Re: **In the Matter of the Verified Petition of Jersey Central Power & Light Company Concerning a Proposal for an Economic Stimulus Infrastructure Investment Program and Associated Cost Recovery Mechanism**  
**BPU Docket No.**

Dear Secretary Izzo:

On behalf of the Petitioner, Jersey Central Power & Light Company ("JCP&L"), enclosed herewith for filing with the Board of Public Utilities are the original and 11 copies of JCP&L's Verified Petition and supporting Attachments in the above-captioned matter relating to a proposed economic stimulus infrastructure investment program.

The Verified Petition, which is being filed in furtherance of Governor Corzine's statewide economic stimulus initiatives, proposes the implementation by JCP&L during 2009-2010 of approximately \$51 million in infrastructure projects, consisting of approximately \$40 million for accelerated projects that had been scheduled for implementation after 2009 that are designed to further increase the reliability of JCP&L's transmission and distribution system and approximately \$11 million for projects that will improve the energy efficiency of its distribution

Kristi Izzo, Secretary

system. The Verified Petition also proposes a cost recovery mechanism that will enable JCP&L to carry out this program.

I hereby confirm that three copies each of this letter and of the enclosed Verified Petition are this day being duly served by hand delivery upon the Director, Division of Rate Counsel, and upon the Department of Law & Public Safety, Division of Law, as set forth in ¶16 of the Verified Petition.

Kindly stamp the enclosed additional copy of this filing letter with the date and time of receipt by your office and with the docket number assigned thereto, and return to the undersigned in the self-addressed postage paid return envelope provided.

Your anticipated courtesies and cooperation are deeply appreciated.

Very truly yours,

  
Marc B. Lasky

BOARD OF PUBLIC UTILITIES**

---

In the Matter of the Verified Petition of **Jersey  
Central Power & Light Company** Concerning  
a Proposal for an Economic Stimulus  
Infrastructure Investment Program and  
Associated Cost Recovery Mechanism

---

: BPU Docket No. \_\_\_\_\_

**VERIFIED PETITION**

**TO THE HONORABLE BOARD OF PUBLIC UTILITIES:**

Petitioner, Jersey Central Power & Light Company (the "Petitioner", the "Company" or "JCP&L"), an electric public utility company of the State of New Jersey subject to the regulatory jurisdiction of the Board of Public Utilities (the "Board"), and maintaining offices at 300 Madison Avenue, Morristown, New Jersey 07962-1911, in support of its above-captioned Verified Petition, respectfully shows:

1. JCP&L is a New Jersey electric public utility primarily engaged in the purchase, transmission, distribution and sale of electric energy and related utility services to more than 1,000,000 residential, commercial and industrial customers located within 13 counties and 236 municipalities of the State of New Jersey.
2. Copies of all correspondence and other communications relating to this proceeding should be addressed to:

**Marc B. Lasky, Esq.  
Michael J. Connolly, Esq.  
Morgan, Lewis & Bockius LLP  
89 Headquarters Plaza North  
Suite 1435  
Morristown, New Jersey 07960**

- and -

**Michael J. Filippone  
Lawrence E. Sweeney  
Jersey Central Power & Light Company  
300 Madison Avenue  
Morristown, New Jersey 07962-1911**

- and -

**Stephen L. Feld, Esq.  
FirstEnergy Corp.  
76 South Main Street  
Akron, Ohio 44308**

**Background**

3. Pursuant to the terms of a Memorandum of Understanding dated March 24, 2004 and a Stipulation of Settlement dated June 8, 2004 in Docket Nos. EX02120950 and EX03070503 (collectively, the "MOU" and "SOS"), JCP&L agreed to complete an Accelerated Reliability Improvement Program ("ARIP") that it had initiated in early 2003. JCP&L expended approximately \$108 million (\$59 million in capital and \$49 million in operations and maintenance ("O&M")) in connection with the ARIP and Barrier Peninsula upgrades, which was completed in 2005. In addition, pursuant to the MOU and SOS, from 2004 through 2008 the Company completed many other reliability-related projects that it would otherwise have pursued in subsequent years, representing total additional accelerated expenditures of approximately \$111 million (\$110 million in capital and \$1 million in O&M). As the foregoing demonstrates, the aggregate amount spent by the Company over the last six years on accelerated infrastructure upgrades and improvements has been approximately \$219 million.

