

**State of New Jersey  
Board of Public Utilities**

**ANTICIPATED JOB VACANCY**

**JOB POSTING #: 08-2020**

**DATE OF POSTING:** February 4, 2020

**DATE OF CLOSING:** March 4, 2020

**TITLE:** Distributed Energy Resource Interconnection and Valuation Program Administrator

**SALARY:** Commensurate with Experience

**EXISTING VACANCIES:** One (1)

**DIVISION/LOCATION:** Board of Public Utilities  
Division of Clean Energy

**GENERAL DESCRIPTION:** Under the direction of Division Director of Clean Energy and the Bureau Chief of Renewable Energy manages all aspects of the Board's regulatory responsibilities toward implementing the State's Energy Master Plan with respect to the interconnection of distributed energy resources (DER) and compensation of owners for the value of the electricity produced toward meeting the clean energy goals for New Jersey.

Work Responsibilities:

- Work with staff at the Board, the State's Electric Distribution Company's (EDCs), DER market stakeholders, and consultants to implement the Board's rules and Orders regarding net metering and interconnection standards.
- Lead stakeholder proceedings, develop straw proposals and white papers, and conduct meetings designed to review and continuously improve implementation of the state's net metering and interconnection standards. Work with the Board's legal counsel to develop recommendations for the Board's amendment and adoption of rules resulting from stakeholder proceedings or in response to statutory changes.
- Reviews the net metering compensation design, incentive levels and eligibility criteria of peer state programs comparable to those available through the NJ net metering rules toward recommendations for refinement of existing programs.

- Interact regularly with commissioners, legal staff, representatives of other state agencies, utility representatives, market participants, other stakeholders, and DER system owners. Lead and contribute to meetings with staff and stakeholders on an ad hoc basis.
- Responds to individual DER system owner requests for assistance in understanding the net metering and interconnection rules. Fields DER customer complaints, conducts utility bill analyses and reviews Third Party Owner contracts toward resolving disputes over individual cases.

**REQUIREMENTS:** Graduation from an accredited college or university with a Master of Science degree in electrical engineering.

**EXPERIENCE:** Knowledge of the issues in the interconnection and valuation of distributed energy resources and experience in electric distribution system planning and energy economics preferred. Demonstrated managerial skills, including such factors as interpersonal skills, decision-making, problem analysis and creative thinking, administrative judgment, delegation, managerial, budgeting or financial control, interdepartmental cooperation/liaison, development of subordinates and organizational awareness are required. Demonstrated facility with Microsoft office, spreadsheet, database, communications software, and renewable energy investment analytical tools preferred.

**OPEN TO THE FOLLOWING:** Open to NJ Residents.

**NOTE: RESIDENCY LAW:** Pursuant to N.J.S.A. 52:14-7 (L. 2011, Chapter 70), also known as the “New Jersey First Act,” which became effective September 1, 2011, all persons newly hired by the Executive Branch on or after that date shall have one year from the date of employment to establish, and then maintain principal residence in the State of New Jersey.

**The State of New Jersey is an Equal Opportunity Employer.**
