77-9

Supp. 12-16-13
2:77-8.1 Applicability

This subchapter provides the standards established by the Board for independent professional appraisers or the Board to follow when conducting appraisals of land for the purpose of acquiring, or providing a loan guarantee for, development potential pursuant to the Burlington County Transfer of Development Rights Demonstration Act, N.J.S.A 40:55D-113 et seq., the State Transfer of Development Rights Bank Act, N.J.S.A. 4:1C-49 et seq., and the State Transfer of Development Rights Act, N.J.S.A. 40:55D-137 et seq.

Amended by R.2013 d.139, effective December 16, 2013.
See: 45 N.J.R. 495(a), 45 N.J.R. 2541(a).

2:77-8.2 Board-approved appraisers

(a) The Board shall adopt the list of appraisers approved by the State Agriculture Development Committee pursuant to N.J.A.C. 2:76-6.7(a)1 annually.

(b) The Board may remove an appraiser from the adopted list if an appraisal is not conducted in conformance with this subchapter.

Revised from N.J.A.C. 2:77-8.3 and amended by R.2013 d.139, effective December 16, 2013.
See: 45 N.J.R. 495(a), 45 N.J.R. 2541(a).
Section was “Board approved appraisers”. Former N.J.A.C. 2:77-8.2, Definitions, repealed.

2:77-8.3 Development potential valuation

(a) There are several methods of valuation available to appraisers to establish a value of development potential credits. Credits in the sending area may have a different value from credits in the receiving area. The methods in (a)1 through 8 below shall be considered by appraisers to determine the valuation of credits. Guidance concerning these methods may be found in the Uniform Standards of Professional Appraisal Practice (USPAP) promulgated by the Appraisal Standards Board of the Appraisal Foundation, http://www.apraisalfoundation.org/ and in the Board’s “Appraisal Guidelines for Determining Development Potential,” http://www.nj.gov/agriculture/sade/tdr/tdrbank/about/AppraisalGuidelines.pdf.

1. The Direct Comparison of sales of development potential credits method applies to both receiving and sending area properties;

2. The before and after valuation method takes into consideration a sending area property’s fee unencumbered value and its restricted value. Both unencumbered and restricted sales shall be considered;

3. Another sending area valuation method is to look at those properties of reasonably similar characteristics from which a development easement has been sold through the Farmland Preservation Program pursuant to N.J.A.C. 2:76;

4. The Subdivision Development Analysis via a Discounted Cash Flow Analysis is a method of value determination applicable first to the base property without the credits added, and then with them. The difference in the value indications is the value of the credits;

5. The Linear Regression Method and Allocation Methods can be utilized where the total new land costs proportion can be estimated to the finished products’ sale price;

6. The Subdivision Method;

7. The Income Capitalization Method; and

8. The Cost Method.

(b) The Board, in addition to the methods of valuation described in (a) above, may utilize the following methods for establishing development potential valuations.

1. Municipal averaging, which includes, but is not limited to, the following:
   i. Utilizing a simple weighted or unweighted average of market sales in the sending area;
   ii. Utilizing the market value of the development potential of all sending area properties divided by the total number of credits allocated in the sending area;
   iii. Utilizing the average values of development easements determined pursuant to the farmland preservation program;

2. Formula valuations, which include, but are not limited to, the following:
   i. Considering the relationship between the development potential value to total fee unencumbered value of the property in the sending area;
   ii. Utilizing the average ratio of all county development easement purchases to property fee values for a period of “x” years; and
   iii. Utilizing other similar methods that produce justified value conclusions.

Revised from N.J.A.C. 2:77-8.4 and amended by R.2013 d.139, effective December 16, 2013.

The final value shall be expressed in both dollars per acre, dollars per TDR credit, and total dollars. Each report will be examined and the Board shall return any report that is not valued or formatted consistent with this subchapter and shall request that any such report be modified consistent with this subchapter.
