IN THE MATTER OF THE PETITION OF COMCAST OF	)
GLOUCESTER COUNTY, LLC FOR A RENEWAL	RENEWAL
CERTIFICATE OF APPROVAL TO CONTINUE TO	CERTIFICATE OF APPROVAL
CONSTRUCT, OPERATE AND MAINTAIN A CABLE	)
TELEVISION SYSTEM IN AND FOR THE BOROUGH OF	
WENONAH, COUNTY OF GLOUCESTER, STATE OF	
NEW JERSEY	DOCKET NO. CE09110901

Stryker, Tams and Dill, Newark, New Jersey, by Dennis Linken, Esq., for the Petitioner

Borough Clerk, Borough of Wenonah, New Jersey, by Karen Sweeney, for the Borough

### BY THE BOARD:

On January 9, 1980, the Board granted Gloucester County CATV Associates a Certificate of Approval in Docket No. 7910C-6566 for the construction, operation and maintenance of a cable television system in the Borough of Wenonah ("Borough"). Through a series of transfers, with the requisite Board approvals, Storer Communications of Gloucester County, Inc. d/b/a Storer Cable Communications ("Storer") became the holder of the Certificate of Approval and on September 24, 1990, the Board issued a Renewal Certificate of Approval to Storer in Docket No. CE89090804. Through an internal reorganization, Comcast Cablevision of Gloucester County, Inc. ("Comcast") became the holder of the Certificate of Approval and on September 15, 2000, the Board issued a Renewal Certificate of Approval to Comcast in Docket No. CE00050315. The current holder of the Certificate is Comcast of Gloucester County, LLC ("Petitioner"). Although the Petitioner's above referenced Certificate expired on January 9, 2010, Petitioner is authorized to continue to provide cable television service to the Borough pursuant to N.J.S.A. 48:5A-25, pending disposition of proceedings regarding the renewal of its Certificate of Approval.

The Petitioner filed an application for the renewal of its municipal consent with the Borough on April 7, 2009, pursuant to N.J.S.A. 48:5A-23 and N.J.A.C. 14:18-13.1 et seq. The Borough, after public hearing, adopted an ordinance granting renewal municipal consent to the Petitioner on September 24, 2009. The Petitioner formally accepted the terms and conditions of the ordinance on September 28, 2009.

On November 5, 2009, pursuant to N.J.S.A. 48:5A-16, the Petitioner filed with the Board for a renewal of its Certificate for the Borough. The Board has reviewed the application for municipal

consent, the petition for a Renewal Certificate of Approval, and the municipal consent ordinance. Based upon this review and the recommendation of the Office of Cable Television, the Board HEREBY FINDS the following:

The Petitioner possesses the requisite legal, character, financial and technical qualifications for the awarding of a Certificate of Approval. Further, these qualifications were previously reviewed by the Borough in conjunction with the municipal consent process.

- 2. The design and technical specifications of the system shall ensure that the Petitioner provides safe, adequate and proper service.
- 3 The Petitioner has represented that all previously required construction within the franchise territory is complete.
- 4. The franchise period as stated in the ordinance is ten years with an automatic renewal provision for a term of ten years thereafter in conformance with N.J.S.A. 48:5A-19 and -25. The Board finds these periods to be of reasonable duration.
- 5. The Petitioner shall provide service to any residence or business along any public right-of-way in the Primary Service Area at no cost beyond standard and non-standard installation charges as set forth in the Petitioner's application. The Petitioner shall utilize the line extension policy ("LEP") attached to the Certificate (Appendix "I") for any extension outside of the Primary Service Area. The minimum homes per mile ("HPM") figure is 35.
- 6 The Petitioner's rates shall be regulated and tariffs shall be filed for all services, in accordance with the rules and regulations of the Federal Communications Commission, the Board and the Office of Cable Television. The Petitioner shall maintain informational schedules of prices, terms and conditions for unregulated service, and promptly file any revisions thereto.
- 7. Pursuant to statutory requirements, the ordinance specifies a complaint officer to receive and act upon complaints filed by subscribers in the Borough. In this case, it is the Office of Cable Television. All complaints shall be received and processed in accordance with any applicable rules.
- 8. The Petitioner shall maintain a local business office or agent for the purpose of receiving, investigating and resolving complaints. The Petitioner currently maintains a local office located at 304 South Broad Street in Woodbury, New Jersey.
- 9. The franchise fee to be paid to the Borough is specified to be 2% of the Petitioner's gross revenues from all recurring charges in the nature of subscription fees paid by subscribers for its cable television reception service in the Borough or any additional amount thereafter required by N.J.S.A. 48:5A-30. Additional regulatory fees shall be paid to the State in an amount not to exceed 2% of Petitioner's gross operating revenues derived from intrastate operations. The Board finds these fees to be reasonable.
- 10. The Petitioner shall provide public, educational, and governmental ("PEG") access services, equipment and facilities as required by the ordinance. Specifically, the