4. In the fall of 2008, Governor Corzine proposed a number of economic stimulus initiatives for the State of New Jersey, including programs that would see the State's utilities spending approximately \$500 million in the aggregate on infrastructure, energy

efficiency (including demand response) and similar programs during 2009 to help revive the State's economy and foster job growth. To this end, in his October 16, 2008 address to the Legislature, the Governor directed the Commissioners of several State agencies, including the Board, to authorize certain capital spending projects. In furtherance of this initiative, JCP&L (and the State's other utilities) were asked to propose accelerated infrastructure projects to improve reliability and to enhance the energy efficiency of the utilities' energy delivery systems, which encompasses the transmission and distribution systems of electric distribution companies such as JCP&L. This Verified Petition is being made in response to that request.

### **Proposed Programs**

5. In this Verified Petition, JCP&L is proposing to commence implementation during 2009 of approximately \$51 million in additional accelerated infrastructure improvement projects, consisting of approximately \$40 million for accelerated projects that had been scheduled for implementation after 2010 that are designed to further enhance the reliability of its distribution and sub-transmission system, and approximately \$11 million for projects that will improve the energy efficiency of its distribution system.

6. The accelerated reliability-related infrastructure projects, which are described on Attachment 1 hereto, are generally designed to continue the circuit reliability improvements already exhibited in JCP&L's operational performance, enhance operational flexibility, improve system protection schemes, increase system automation and upgrade existing infrastructure. It is estimated that these projects will support a total of about 75 jobs while project work continues, which work is expected to extend from 2009 until mid 2010.

7. The energy efficiency-related infrastructure projects, which are described on Attachment 2 hereto, are generally designed to install low loss transformers and high

efficiency street lights, upgrade meters to validate loss improvement assumptions and establish pilot programs to test the efficacy of more effective capacitor/regulator control technology and to test advanced metering infrastructure so as to validate customer participation in energy efficiency and peak reduction programs. It is estimated that these projects will support a total of about 18 jobs while project work continues, which work is expected to extend from 2009 until mid 2010. Attachment 2 also contains estimates of energy savings from these projects.

8. While the Company currently intends to implement the particular projects listed on Attachments 1 and 2, JCP&L requires the flexibility to carry out this program in an appropriate, reasonable and cost-effective manner and, therefore, requests the authority to remove particular projects or add or substitute other projects of the same or similar type, as experience and developments warrant.

9. The Board must recognize that JCP&L's ability to implement all of these projects and expend the funds indicated above during 2009-2010 is dependent on, among other things, the timing of Board action on this Verified Petition, permitting and the availability of requisite materials and contractors.

10. The Company believes that implementation of its proposed infrastructure investment program is in the public interest, not only because it will further Governor Corzine's economic stimulus initiatives and help create jobs in these difficult economic times, but also because it entails the accelerated implementation of valuable, cost-effective reliability improvement projects that JCP&L would have undertaken in any event at a later date, projects that have been shown over time to create real benefits for customers.

### Cost Recovery and Accounting

11. In order to carry out these projects as proposed herein, JCP&L is requesting full and timely recovery of all associated expenditures (whether deemed capital or O&M), including a full return on its unrecovered expenditures. Consequently, JCP&L proposes to recover its expenditures (capital and O&M), with a full return, through a Rider that is a subcomponent of the RGGI Recovery Charge clause mandated by the Board in its Order dated December 10, 2008 in Docket No. EO08050326 (or any similar Rider or clause directed by the Board), on a current basis as the costs are incurred, in a manner similar to the pre-restructuring Levelized Energy Adjustment Clauses. The recovery mechanism would be structured to recover all expenditures (capital and O&M) over a 12-month period, commencing on the date of issuance of a Board Order in this Docket, based on projected expenditures over the next 12 months, with a true-up at the end of the 12-month period to ensure that the Company recovers all of its actual costs, with a full return, but no more. The true-up will reflect actual expenditures during the 12-month period and projections for additional expenditures, if any, over the ensuing 12 months. Any over-recoveries in the Rider or clause can be addressed by applying them to under-recoveries in other clauses and any under-recoveries can be addressed by the application of over-recoveries from other clauses.

