves selecting the Property for processing as an "Other" farm, pursuant to N.J.A.C. 2:76-11.5 (b), (c)2 and (c)3 because the farm:
 - a. is 611.42 acres, which is significantly larger than the average farm size and acreage criteria for a "Priority" farm in Salem County;
 - b. received 72.25% of the Agricultural Resource Factors and 57.8% of the Natural Resource Factors pursuant to the Statewide Formula;
 - c. has a higher risk of conversion pursuant to the Statewide Formula; and
 - d. is immediately adjacent to another preserved farm and is in a county with a significant investment in farmland preservation.
2. The SADC grants preliminary approval to the Property for an easement acquisition and authorizes staff to proceed with the following:
 - a. Enter into a 120-day option agreement with the Landowner;
 - b. Secure two independent appraisals to estimate the fair market value of the Property;
 - c. Review the two independent appraisals and recommend a certified fair market easement value of the property to the SADC
3. This approval is considered a final agency decision appealable to the Appellate Division of the Superior Court of New Jersey.
4. This action is not effective until the Governor's review period expires pursuant to N.J.S.A. 4:1C-4f.

WHEREAS, the Owners' application has been evaluated in accordance with N.J.A.C. 2:76-6.16, SADC Policy P-14-E, Prioritization criteria, and the State Acquisition Selection Criteria approved by the SADC on August 26, 2024, which categorizes applications into "Priority", "Alternate" and "Other" groups; and

WHEREAS, the Property, has a quality score of 35.52, which is lower than the minimum quality score of 47 needed for a "Priority or Alternate" farm designation in Salem County, and at approximately 16 acres, its size does not meet the minimum acreage criteria for the "Priority" or "Alternate" category, which requires farm sizes of at least 68 acres, therefore, the Property is categorized as an "Other" farm (Schedule B) requiring SADC preliminary approval; and

WHEREAS, the Property meets the minimum eligibility criteria as set forth in N.J.A.C. 2:76-6.20 and, pursuant to N.J.A.C. 2:76-11.5(b), (c)1 and (c)2, there are no "priority" or "alternate" ranked applications that have not already been selected for processing at this time; and

WHEREAS, the property is not currently in the Salem County Agricultural Development Area (ADA), but the County agreed to amend its ADA to include it along with four other nearby Pennsville Township properties that have submitted applications for preservation; and

WHEREAS, final approval will be conditioned on Salem County adding the property to its ADA; and

NOW THEREFORE BE IT RESOLVED:

1. The WHEREAS paragraphs set forth above are incorporated herein by reference.
2. The SADC approves selecting the Property for processing as an "Other" farm, pursuant to N.J.A.C. 2:76-11.5 (b), (c)2 and (c)3 because the farm:

- a. has approximately 63% Prime soils and 37% Statewide Important soils; and
 - b. received 31% of the Agricultural Resource Factors and 44.8% of the Natural Resource Factors pursuant to the Statewide Formula;
 - c. has a higher risk of conversion pursuant to the Statewide Formula; and
 - d. is within a mile of the Jendel Corporation (M&M Hunting) application for preservation, which would result in over 620 preserved acres.
3. The SADC grants preliminary approval to the Property for an easement acquisition and authorizes staff to proceed with the following:
 - a. Enter into a 120-day option agreement with the Landowner;
 - b. Secure two independent appraisals to estimate the fair market value of the Property;
 - c. Review the two independent appraisals and recommend a certified fair market easement value of the property to the SADC
4. This approval is considered a final agency decision appealable to the Appellate Division of the Superior Court of New Jersey.
5. This action is not effective until the Governor's review period expires pursuant to N.J.S.A. 4:1C-4f.