Petitioner shall continue to provide one channel to be used for educational and governmental ("EG") access that is shared by the Borough and the other municipalities served by the Petitioner. The governing bodies of the municipalities referenced above or their designated educational institutions shall be responsible for providing programming and for developing, implementing and enforcing rules for the EG access channel, as stipulated in the ordinance. The EG channel is currently operated by the Gloucester County Institute of Technology.

- 11. Within 12 months of receipt of this Certificate, the Petitioner shall provide the Borough with a one-time technology grant of \$5,000.00 for the cable and technology related needs of the Borough. Upon payment, the Petitioner shall submit proof of satisfaction of this provision to the Office of Cable Television.
- 12. The Petitioner shall provide Total Preferred cable television service, on one outlet, free of charge, to each school in the Borough, public and private, elementary, intermediate and secondary. In order to qualify for free installation, the school must be located within 175 feet of active cable distribution plant. Each additional outlet installed, if any, shall be paid for on a materials plus labor basis by the school requesting service. The Petitioner shall waive monthly service charges for any such additional outlets.
- 13. The Petitioner shall provide Total Preferred cable television service, on one outlet, free of charge, to the Borough's municipal building, each police, fire, emergency management facility and public library in the Borough. To qualify for free installation, the facility must be located within 175 feet of active cable distribution plant. The Borough shall pay for each additional outlet installed to any of the above facilities on a materials plus labor basis; however, the Petitioner shall waive monthly service charges for any such additional outlets.
- 14. The Petitioner shall continue to provide free basic Internet service via high-speed cable modem on one non-networked personal computer to the following locations in the Borough: Wenonah School at 1 N. Clinton Avenue and the Wenonah Public Library at 101 E. Mantua Avenue. The Internet service shall be installed on a personal computer that is accessible to the students and library patrons, and shall not be used for administrative purposes only.

Based upon these findings, the Board <u>HEREBY CONCLUDES</u> that, pursuant to <u>N.J.S.A.</u> 48:5A-17(a) and 28(c), the Petitioner has the municipal consent necessary to support the petition, that such consent and issuance thereof are in conformity with the requirements of <u>N.J.S.A.</u> 48:5A-1 <u>et seq.</u>, that the Petitioner has complied or is ready to comply with all applicable rules and regulations imposed by or pursuant to State and federal law as preconditions for engaging in the proposed cable television operations, that the Petitioner has sufficient financial and technical capacity, meets the legal, character and other qualifications necessary to construct, maintain and operate the necessary installations, lines and equipment, and is capable of providing the proposed service in a safe, adequate and proper manner.

Therefore, the Petitioner is <u>HEREBY ISSUED</u> this Renewal Certificate of Approval as evidence of Petitioner's authority to construct and operate a cable television system within the entirety of the Borough.

This Certificate is subject to all applicable State and federal laws, the rules and regulations of the Office of Cable Television, and any such lawful terms, conditions and limitations as currently exist or may hereafter be attached to the exercise of the privileges granted herein. The Petitioner shall adhere to the operating standards set forth by the Federal Communications Commission's rules and regulations, 47 C.F.R. §76.1 et seq. including but not limited to, the technical standards 47 C.F.R. §76.601 through §76.630. Any modifications to the provisions thereof shall be incorporated into this Certificate.

