*Re: FINAL AGENCY DECISION*  
*Award of Cultivation Permit Endorsement to Operate an Alternative Treatment Center ("ATC") Pursuant to the 2019 Request for Applications ("RFA") Process*

Dear Lisa Grega,

The New Jersey Cannabis Regulatory Commission ("CRC") has received and reviewed your application for a cultivation permit endorsement, submitted on 8/22/2019, to operate an Alternative Treatment Center ("ATC") pursuant to N.J.S.A. 24:6I-1 et seq. Following thorough review by the selection committee, and subject to the post-award accountability measures listed below, the CRC has awarded you a cultivation permit endorsement.

By way of background, on July 1, 2019, the Department of Health ("Department") posted a Request for Applications ("RFA") to operate up to twenty-four ATCs, of which up to eight such centers would be in the Northern and Central regions of the state, up to seven would be in the Southern region of the state, and one would be in a region to be determined at the time of award based on patient need. The RFA sought to award permits for up to fifteen dispensaries, five cultivation sites, and four vertically integrated ATCs (granting the ability to cultivate, manufacture, and dispense medical cannabis and medical cannabis products). On August 2, 2019, the RFA was updated to clarify provisions related to the application fees required for vertically integrated permit applications.

To allow for a robust industry with room for different operators, prospective applicants were restricted in the number of applications they could submit. Applicants seeking a vertically integrated permit could submit only one application and could not seek any other permit or endorsement. Applicants not seeking a vertically integrated permit were allowed to submit up to one application per region for a maximum of three applications, and only one application could be for a cultivation endorsement.

No applicant could be awarded more than one permit under the 2019 RFA, and no applicant could hold more than one cultivation endorsement, one manufacturing endorsement, and one dispensary endorsement as a result of the awards made pursuant to the RFA.

Applications for cultivation permit endorsements were due to the Department no later than August 22, 2019, at 3:00 PM. Applicants had the choice of whether to submit the application online and only submit signed coversheets and checks in person, or to submit the entire application in hard copy/paper form.

The Department received a total of 198 applications, including 40 applications for cultivation permit endorsements, 109 applications for dispensary permit endorsements, and 49 applications for vertically integrated permits. An initial completeness review of all 198 applications was conducted by the Department. Of the 198 applications, 2 were submitted as incomplete applications.

Pursuant to N.J.A.C. 8:64-6.2 (now N.J.A.C. 17:30A-6.2 and 6.4), the Department convened a selection committee in conjunction with the RFA. The selection committee was composed of a total of nine individuals in full-time State service from the Department of Health, the Department of the Treasury, the Department of Environmental Protection, and the Department of Labor.

Selection committee members possessed the following expertise:

- Three members were experienced in the regulation of the cultivation, manufacturing, and dispensing of medical cannabis;
- One member had expertise in quality assurance, public health and emergency preparedness;
- One member had expertise in public health, pharmaceutical assistance, and fiscal management;
- One member had expertise in the management of environmental resources and public affairs;
- One member had expertise in workforce development;
- One member had expertise in labor compliance; and
- One member had expertise in business development and the certification of minority-owned, women-owned, and veteran-owned businesses.

Prior to beginning work on the selection committee, members completed a confidentiality agreement and a business disclosure form so the Department could verify that none of the selection committee members had any outside business interests that would conflict with their work on the committee. Once the completeness review concluded, selection committee members were provided a list of the applicants they would be scoring, including the names of principals, owners, and directors. Every selection committee member signed a certification stating they possessed no conflicts of interest with respect to the applicants.

The Department organized three trainings for selection committee members:

- Two initial trainings, one on September 19, 2019, and one on September 23, 2019. Each selection committee member attended one of these trainings.
- A refresher training on February 23, 2021, after the stay on proceedings was lifted on February 17, 2021 (discussed in further detail below).

The trainings included an overview of the Department's regulations, an overview of the medical cannabis market as it existed in September of 2019, and a comprehensive review of the terms of the RFA, the scoring criteria, and the assignments for each team.