As a result, the Company will recover the expenditures under this program (capital and O&M), with a full return, over the 12-month period commencing immediately upon issuance of a Board Order approving this Verified Petition, which is the period during which they are expected to be expended, subject to true-up. JCP&L will receive carrying costs on any unrecovered expenditures at a rate equal to its weighted average cost of capital ("WACC"), including income tax effects, as determined in its last base rate case (11.61%). The applicable

Rider or clause will be subject to deferred accounting, with interest at the same rate on over- and under-recoveries based on a 12-month amortization.

12. The revenue requirement for this infrastructure investment program, based on the currently anticipated spending schedule, is approximately \$52 million over a 12-month period, representing a corresponding approximately \$52 million increase in rates, or about 1.4%, for a 12-month period. Further details concerning the revenue requirement and customer rate impacts are set forth in Attachments 3 and 4 hereto.

### **Miscellaneous**

13. In light of the expedited nature of this proceeding, to the extent that certain information that might otherwise be required in connection with this filing has been omitted, the Company respectfully requests a waiver of any such informational or filing requirements. JCP&L also requests that the Board retain this filing and not transmit it to the Office of Administrative Law.

### **Attachments**

14. Attached hereto and made a part of this Verified Petition are the following Attachments:

- Attachment 1 - Accelerated reliability-related infrastructure projects
- Attachment 2 - Energy efficiency-related infrastructure projects
- Attachment 3 - Revenue requirement calculation
- Attachment 4 - Customer rate impacts

### **Public Notice and Service**

15. Notice of this filing, including a statement of the overall effect thereof on customers of the Company, which will be combined with notice of the dates, times and places of the public hearings to be scheduled thereon, will be served by mail upon the municipal clerks,

the clerks of the Boards of Chosen Freeholders and, where appropriate, the County Executive Officers of all counties and municipalities located in the Company's service territory, in accordance with the regulations of the Board as set forth in N.J.A.C. 14:1-5.12(b)1. Such notice will be duly mailed following the scheduling of the dates, times and places of the hearings thereon, as discussed below. Listings of the aforementioned public officials are contained in Appendices A-1, A-2 and A-3, which are annexed hereto. Such notice will be substantially in the form of the notice annexed hereto as Appendix B.

16. Public notice of this filing, including a statement of the overall effect thereof on customers of the Company, and which will be combined with notice of the dates, times and places of the public hearings to be scheduled thereon, substantially in the form of the notice set forth in Appendix B annexed hereto, will also be published in daily and weekly newspapers published and/or circulated in the Company's service areas, after the dates, times and places of all such public hearings thereon have been scheduled by the Board in compliance with N.J.A.C. 14:1-5.12(b)3, (c) and (d).

### CONCLUSION

**WHEREFORE**, the Petitioner, Jersey Central Power & Light Company, respectfully requests that the Board issue a final decision and order:

- (1) approving the reasonableness and prudence of the economic stimulus infrastructure investment program proposed by the Petitioner and authorizing its implementation as proposed above;
- (2) authorizing the recovery by the Petitioner over a 12-month period, with deferral accounting, of all of the costs (capital and O&M) of the proposed infrastructure investment program, including carrying costs on any unrecovered expenditures at a rate equal to JCP&L's WACC, including income tax effects, as determined in its last rate case (11.61%), through a Rider that is a subcomponent of the RGGI Recovery Charge clause (or any similar Rider or

clause directed by the Board), with the accrual of interest on over- and under-recoveries at the same rate, all as described above;

- (3) the implementation of the requisite Rider or clause; and
- (4) granting such other and further relief as the Board shall deem just, lawful and proper.

