Secretary Aida Camacho-Welch
New Jersey Board of Public Utilities
44 South Clinton Avenue, 3rd Floor, Suite 314, CN350
Trenton, NJ 08625

**RE: Comments Related to a Future Solicitation of 1,100 Megawatts of Offshore Wind Capacity
(Docket No. QX18040466)**

Dear Secretary Camacho-Welch:

National Wildlife Federation strongly supports your ongoing work to advance responsibly developed offshore wind power for New Jersey. In that spirit, I am writing to submit the following comments on behalf of the undersigned 457 members and supporters in New Jersey, all eager to see a robust offshore wind industry come to fruition, while ensuring that coastal and marine wildlife are protected every step of the way. The attached list of New Jerseyans signed on to the following statement to the New Jersey Board of Public Utilities:

I applaud Governor Murphy for his efforts to advance offshore wind power as a critical climate change solution for New Jersey – signing into law a commitment to developing 3,500 megawatts by 2030, and swiftly initiating the process to procure the first 1,100 megawatts. I encourage the Board of Public Utilities to establish a long-term offshore wind procurement process that can maximize the environmental and economic benefits of our abundant resource.

Further, I urge you to ensure that New Jersey's offshore wind industry is one that models responsible development from the start. Stringent environmental protections required to protect wildlife and habitat, with specific attention to our most vulnerable endangered species like the North Atlantic right whale must be in place throughout every stage of development.

New Jersey has an opportunity to lead the nation in responsibly developing offshore wind power, and now is the time to establish a thoughtful and holistic policy to build an enduring local industry that prioritizes benefits for New Jersey's workforce and communities while maintaining the highest standards of environmental protection every step of the way.

Thank you for the opportunity to provide input. We look forward to working with you in the months and years ahead to realize the incredible clean energy potential of responsibly developed offshore wind power for New Jersey.

Sincerely,

Catherine Bowes
Program Director, Offshore Wind Energy
National Wildlife Federation
