ENERGY

IN THE MATTER OF THE PROVISION OF BASIC )  
GENERATION SERVICE (BGS) FOR THE PERIOD )  
BEGINNING JUNE 1, 2020 )  
 )  
 ) DOCKET NO. ER19040428

**Parties of Record:**

- Gregory Eisenstark, Esq.**, Cozen O'Connor, on behalf of Jersey Central Power & Light Company
- Matthew Weissman, Esq.**, Attorney for Public Service Electric and Gas Company
- Philip J. Passanante, Esq.**, Associate General Counsel for Atlantic City Electric Company
- Margaret Comes, Esq.**, Senior Attorney for Rockland Electric Company
- Stefanie A. Brand, Esq.**, Director, New Jersey Division of Rate Counsel

BY THE BOARD:

By Order dated November 13, 2019 in this docket, the New Jersey Board of Public Utilities (“Board”) approved the joint Basic Generation Service (“BGS”) proposal of Public Service Electric and Gas Company (“PSE&G”), Jersey Central Power & Light Company (“JCP&L”), Atlantic City Electric Company (“ACE”) and Rockland Electric Company (“Rockland”) (collectively the “EDCs”), for two (2) descending clock auctions to secure the EDCs’ BGS electricity requirements for the period beginning June 1, 2020.<sup>1</sup> In an attempt to mitigate the risk to ratepayers, the Board directed the EDCs to procure approximately one-third of the EDCs’ BGS residential small commercial customers (“BGS-RSCP”) load for a 36-month period through a single clearing price for each EDC’s BGS supply requirements in the auction.<sup>2</sup> The Board also found that a 12-month procurement period for the EDCs’ hourly load BGS commercial and industrial energy pricing customers (“BGS-CIEP”) is appropriate and reasonable. In the November 2019 Order, the Board also committed to review the results of the BGS-RSCP Auction and the BGS-CIEP Auction (collectively the “BGS Auctions” or “Auctions”), respectively, in their entirety, and certify the results of each auction for all of the EDCs, or for none of them, no later than the second business day after the last Auction closes.

<sup>1</sup> In re the Provision of Basic Generation Service (BGS) For the Period Beginning June 1, 2020, BPU Docket No. ER19040428, Order dated November 13, 2019 (“November 2019 Order”).

<sup>2</sup> Approximately two-thirds of the EDCs’ BGS-RSCP requirements are already under contract through May 31, 2021, and one-third through May 31, 2021 as a result of the 2018 and 2019 BGS-RSCP Auctions.

The results of the BGS Auctions, if approved by the Board, will then be converted into revised BGS rates for customers beginning June 1, 2020. This is the 19th year the Board has authorized a similar auction process to secure BGS supply.

The Auction Manager responsible for conducting the 2020 Auctions is National Economic Research Associates (“NERA”). NERA brings expertise in conducting simultaneous descending clock auctions in the energy and telecommunications industries, and was the Auction Manager for the prior 18 BGS Auctions. The 2020 Auctions were continuously monitored by the Division of Energy (“Staff”), as well as by the Board’s consultant, Bates White, LLC (“Bates White”). Bates White was retained to assist the Board in this process. Bates White has experience with simultaneous descending clock auctions and energy industry experience.

### **BGS-RSCP AUCTION SUMMARY**

The BGS-RSCP Auction began on February 3, 2020 and ended on February 4, 2020 after 22 rounds with all of the EDCs’ 53 tranches secured, with the following closing prices for each EDC<sup>3</sup>:

<b>EDC</b>	<b>Closing Price (cents/kWh)</b>	<b>Total Tranches Sold</b>
ACE	8.269	8
JCP&L	7.243	15
PSE&G	10.216	28
Rockland	8.242	2

A list of the BGS-RSCP Auction winners is included in Attachment A to this Order.

### **BGS-CIEP AUCTION SUMMARY**

The BGS-CIEP Auction was conducted on January 31, 2020. All of the EDCs’ 41 tranches were secured in 24 rounds with the following closing prices for each EDC<sup>4</sup>:

<b>EDC</b>	<b>Closing Price (\$/Mw-day)</b>	<b>Total Tranches Sold</b>
ACE	350.55	4
JCP&L	321.00	12
PSE&G	359.98	24
Rockland	383.31	1

A list of the BGS-CIEP Auction winners is included in Attachment A to this Order.

<sup>3</sup> A tranche in the BGS-RSCP Auction is approximately 100 MW.

<sup>4</sup> A tranche in the BGS-CIEP Auction is equivalent to approximately 75 MW. However, Rockland only has one tranche with an eligible load of 56 MW.

