## NOTICE<sup>1</sup>

### IN THE MATTER OF THE BOARD'S REVIEW OF THE ENERGY COMPETITION RULES AT N.J.A.C. 14:4 - Docket No. EX14111343

On December 2, 2015 the Governor signed A-3851 (the "Act") concerning third-party electric power and gas supplier customer contracts. The effective date of the Act is April 30, 2016.

The Act requires that an electric power supplier or gas supplier shall not provide electric generation service or gas supply service to a customer in this State unless the electric power supplier or gas supplier has provided the customer a one-page information sheet summarizing the material terms and conditions of the contract as determined by the Board.

The Board anticipates providing further guidance to address the implementation of the provisions of the Act in the coming months. Pending such direction from the Board, companies serving commercial customers that fall under the definition of "customer" in the act are encouraged to look to the Board's September 30, 2014 Order addressing residential customers (I/M/O The Board's review of Consumer Protection Provisions of its Rules Concerning Third Party Suppliers, BPU Docket No. EX14060579) ("2014 Order"). Companies serving these commercial customers may use the format identified in the 2014 Order, conformed to meet the requirements of the Act, and also reflect the differences between residential and commercial customers.

  
Irene Kim Asbury  
Secretary of the Board

Dated: April 28, 2016
