RENEWAL CERTIFICATE OF
APPROVAL

DOCKET NO. CE10100750

Stryker, Tams and Dill, Newark, New Jersey, by Dennis Linken, Esq., for the Petitioner

Borough Clerk, Borough of Helmetta, New Jersey, by Sandra Bohinski, for the Borough

BY THE BOARD:

On May 2, 1980, the Board of Public Utilities ("Board") granted Nassau Cable Television, Inc. d/b/a Princeton Cablevision a Certificate of Approval in Docket No. 7912C-6616 for the construction, operation and maintenance of a cable television system in the Borough of Helmetta ("Borough"). Due to a series of Board approved transfers, the Certificate was held by Comcast Cablevision of Central New Jersey, Inc. ("Comcast") and on October 9, 1996, the Board issued a Renewal Certificate of Approval to Comcast for the Borough in Docket No. CE95090417. Based on a name change, the current holder of the Certificate is Comcast of Central New Jersey, LLC ("Petitioner"). Although by its terms the Petitioner's above referenced Certificate expired on November 1, 2010, the Petitioner is authorized to continue to provide cable television service to the Borough pursuant to N.J.S.A. 48:5A-25, pending disposition of proceedings regarding the renewal of its Certificate.

The Petitioner filed an application for the renewal of its municipal consent with the Borough on February 1, 2010, pursuant to N.J.S.A. 48:5A-23 and N.J.A.C. 14:18-13.1 et seq. The Borough, after public hearing, adopted an ordinance granting renewal municipal consent to the Petitioner on June 23, 2010. The Petitioner formally accepted the terms and conditions of the ordinance on August 23, 2010.

On October 7, 2010, pursuant to N.J.S.A. 48:5A-16, the Petitioner filed with the Board for a renewal of its Certificate for the Borough. The Board has reviewed the application for municipal consent, the petition for a Renewal Certificate of Approval, and the municipal consent ordinance. Based upon this review and the recommendation of the Office of Cable Television, the Board **HEREBY FINDS** the following:

1. The Petitioner possesses the requisite legal, character, financial and technical qualifications for the awarding of a Certificate of Approval. Further, these qualifications were previously reviewed by the Borough in conjunction with the municipal consent process.
2. The design and technical specifications of the system shall ensure that the Petitioner provides safe, adequate and proper service.
3. The Petitioner has represented that all previously required construction within the franchise territory is complete.
4. The franchise period as stated in the ordinance is 15 years. The Board finds this period to be of reasonable duration.
5. The Borough may review the performance of the Petitioner with regard to the ordinance at its discretion. If the Borough determines that the Petitioner has failed to substantially comply with the material terms and conditions of the ordinance, the Borough shall provide written notice to the Petitioner of such alleged instances of non-compliance, and shall grant the Petitioner 90 days to cure such deficiency. The Borough may petition the Board for appropriate administrative action, pursuant to N.J.S.A. 48:5A-47; provided however, that the Borough shall first have given the Petitioner written notice of all alleged instances of non-compliance and an opportunity to cure same within 90 days of that notification.
6. The Petitioner shall provide service to any residence or business along any public right-of-way in the Primary Service Area at no cost beyond standard and non-standard installation charges as set forth in the Petitioner's application. For any extension outside of the Primary Service Area, the Petitioner shall utilize the line extension policy ("LEP") attached to the Certificate. The minimum homes per mile figure is 35.
7. The Petitioner's rates shall be regulated and tariffs shall be filed for all services, in accordance with the rules and regulations of the Federal Communications Commission, the Board and the Office of Cable Television. The Petitioner shall maintain informational schedules of prices, terms and conditions for unregulated service, and promptly file any revisions thereto.
8. Pursuant to statutory requirements, the ordinance specifies a complaint officer to receive and act upon complaints filed by subscribers in the Borough. In this case, it is the Office of Cable Television. All complaints shall be received and processed in accordance with any applicable rules.
9. The Petitioner shall maintain a local business office or agent for the purpose of receiving, investigating and resolving complaints. The Petitioner currently maintains a local office at 90 Lake Drive, East Windsor, New Jersey.
10. The franchise fee to be paid to the Borough is specified to be 2% of the Petitioner's gross revenues from all recurring charges in the nature of subscription fees paid by subscribers for its cable television reception service in the Borough or any additional amount required by N.J.S.A. 48:5A-30. Additional regulatory fees shall be paid to the State in an amount not to exceed 2% of Petitioner's gross operating revenues derived from intrastate operations. The Board finds these fees to be reasonable.

