## **NOTICE<sup>1</sup>**

### **IN THE MATTER OF EXECUTIVE ORDER 1 MODERNIZATION OF THE TRADITIONAL ELECTRIC DISTRIBUTION UTILITY BUSINESS MODEL STUDY**

**Docket No. [EO26040117](#)**

Pursuant to the Open Public Meetings Act, N.J.S.A. 10:4-6 *et seq.*, Staff of the New Jersey Board of Public Utilities hereby gives notice of a public stakeholder meeting to address matters pertaining to Governor Mikie Sherrill's Executive Order 1 directive that "the New Jersey Board of Public Utilities shall complete and issue a study regarding modernization of the traditional electric distribution utility business model."

The stakeholder meeting will cover the topics below, which Board Staff seeks comments from members of the public and relevant stakeholders to inform the study:

- the relationship between the traditional business model and recent trends affecting electricity affordability;
- potential policy pathways and opportunities for achieving long-term reductions to, and stabilization of, electric bills; and
- opportunities including, but not limited to, making utility revenue models less dependent on capital spending on infrastructure; expansion of performance based ratemaking, whereby performance would include, among other things, the rate at which utilities approve the interconnection of new electricity generating facilities to the grid; multi-year rate plans; reductions in utilities' return on equity; state review of supplemental transmission projects; least cost resource testing requirements; greater use of asset securitization; and amendments to the regulations governing infrastructure investment programs.

This stakeholder meeting will be held in person, at Mercer County Community College, on May 7, 2026 with an option to participate virtually. See details below.