The selection committee was divided into three teams of three, with each team responsible for scoring a portion of each permit endorsement application in accordance with specific measures. Each team was responsible for a maximum of 100 points for every permit endorsement sought (100 points for cultivation

and dispensary applications, and 300 points for vertically integrated applications, which includes three endorsements).

In December of 2019, following a challenge by several disqualified applicants, the Superior Court of New Jersey, Appellate Division, issued a stay that barred the Department from undertaking any additional work on the 2019 RFA. Despite the Department’s efforts to continue reviewing applications while the Court reviewed the appellants’ claims, the Department was prohibited from reviewing, scoring, and awarding any permits under the 2019 RFA process. The stay imposed by the Appellate Division was vacated on February 18, 2021.<sup>1</sup>

Based upon the selection committee’s impartial and thorough review of the applications against the criteria set forth in the RFA, the following applicants received the highest composite scores for cultivation permit endorsements:

<b>Control #</b>	<b>Name of Applicant</b>	<b>Region</b>	<b>Canopy Size (Sq. Ft.)</b>	<b>Total Scores</b>
19-0145	Hillview Med, Inc.	North	30,000	273.67
19-0154	CYOUR NJ LLC	North	30,000	269.67
19-0164	Green Medicine NJ LLC	Central	30,000	268.00
19-0023	Bloom Medicinals of PA, LLC	South	30,000	260.67
19-0058	GCSS Management LLC	North	20,000	257.33
19-0030	NJ Nectar Ventures LLC	Central	20,000	251.67
19-0057	ZY Labs LLC	Central	20,000	251.33
19-0192	Garden State Releaf, LLC	South	30,000	249.67
19-0172	The NAR Group Inc.	Central	20,000	241.00
19-0194	Unity Alternative Therapy of New Jersey	North	30,000	240.33
19-0149	Herbiculture NJ Inc.	Central	20,000	235.00
19-0182	Ethereal Green, LLC	South	20,000	234.00
19-0176	Noble Valley Harvest Company	Central	5,000	231.00
19-0089	Marzy Designs LLC	Central	20,000	228.00
19-0156	KARE LLC	South	20,000	225.67

This table shows the top fifteen scoring cultivation applications returned by the selection committee. The highest possible score for cultivation endorsement applications was 300 points. Total scores for all applications ranged from 117.67 points to 273.67 points.

The CRC selected award recipients in accordance with an objective methodology that ensures that there is an adequate supply of medical cannabis to meet the needs of registered patients, which is a significant component of the purpose and intent of N.J.S.A. 24:6I-1 et al. The selection methodology formulated by the CRC and the post-award measures (1) address patient need; (2) prioritize the highest scoring

<sup>1</sup> Pursuant to N.J.S.A. 24:6I-24(a), the CRC assumed all responsibility for the Medicinal Marijuana Program from the Department of Health on April 12, 2021. With this transfer of authority came the responsibility to review and approve or deny applications submitted pursuant to the 2019 RFA.

applicants while also complying with the distribution set out in the 2019 RFA; (3) are driven by data; and (4) include accountability measures that ensure that awardees operate to the standards proposed in their applications. The resulting awardees are expected to get up and running quickly and begin addressing patient need as soon as practicable.

Additionally, to keep pace with expanding patient enrollment, which has continued even after the broad decriminalization of marijuana, the CRC decided to double the cultivation awards issued under the 2019 RFA from five to ten. Doubling the number of cultivation awards issued is consistent with the statutory charge and authority of the CRC to meet patient need and is reflective of expansion of the patient population over the last two years, the projected expansion in the future, and the anticipated loss of capacity that may be associated with the launch of personal-use cannabis sales in the future. Increasing the number of ATCs that can operate in the market also encourages product innovation and price reductions (driving ATCs to compete for the support of the medicinal cannabis patient community) while allowing for a more resilient marketplace (having operators available to supply medicinal cannabis items even if one operator fails).

Furthermore, the CRC has a cohort of qualified applicants who have been waiting for two years to help serve New Jersey's medicinal market and increasing the number of awards issued will put these awards more in line with actual market needs for 2021 and beyond, while enabling market players to better deliver value, access, and product availability to New Jersey's patients.

