II. General Information and Summary

Pursuant to the Cannabis Regulatory, Enforcement Assistance, and Marketplace Modernization Act, N.J.S.A. 24:6I-31 through 56 (“the Act”), and N.J.A.C. 17:30, this Notice of Application Acceptance (herein also referenced as “Notice”) provides public notice to license applicants and public stakeholders of the Cannabis Regulatory Commission’s accepting of applications for personal use cannabis licenses.

On December 15, 2021, the Commission began accepting applications for Class 1 Cultivator Licenses, Class 2 Manufacturer Licenses, and Testing Laboratories. On March 15, 2022, the Commission began accepting applications for Class 5 Retailer Licenses. The Commission continues to accept these applications.

All cannabis business and testing laboratory license applications shall be submitted online through the Commission’s application portal at <http://www.nj.gov/cannabis>.

License applications will be accepted on a rolling basis until indicated otherwise, with priority review, scoring, and approval given to applicants that qualify as Social Equity Businesses, Diversely Owned Businesses, Impact Zone Businesses, and to applicants that receive bonus points on their applications (See Section V. of this Notice). Priority will be given to conditional license applications over annual license applications within each category, and microbusiness applications will be prioritized over standard cannabis business applications in every category. Additionally, pursuant to changes to N.J.A.C. 17:30-6.1, annual license applicants that qualify as a Social Equity Business, Diversely Owned Business or Impact Zone Business receive priority review and approval within category 1, 2 and 3. In the event the Commission decides to establish a date on which it will stop accepting application submissions, at least thirty days’ notice will be provided before the application close date for any class of license.

Currently, there is no deadline for license application submissions pursuant to this Notice. Applications will be reviewed and investigated in accordance with the priority outlined in this Notice, and in the order they were submitted.

The Commission has established no limit on the number of cannabis business licenses available statewide.

Municipalities are authorized under N.J.S.A. 24:6I-31 through 56 to limit the number and type of cannabis business licenses available within their jurisdictions.

The Commission reserves the right to update this Notice. All updates will be announced at a public meeting, posted on the Commission's website, published in the New Jersey Register, and sent to the Commission's email list.

Pursuant to N.J.A.C. 17:30-6.1(d), the Commission shall review, score, and approve conditional and annual cannabis business license applications and issue licenses to applicants that receive a full score or greater, and shall have the full authority to establish the priority by which conditional and annual cannabis business license applications and applicants are reviewed, scored, approved, and issued, such that:

2. Except where it conflicts with 1 above, conditional license applicants always have priority over annual license applicants;

Pursuant to N.J.S.A. 24:6I-36, Commission staff will forward a copy of the relevant application documents from each application that has been deemed complete to the municipality in which the proposed cannabis business seeks to locate.