Respectfully submitted,

Dated: January 30, 2009

**AFFIDAVIT**  
**OF**  
**VERIFICATION**

**Michael J. Filippone**, being duly sworn upon his oath, deposes and says:

1. I am Director of Rates and Regulatory Affairs – New Jersey for Jersey Central Power & Light Company (“JCP&L”), the Petitioner named in the foregoing Verified Petition, and I am duly authorized to make this Affidavit of Verification on its behalf.

2. I have read the contents of the foregoing Verified Petition by JCP&L with respect to a proposal for an infrastructure investment program, and I hereby verify that the statements of fact and other information contained therein are true and correct to the best of my knowledge, information and belief.

  
**Michael J. Filippone**

Sworn to and subscribed before me  
this 30 day of January, 2009.

# Attachment 1

## Accelerated Reliability-Related Infrastructure Projects

### 1. Asset Strategy Reliability Improvement Projects

**Project:** Circuit Reliability Projects Driven by Asset Management Inspections

**Estimated Cost:** \$2 Million

**Description:** Accelerate Construction of Reliability Enhancing Projects identified by JCP&L's Asset Management Circuit Reliability Coordinators. These are primarily targeted at the distribution infrastructure. Examples would be labor intensive work such as cross-arm and insulator replacements.

**Estimated Start Date:** Mid 2009

**Estimated Completion Date:** Mid 2010

### 2. Improve System Operational Flexibility

**Project:** Improve Substation Capabilities

**Estimated Cost:** \$12.5 Million

**Description:** This project includes adding substation capacity or line sectionalizing breaker schemes at multiple locations to add flexibility in how loads are served. This flexibility is most valuable when providing service to customers under contingency situations. Sites providing the most cost effective flexibility including equipment availability, permitting and other siting criteria will be targeted.

**Estimated Start Date:** Late 2009 (Engineering Mid 2009)

**Estimated Completion Date:** Mid 2010

**Project:** Improve Sub-Transmission and Distribution Line Capabilities

**Estimated Cost:** \$6.6 Million

**Description:** This project includes line extensions, reconductoring and spacer cable upgrades at multiple locations to add flexibility in how loads are served. This flexibility is most valuable when providing service to customers under contingency situations. Sites providing the most cost effective flexibility including permitting and other siting criteria will be targeted.

**Estimated Start Date:** Mid 2009

**Estimated Completion Date:** Mid 2010

**Project:** Increase System Reactive Support

**Estimated Cost:** \$2 Million

**Description:** This project includes adding Distribution Capacitors to enhance the System's capabilities to respond to reactive requirements.

**Estimated Start Date:** Mid 2009

**Estimated Completion Date:** Mid 2010

### 3. Improve System Protection Schemes

**Project:** Improve System Protection Schemes

**Estimated Cost:** \$2.3 Million

**Description:** This project includes adding circuit switchers to provide enhanced transformer protection and other protection equipment in substations. These upgrades will lessen the possibility of equipment damage and help reduce outage scope and durations.

**Estimated Start Date:** Late 2009 (Engineering Mid 2009)

**Estimated Completion Date:** Mid 2010

### 4. Increase System Automation

**Project:** Add Distribution Reclosers

**Estimated Cost:** \$7 Million

**Description:** This project includes adding distribution line reclosers, including some tie recloser schemes, in order to clear momentary faults and restore service to as many customers as possible without experiencing a sustained outage.

