2007 CLEAN ENERGY CONFERENCE & AWARDS FOCUSES ON PARTNERING FOR CLIMATE CHANGE SOLUTIONS

Keynote Speaker Ted Turner to Focus on Clean Energy Solutions for Businesses

(NEW BRUNSWICK, NJ) – The New Jersey Board of Public Utilities and its Office of Clean Energy will host the 2007 New Jersey Clean Energy Conference & Leadership Awards on September 27-28, 2007, at the New Brunswick Hyatt Regency Hotel. The third annual Clean Energy Conference **kicks off today** and is expected to bring more than 700 business leaders and municipal officials together to discuss the theme of *Partnering for Climate Change Solutions*.

Keynote Speaker Ted Turner, Chairman of Turner Enterprises, Inc., and investor in New Jersey based DT Solar, will discuss global climate change initiatives for businesses and the overall growth potential for New Jersey's solar market. Governor Jon S. Corzine's clean energy goals will be part of a special session on the New Jersey Energy Master Plan, an energy vision for the state that plans for our energy use through the year 2020. The third annual New Jersey Clean Energy Leadership Awards will also be presented.

About the New Jersey Board of Public Utilities (NJBP)

The New Jersey Board of Public Utilities is a state agency and regulatory authority mandated to ensure safe, adequate, and proper utility services at reasonable rates for New Jersey customers. Critical services regulated by the NJBP include natural gas, electricity, water, wastewater, telecommunications and cable television. The Board has general oversight responsibility for monitoring utility service, responding to consumer complaints, and investigating utility accidents. To find out more about the NJBP, visit our web site at www.bpu.state.nj.us

About the New Jersey Clean Energy Program

New Jersey's Clean Energy Program, established on January 22, 2003 in accordance with the Electric Discount and Energy Competition Act (EDECA), provides financial and other incentives to the State's residential customers, businesses and schools that install high-efficiency or renewable energy technologies, thereby reducing energy usage, lowering customers' energy bills and reducing environmental impacts. The program is authorized and overseen by the New Jersey Board of Public Utilities (BP), and its website is www.njcleanenergy.com.
