NOTE: Some utility companies count the same overdue account in the 30 day, 60 day and 90 day + columns where applicable, therefore number of accounts should not be totaled statewide.

NOTE: Only arrearages > than 30 days was requested. Some utilities provided breakdown of dollars by 30, 60, 90 days overdue and some only provided 30+ overall. See individual utility tabs for breakdowns.

NOTE: Several utilities stated that the estimated number of disconnections is a fraction of the number of disconnection notices issued; therefore the numbers above do not indicate the number of disconnections that would occur if the moratorium were lifted.