**Estimated Start Date:** Mid 2009

**Estimated Completion Date:** Mid 2010

**Project:** 34.5 kV Automation

**Estimated Cost:** \$0.7 Million

**Description:** This project includes adding relaying auto transfer schemes to identified 34.5 kV locations

**Estimated Start Date:** Late 2009 (Engineering Mid 2009)

**Estimated Completion Date:** Mid 2010

### 5. Upgrade Existing Infrastructure

**Project:** Underground Cable and Infrastructure Replacement

**Estimated Cost:** \$5.4 Million

**Description:** This project includes replacing existing buried underground Cable installations. Identified sites will replace less reliable cable and reduce faults. Additional sectionalizing capabilities will be installed where justified. Pad mount transformers will be replaced as needed.

**Estimated Start Date:** Mid 2009

**Estimated Completion Date:** Mid 2010

**Project:** Upgrade Substation Equipment

**Estimated Cost:** \$1.5 Million

**Description:** This project includes replacing existing substation breakers and switches. This will utilize state of the art technology.

**Estimated Start Date:** Late 2009 (Engineering Mid 2009)

**Estimated Completion Date:** Mid 2010

## **Attachment 2**

### **Energy Efficiency Infrastructure Improvements**

**Project: Distribution Transformer Replacement Pilot**

**Estimated Cost:** \$4.0 Million

**Description:** Program replacement of standard distribution transformers with low loss transformer technology. Energy Efficiency gains are primarily achieved through no-load-loss improvements in the transformers.

**Estimated Energy Savings:** 505,500 kWh annually

**Estimated Start Date:** Mid 2009

**Estimated Completion Date:** Mid 2010

**Project: Street Light Replacement Pilot**

**Estimated Cost:** \$2.0 Million

**Description:** This pilot is a targeted replacement of existing mercury vapor and high pressure sodium utility street lights with new technology street lights. Primary energy efficiency savings is achieved through lower power consumption to produce similar light intensities.

**Estimated Energy Savings:** 325,100 kWh annually

**Estimated Start Date:** Mid 2009

**Estimated Completion Date:** Mid 2010

**Project: Distribution VAR Control Pilot**

**Estimated Cost:** \$3.4 Million

**Description:** This project introduces new technology at distribution substation and line capacitor locations for control and monitoring of VAR compensation. Primary energy efficiency savings is achieved through line loss improvements and substation transformer loss improvements.

**Estimated Energy Savings:** 4,786,000 kWh annually

**Estimated Start Date:** Mid 2009

**Estimated Completion Date:** Mid 2010

**Project: Advanced Metering Infrastructure Pilot**

**Estimated Cost:** \$1 Million

**Description:** This project introduces new technology advanced metering infrastructure to investigate customer participation in energy efficiency programs.

**Estimated Start Date:** Mid 2009

**Estimated Completion Date:** Mid 2010

**Project: Loss Measurement Pilot**

**Estimated Cost:** \$0.6 Million

**Description:** This project introduces increased accuracy measurement at targeted locations to validate loss modeling for distribution infrastructure energy efficiency improvements within distribution planning tools.

**Estimated Start Date:** Late 2009 (Engineering Mid 2009)

**Estimated Completion Date:** Mid 2010

**PUBLIC NOTICE**  
**JERSEY CENTRAL POWER & LIGHT COMPANY**

**NOTICE OF PROPOSED RATE INCREASE IN CONNECTION WITH  
PROPOSED ECONOMIC STIMULUS INFRASTRUCTURE  
INVESTMENT PROGRAM  
AND  
NOTICE OF PUBLIC HEARINGS THEREON**

**TO OUR CUSTOMERS:**

On January \_\_, 2009, Jersey Central Power & Light Company (“JCP&L” or the “Company”) filed a Verified Petition with the New Jersey Board of Public Utilities (the “Board”) Board, under BPU Docket No. \_\_\_\_\_, together with supporting attachments.

Consistent with Governor Corzine’s economic stimulus initiatives, this Verified Petition seeks the Board's approval of a proposed new infrastructure investment program pursuant to which JCP&L would invest an aggregate of approximately \$51 million in accelerated reliability improvement projects and in projects designed to improve the energy efficiency of its distribution system. The costs of this program will be funded through customer rates, resulting in an overall increase in JCP&L's Tariff rates and charges for electric service of approximately \$51 million for a 12-month period, to be recovered through a Tariff Rider to become effective for service rendered on and after the date of Board approval of this Verified Petition, or at such other date as the Board may determine.