Failure to comply with all applicable laws, rules, regulations and orders of the Board or the Office of Cable Television and/or the terms, conditions and limitations set forth herein may constitute sufficient grounds for the suspension or revocation of this Certificate.

This Renewal Certificate is issued on the representation that the statements contained in the Petitioner's applications are true, and the undertakings therein contained shall be adhered to and be enforceable unless specific waiver is granted by the Office of Cable Television pursuant to the authority contained in N.J.S.A. 48:5A-1 et seg.

This Certificate shall expire on January 9, 2020.

## APPENDIX "I" Office of Cable Television Line Extension Policy

Company Comcast of Gloucester County, LLC Municipality Borough of Wenonah

A cable operator is required to absorb the cost of extensions to the system in the same proportion that the extension is to the remainder of the system.

Actual subscribers served by the extension are required to absorb the remainder of the cost.

If new subscribers are added to the extension the cost is adjusted and those who previously paid receive an appropriate rebate.

1	# of homes in extension mileage of extension	=	homes per mile (HPM) of extension
2.	HPM of extension Minimum HPM that company actually constructs in the system *	=	ratio of the density of the extension to the minimum density which the company constructs in the system ("A")
3.	Total cost of building the extension times "A"	=	company's share of extension cost
4.	Total cost of building extension less company's share of extension cost	=	total amount to be recovered from subscribers
5.	Total amount to be recovered from subs Total subscribers in extension	=	each subscriber's share

In any case, the company shall extend its plant along public rights of way to:

- 1 All residences and businesses within 150 aerial feet of the operator's existing plant at no cost beyond the normal installation rate.
- 2. All residences and businesses within 100 underground feet of the operator's plant at no cost beyond the normal installation rate.

<sup>\*</sup> The minimum HPM that the company actually constructs in the system or municipality is the minimum number of homes which the company has historically constructed at its own cost. This is a function of the operator's break even point and its rate of return. Unbuilt systems will use the primary service area rather than construction.

The operator's installation policies shall apply to construction beyond the public right of way.

Detailed accounting and/or financial information to support the minimum HPM shall be supplied to the Office for its approval in such form as required. The minimum HPM shall be updated as appropriate.

When a request for service is received, and unless good cause is shown, cable companies shall:

- 1 Provide a written estimate within 30 days of such a request.
- 2. Begin construction within 60 days of receipt of any deposit monies from potential subscribers.
- 3 Complete construction within six months of receipt of any deposit monies from potential subscribers.
- 4. Inform each home passed along the extension of the potential costs for subscribers.

Subscribers who pay for an extension shall be entitled to rebates in the following manner:

- If the company acquires new subscribers subsequent to the initial calculation of step 5 above, the formula will be adjusted and those who have previously paid for the extension will be entitled to an appropriate rebate. In no event shall the amount of the rebate exceed the subscriber's contribution.
- 2. The company shall keep accurate records of the cost of the extension, the amounts paid by subscribers and any appropriate adjustments.
- 3. The company shall notify subscribers in the extension of their rights and responsibilities concerning the extension.
- 4. Once an individual dwelling has paid its share of the extension cost future reconnections or installations shall be made at the company's standard rates.
- 5. After a period of five years from the installation of the first dwelling unit in the extension no further adjustments shall be made. Installations after five years shall be at the company's standard rate.
- 6. Once a subscriber is installed, that person shall not normally be entitled to a refund of any monies paid for the installations, except in accordance with the rebate procedure outlined in this policy.

#### **Definitions**

## Primary Service Area

The Primary Service Area (PSA) can be an entire municipality but in many instances, the PSA is a limited area within a community outside of which a line extension policy may apply. The PSA is depicted by a franchise map and narrative, presented and recorded during the franchise proceedings. It normally remains a fixed geographic area throughout the life of the franchise.

## Line Extension Survey

Potential subscribers residing outside the PSA who request service are entitled to an estimate of their share of the cost to secure service. When conducting a survey and estimating costs, a cable company should factor-in all potential subscribers who could practicably be included in the extension and give consideration to apparent residential construction in areas contiguous to the proposed extension.