## BGS AUCTION OVERSIGHT

NERA provided a confidential post-Auction checklist form evaluating how the BGS-RSCP and BGS-CIEP Auctions were conducted. NERA's analysis supporting acceptance of the Auction results indicates, in part, that:

- no issues or questions were left unresolved prior to the Auctions that created uncertainty for bidders;
- neither procedural problems nor errors were observed during the Auctions;
- all communication protocols were followed;
- neither hardware nor software problems with the Auctions and communication systems were observed;
- no security breaches were observed during the Auction process;
- all guidelines for setting or changing the Auction parameters were followed;
- there was no evidence of confusion or misunderstanding on the part of bidders that delayed or impaired the Auctions in a material manner;
- communications between the Auction Manager and bidders was timely and effective;
- there was no evidence that bidders were rushed;
- no complaints were received from the bidders;
- the Auctions were carried out in a fair and transparent manner;
- there was no evidence of collusion or gaming by the bidders;
- public and sensitive information was treated appropriately;
- there were no factors exogenous to the Auctions that materially affected the Auctions; and
- the Auctions generated a result that is consistent with competitive bidding, market-determined prices, and efficient allocation of the BGS-RSCP and BGS-CIEP loads.

Bates White also provided the Board with a confidential post-Auction evaluation form for the BGS-RSCP and BGS-CIEP Auctions, as well as a supplemental checklist reviewing how the Auctions were conducted. Bates White's analysis is consistent with NERA's analysis. Both consultants recommend that the Board accept the final Auction results.

## BGS AUCTION FINDINGS AND CONCLUSIONS

The independent NERA and Bates White analyses both conclude that the Auctions proceeded without meaningful interruption, according to the Board-approved Auction Rules, and in an acceptably fair and transparent manner. As such, both NERA and Bates White recommend that the Board certify the Auction results. Staff overseeing the Auctions briefed the Board regarding the procedure and results of each Auction.

After reviewing the checklists and evaluation forms from NERA and Bates White, discussing the results and conduct of the Auctions with Staff, NERA and Bates White, and from what could be observed during the Auctions, the Board **FINDS** that:

- all bidders had sufficient information to prepare for the Auctions;
- information was generally provided to bidders in accordance with the published timetable, and the timetable was adjusted appropriately as needed;
- there were no Auction issues or questions left unresolved prior to the Auctions that created material uncertainty for bidders;

- there were neither procedural problems nor errors with the Auctions, including the electronic bidding process, the back-up bidding process, and communications between bidders and the Auction Manager;
- communication protocols between bidders and the Auction Manager were adhered to;
- appropriate data back-up procedures were planned and carried out;
- no security breaches were observed during the Auction process;
- communication protocols among the EDCs, NERA, Staff, the Board, and Bates White were followed during the Auctions;
- protocols were followed for decisions regarding changes in the Auction parameters (e.g. volume, load cap, bid decrements);
- the calculations (e.g. for bid decrements or bidder eligibility) produced by the Auction software were double-checked or reproduced off-line by the Auction Manager;
- there was no evidence of confusion or misunderstanding on the part of bidders that delayed or impaired the Auctions;
- the communications between the Auction Manager and bidders was timely and effective;
- there were no complaints received from the bidders about the process;
- the Auctions were carried out in an acceptably fair and transparent manner;
- there was no evidence of gaming on the part of bidders;
- there was no evidence of collusion among bidders;
- information was made public in an appropriate manner and, from what could be observed, sensitive information was treated appropriately;
- there were no factors exogenous to the Auctions (e.g., changes in market environment) that materially affected the Auctions in unanticipated ways;
- there are no concerns with the Auctions' outcome with regard to any specific EDC(s); and
- the Auctions generated a result that is consistent with competitive bidding, market-determined prices, and efficient allocation of the BGS-RSCP and BGS-CIEP loads.

Based on the foregoing, the Board **HEREBY CERTIFIES** the final results of the BGS-RSCP and BGS-CIEP Auctions in their entirety, and subsequently **APPROVES** the closing prices for each EDC. Furthermore, the Board **HEREBY ORDERS** the EDCs to: 1) execute the necessary documents with the winning bidders, including the BGS Supplier Master Agreements; 2) implement the BGS rates resulting from the Auctions beginning June 1, 2020; and 3) file tariff sheets reflecting those rates by March 1, 2020.

Consistent with past Board practice, the Board is releasing the names of the winning bidders at this time. However, at this time, the Board will not release the specific tranche and service area details for each successful bidder, so as not to compromise the position of the winning bidders in the marketplace. The Board plans to make this additional information public prior to June 1, 2020.