11. The Petitioner shall provide public, educational, and governmental ("PEG") access equipment and facilities as described in the application and the ordinance. Specifically, the Petitioner shall continue to provide one public access channel and one governmental access channel, which are shared by other municipalities in the Petitioner's system.
12. Within 12 months of issuance of this Certificate, the Petitioner shall provide the Borough with a one-time technology grant of \$8,000.00. Upon payment, the Petitioner shall submit proof of satisfaction of this provision to the Office of Cable Television.
13. The Petitioner shall provide or continue to provide standard installation and Total Preferred cable television service, free of charge, to the following locations within the Borough: one outlet to all facilities used for Borough purposes, including but not limited to, the facilities used for Borough functions, programs, events and all purposes as specified in the Board's Renewal Certificate of Approval for the Borough in Docket No. CE95090417¹; one outlet to the Borough Fire Department building; two outlets to the Municipal Building, one to the Borough Council chamber and one to the Police Department; and one outlet each to any senior citizen center, library, rescue squad building or other municipal building constructed within the Borough in the future. In order to qualify for free installation, the facility must be located within 175 feet of active cable distribution plant. The Borough shall pay for each additional outlet installed to any of the above facilities on a materials plus labor basis, however, the Petitioner shall waive monthly service charges for any such additional outlets.

Based upon these findings, the Board **HEREBY CONCLUDES** that, pursuant to N.J.S.A. 48:5A-17(a) and N.J.S.A. 48:5A-28(c), the Petitioner has the municipal consent necessary to support the petition, that such consent and issuance thereof are in conformity with the requirements of N.J.S.A. 48:5A-1 et seq., that the Petitioner has complied or is ready to comply with all applicable rules and regulations imposed by or pursuant to State and federal law as preconditions for engaging in the proposed cable television operations, that the Petitioner has sufficient financial and technical capacity, meets the legal, character and other qualifications necessary to construct, maintain and operate the necessary installations, lines and equipment, and is capable of providing the proposed service in a safe, adequate and proper manner.

Therefore, the Petitioner is **HEREBY ISSUED** this Renewal Certificate of Approval as evidence of Petitioner's authority to construct and operate a cable television system within the entirety of the Borough.

This Certificate is subject to all applicable State and federal laws, the rules and regulations of the Office of Cable Television, and any such lawful terms, conditions and limitations as currently exist or may hereafter be attached to the exercise of the privileges granted herein. The Petitioner shall adhere to the operating standards set forth by the Federal Communications Commission's rules and regulations, 47 C.F.R. § 76.1 et seq., including, but not limited to, the

¹ On October 9, 1996, the Board issued a Renewal Certificate of Approval in Docket No. CE95090417 to Comcast that authorized the provision of free service to various locations including two churches: the recreation hall at Holy Trinity Church and the Nutrition Center at St. George's Church. The Board had authorized the provision of free service to the above noted institutions because the Borough does not have a municipally-owned facility to be used for public meetings and that both facilities serve as municipal meeting locations, are open to all residents; both serve as a municipal service institution that provides a valuable public safety and public information source; and the provision of free services to them is reasonable and in accordance with law. The Borough has confirmed that both locations still serve the same functions in the community. In addition, the parties have agreed to the provision of free service to these entities.

technical standards 47 C.F.R. § 76.601 through § 76.630. Any modifications to the provisions thereof shall be incorporated into this Certificate.

Failure to comply with all applicable laws, rules, regulations and orders of the Board or the Office of Cable Television and/or the terms, conditions and limitations set forth herein may constitute sufficient grounds for the suspension or revocation of this Certificate.