Consistent with these goals, the CRC selected the top two scorers in each canopy tier – that is, the two highest scoring applicants in the 30,000 square foot tier, the two highest scoring applicants in the 20,000 square foot tier, and the highest scoring applicant in the 5,000 square foot tier – as specifically indicated in the 2019 RFA, providing a total of up to 225,000 square feet of canopy. Next, the CRC selected the next five highest scoring applicants, such that there are at least two cultivators selected from the Northern Region, at least two selected in the Central Region, and at least one selected in the Southern Region. Maintaining this regional distribution should help combat high pricing. The current medicinal cannabis market has failed to produce adequate supply on a consistent basis to keep pace with demand, and by doubling the number of cultivation awards and setting the original permit numbers per region and per canopy tier as a floor and not a ceiling, the CRC is issuing awards that align with its principles outlined above.

In accordance with the above criteria and analysis, the CRC made two selections from the highest scoring 30,000 square foot cultivation applications, resulting in awards to Hillview Med in the Northern Region and CYOUR NJ in the Northern Region. Next, the CRC selected the two highest scoring 20,000 square foot cultivation applications, resulting in awards to GCSS in the Northern Region and NJ Nectar Ventures in the Central Region. Third, the CRC selected its highest scoring 5,000 square foot cultivation application, resulting in an award to Noble Valley in the Central Region. Finally, the CRC selected the next five highest scoring applicants that were not previously selected for a proposed award in a manner that maintains the described regional distribution of awards, resulting in awards granted to Green Medicine NJ in the Central Region, Bloom Medicinals of PA in the Southern Region, ZY Labs in the Central Region, Garden State Relief in the Southern Region, and The NAR Group in the Central Region.

These cultivation awards add a total of 235,000 square feet of additional cultivation to the state's existing capacity and provide for at least two awards per region. Pursuant to the methodology described above, the awards are as follows:

- a. The two highest scoring 30,000 square foot cultivation applications:

<b>Control #</b>	<b>Applicant Name</b>	<b>Region</b>	<b>Canopy Size</b>	<b>Total Score</b>
19-0145	HillviewMed, Inc.	North	30,000	273.67
19-0154	CYOUR NJ LLC	North	30,000	269.67

- b. The two highest scoring 20,000 square foot cultivation applications:

<b>Control #</b>	<b>Applicant Name</b>	<b>Region</b>	<b>Canopy Size</b>	<b>Total Score</b>
19-0058	GCSS Management LLC	North	20,000	257.33
19-0030	NJ Nectar Ventures LLC	Central	20,000	251.67

- c. The highest scoring 5,000 square foot cultivation application:

<b>Control #</b>	<b>Applicant Name</b>	<b>Region</b>	<b>Canopy Size</b>	<b>Total Score</b>
19-0176	Noble Valley Harvest Company	Central	5,000	231.00

- d. The next five highest scoring applications that have not been previously selected for a proposed award, such that, among the total 10 selected applicants, there are at least two cultivators selected from the Northern Region, two selected from the Central Region, and at least one selected from the Southern Region:

<b>Control #</b>	<b>Applicant Name</b>	<b>Region</b>	<b>Canopy Size</b>	<b>Total Score</b>
19-0164	Green Medicine NJ LLC	Central	30,000	268.00
19-0023	Bloom Medicinals of PA, LLC	South	30,000	260.67
19-0057	ZY Labs LLC	Central	20,000	251.33
19-0192	Garden State Releaf, LLC	South	30,000	249.67
19-0172	The NAR Group Inc.	Central	20,000	241.00

Based on a full and thorough review of each application against the requirements set forth in the RFA, the composite scores enumerated by the CRC, the selection methodology detailed above, and in accordance with the purposes of N.J.S.A. 24:6I-1 et al. and P.L.2009, c.307 and the regulations promulgated thereunder, the CRC hereby APPROVES the following application, subject to all of the

terms and conditions outlined below:

Applicant: Noble Valley Harvest Company

Region: Central

Score: 231.00

This award is contingent on the applicant adhering to the following terms and conditions. These conditions are required and designed to maintain accountability to the statements and declarations included in the applicant's proposals. As used in this letter, "date of award" means the date of this Final Agency Decision (Friday, October 15, 2021).

