Curaleaf NJ II LLC

Re: **FINAL AGENCY DECISION**
Curaleaf NJ II, Inc. (Bellmawr) Regulation Waiver Request
NJ-CRC Docket No.: WR059

Dear [REDACTED]:

The New Jersey Cannabis Regulatory Commission (“NJ-CRC” or “Commission”) is in receipt of your request to waive N.J.A.C. 17:30-16.2(g). Pursuant to N.J.A.C. 17:30-3.7(a), the Commission may waive a regulatory requirement regarding the operations of a cannabis business, to the extent such waiver does not conflict with any other State law, if in the Commission's determination, such a waiver: (1) is necessary to achieve the purpose of the New Jersey Cannabis Regulatory, Enforcement Assistance, and Marketplace Modernization Act (“CREAMM Act”); (2) is necessary to provide access to cannabis items to consumers; and (3) does not create a danger to the public health, safety, or welfare.

The Commission has reviewed your waiver request and has determined that a waiver of N.J.A.C. 17:30-16.2(g) in this instance is necessary to achieve the purposes of the Act, is necessary to provide consumers access to cannabis items, and would not create a danger to public health, safety, or welfare. Accordingly, the Commission has granted your request to open sealed packages and extract cannabis material from the affected products, repack the extracted cannabis into alternative pre-roll cones that do not contain glass or wood tip components, and conduct full panel compliance testing on all products prior to retail production, subject to the following conditions:

- 1) Curaleaf NJ II, Inc. shall remain subject to all other regulatory requirements, except as modified below, including the requirement that the cannabis at issue be retested once the product is in its final form;
- 2) Curaleaf NJ II, Inc., may only open sealed packages for the affected products one time, for one of the following two purposes:
 - a. Pre-rolls: to remove the flower and place it into a different, unaffected cone, with retesting required once the flower is in the new cone (final form); or

- b. Manufacturing: to use the flower as input for extraction or other manufacturing processes, producing an extract or oil that may be used in a vape cartridge, edible, tincture, topical or other manufactured cannabis products, with retesting required once the resulting product is in its final form.
- 3) Regardless of which option is used under Condition 2, the underlying flower or cannabis material must not be expired at the time the seal is broken and the product is re-processed.
- 4) If the re-packaged products fail compliance testing in its final form, they must be destroyed;
- 5) The waiver applies only to the following products listed in the chart below:

Product Name	Metrc Tag	Test Date	Expiration Date
Anthem Bold Jet Fuel Infused Preroll Glass Tip 1g:Hybrid:Other	174851	4/1/2026	7/28/2026