This Renewal Certificate is issued on the representation that the statements contained in the Petitioner's applications are true, and the undertakings therein contained shall be adhered to and be enforceable unless specific waiver is granted by the Office of Cable Television pursuant to the authority contained in N.J.S.A. 48:5A-1 et seq.

This Certificate shall expire on November 1, 2025.

APPENDIX "I"
OFFICE OF CABLE TELEVISION
LINE EXTENSION POLICY

COMCAST OF CENTRAL NEW JERSEY, LLC
BOROUGH OF HELMETTA

A cable operator is required to absorb the cost of extensions to the system in the same proportion that the extension is to the remainder of the system.

Actual subscribers served by the extension are required to absorb the remainder of the cost.

If new subscribers are added to the extension the cost is adjusted and those who previously paid receive an appropriate rebate.

- | | | | |
|----|---|---|---|
| 1 | <u># of homes in extension</u>
mileage of extension | = | homes per mile (HPM) of extension |
| 2. | <u>HPM of extension</u>
Minimum HPM that company actually constructs in the system * | = | ratio of the density of the extension to the minimum density which the company constructs in the system ("A") |
| 3. | Total cost of building the extension times "A" | = | company's share of extension cost |
| 4. | Total cost of building extension less company's share of extension cost | = | total amount to be recovered from subscribers |
| 5. | <u>Total amount to be recovered from subs</u>
Total subscribers in extension | = | each subscriber's share |

In any case, the company shall extend its plant along public rights of way to:

1. All residences and businesses within 150 aerial feet of the operator's existing plant at no cost beyond the normal installation rate.
2. All residences and businesses within 100 underground feet of the operator's plant at no cost beyond the normal installation rate.

 * The minimum HPM that the company actually constructs in the system or municipality is the minimum number of homes that the company has historically constructed at its own cost. This is a function of the operator's break-even point and its rate of return. Unbuilt systems will use the primary service area rather than construction.

The operator's installation policies shall apply to construction beyond the public right of way.

Detailed accounting and/or financial information to support the minimum HPM shall be supplied to the Office for its approval in such form as required. The minimum HPM shall be updated as appropriate.

When a request for service is received, and unless good cause is shown, cable companies shall:

1. Provide a written estimate within 30 days of such a request.
2. Begin construction within 60 days of receipt of any deposit monies from potential subscribers.
3. Complete construction within six months of receipt of any deposit monies from potential subscribers.
4. Inform each home passed along the extension of the potential costs for subscribers.

Subscribers who pay for an extension shall be entitled to rebates in the following manner:

1. If the company acquires new subscribers subsequent to the initial calculation of step 5 above, the formula will be adjusted and those who have previously paid for the extension will be entitled to an appropriate rebate. In no event shall the amount of the rebate exceed the subscriber's contribution.
2. The company shall keep accurate records of the cost of the extension, the amounts paid by subscribers and any appropriate adjustments.
3. The company shall notify subscribers in the extension of their rights and responsibilities concerning the extension.
4. Once an individual dwelling has paid its share of the extension cost future reconnections or installations shall be made at the company's standard rates.
5. After a period of five years from the installation of the first dwelling unit in the extension no further adjustments shall be made. Installations after five years shall be at the company's standard rate.
6. Once a subscriber is installed, that person shall not normally be entitled to a refund of any monies paid for the installations, except in accordance with the rebate procedure outlined in this policy.

Definitions

Primary Service Area

The Primary Service Area (PSA) can be an entire municipality, but in many instances the PSA is a limited area within a community outside of which a line extension policy may apply. The PSA is depicted by a franchise map and narrative, presented and recorded during the franchise proceedings. It normally remains a fixed geographic area throughout the life of the franchise.

Line Extension Survey

Potential subscribers residing outside the PSA who request service are entitled to an estimate of their share of the cost to secure service. When conducting a survey and estimating costs, a cable company should factor in all potential subscribers who could practicably be included in the extension and give consideration to apparent residential construction in areas contiguous to the proposed extension.