The annual percentage increase, if any, applicable to specific customers will vary according to the applicable rate schedule and the level of the customer's usage. Copies of the Verified Petition, together with supporting attachments, are available for inspection at the Company's regional headquarters at 300 Madison Avenue, Morristown, New Jersey 07962 and 331 Newman Springs Road, Building 3, Red Bank, New Jersey 07701, at each of the Company's local business offices, and at the Board of Public Utilities, Two Gateway Center, Newark, New Jersey 07102.

The following comparisons of present and proposed rates will permit customers to determine the approximate net effect upon them of the proposed increase in rates relating to this program. Any assistance required by customers in this regard will be furnished by the Company upon request. Please note that the Board in its discretion may apply all or any portion of whatever rate increase the Board may ultimately allow to other rate schedules or in a different manner than what JCP&L has proposed in its filing. Accordingly, the final rates and charges to be determined by the Board in these proceedings may be different from what JCP&L has described herein.

STATEMENT OF THE MONTHLY NET EFFECT OF PROPOSED  
RATE INCREASE AS COMPARED TO THE  
RATES IN EFFECT AS OF JANUARY 1, 2009

	<u>Typical Residential Average Monthly Bill</u> (Includes 7% Sales and Use Tax)		
	<u>Current</u> Monthly Bill	<u>Proposed</u> Monthly Bill	<u>Proposed</u> Monthly Increase
<u>Residential Service (RS)</u>			
500 kWh average monthly usage	\$	\$	\$
1000 kWh average monthly usage	\$	\$	\$
1500 kWh average monthly usage	\$	\$	\$
<u>Residential Time-of-Day Service (RT)</u>			
500 kWh average monthly usage	\$	\$	\$
1000 kWh average monthly usage	\$	\$	\$
1500 kWh average monthly usage	\$	\$	\$
	<u>Overall Monthly Class Average Per Customer</u> (Includes 7% Sales and Use Tax)		
	<u>Current</u> Monthly Bill	<u>Proposed</u> Monthly Bill	<u>Proposed</u> % Increase
<u>Rate Class</u>			
Residential Service (RS)	\$	\$	0. __%
Residential Time-of-Day Service (RT)	\$	\$	0. __%
General Service - Secondary (GS)	\$	\$	0. __%
General Service - Secondary Time-of-Day (GST)	\$	\$	0. __%
General Service - Primary (GP)	\$	\$	0. __%
General Service - Transmission (GT)	\$	\$	0. __%
Street & Area Lighting (Average per Fixture)	\$	\$	0. __%

Notice of this filing together with a statement of the effect thereof on customers are being served upon the clerk, executive or administrator of each municipality and county within the Company's service areas. Such notice has also been served, together with the supporting attachments, upon the Director of the Division of Rate Counsel of the Department of the Public Advocate, who will represent the interests of ratepayers in these proceedings.

PLEASE TAKE NOTICE that the Board has scheduled public hearings on the Verified Petition under BPU Docket No. \_\_\_\_\_, at the following times and places:

\_\_\_\_\_, 2009  
4:00 P.M.  
Morris County Administration & Records Building  
Public Meeting Room, 5<sup>th</sup> Floor  
2123 Court Street  
Morristown, New Jersey

\_\_\_\_\_, 2009  
5:30 P.M.  
Morris County Administration & Records Building  
Public Meeting Room, 5<sup>th</sup> Floor  
2123 Court Street  
Morristown, New Jersey

Members of the public will have an opportunity to be heard and/or to submit written comments or statements at each or any of the public hearings if they wish to do so. Such written comments or statements may also be submitted directly to the Board of Public Utilities at Two Gateway Center, Newark, New Jersey 07102, Attn: Kristi Izzo.