1. Within five (5) business days of this notification of award, each awardee shall confirm in writing to [crc.licensing@crc.nj.gov](mailto:crc.licensing@crc.nj.gov), that it accepts the award. Acceptance of this award may result in the applicant being disqualified from receiving award of any pending permit endorsement applications;
2. If accepted, within twenty (20) business days from the date of award, the awardee shall confirm in writing, that it still has site control and local approval for the endorsement. An awardee without both site control and local approval after twenty (20) business days will have its award rescinded;
3. An awardee for a cultivation endorsement or for a vertically integrated permit must be fully permitted within 18 months from the date of this award;
4. An awardee shall operate in accordance with its medicinal cannabis application for at least two (2) years, except that it may apply to expand its cultivation canopy for medicinal cannabis after one (1) year, so long as it can be justified by patient need;
5. Awardees are required to comply with deadlines and timelines established by the CRC for submission of information and documentation, including but not limited to deadlines by which members must be fingerprinted. Failure to adhere to established timelines may result in rescission of the award;
6. Awardees shall not be authorized to add any owners or principals that were not disclosed on the application until after the permit is issued;
7. Awardees shall not be authorized to enter into any management services agreements that were not disclosed in the application for two (2) years following the award;
8. If an awardee received scores for a woman-owned, veteran-owned, or minority-owned business certification, the awardee shall confirm in writing or provide a copy of its approved New Jersey Department of the Treasury, Division of Revenue & Enterprise Services Minority, Women, and/or Veteran-Owned Business certificate within twenty (20) business days of this award to confirm that it still possesses the certification. Maintaining the certification is an ongoing material condition of the award. Any awardee that received scores for having a minority-owned,

woman-owned, or veteran-owned business that does not confirm they still have the certification within twenty (20) business days of award will have their award rescinded;

9. If an applicant received scores for a labor peace agreement, maintenance of that agreement is a required condition of the award;
10. The awardee shall not transfer majority ownership interest in the ATC until they have operated for at least two (2) years under the permit or endorsement issued in accordance with this award;
11. All awards are strictly for the cultivation, manufacturing, and/or dispensing of medicinal cannabis pursuant to P.L. 2009, c.307 and N.J.A.C. 8:64 (now N.J.A.C. 17:30A). The awards do not authorize any personal-use cannabis activities described under P.L. 2021, c. 16 and N.J.A.C. 17:30. Awardees shall operate in accordance with this award as presented in this Final Agency Decision for at least one (1) year prior to applying to the Commission to become an “Expanded ATC”; and
12. If an award is rescinded due to an applicant’s failing to abide by the required terms and conditions outlined above, or if an applicant fails to accept its award within five (5) business days of this notification of award, the next highest scoring applicant, such that the award would be consistent with the regional and canopy requirements of the 2019 RFA, will be considered by the Commission for the award.

All applicants have the right to appeal the Commission’s decision to the Superior Court of New Jersey, Appellate Division, by Monday, November 29, 2021 (45 days from the date of this letter). All appeals should be directed to: Superior Court of New Jersey, Appellate Division, Richard J. Hughes Justice Complex, P.O. Box 006, Trenton, New Jersey 08625-0006.

Any applicant with questions regarding the 2019 RFA process and methodology, and any unsuccessful applicant that wishes to file a grievance with the Commission, may do so by submitting their question or grievance in writing to [crc.licensing@crc.nj.gov](mailto:crc.licensing@crc.nj.gov) by 5:00 p.m. Eastern Time on October 19, 2021. Multiple questions/grievances can be submitted together but must be numbered. Responses to submissions deemed relevant to the 2019 RFA process and methodology will be provided within 30 days – by 5:00 p.m. Eastern Time on November 18, 2021. The question and grievance period should only be used for the purpose of addressing questions and complaints related to the 2019 RFA process and methodology. All other questions should be submitted through the Commission website and will be answered in the regular course of business.

Congratulations on your successful application and thank you for your interest in working with the CRC to provide important services and products to the medicinal cannabis patient community of New Jersey.

Sincerely,

Dianna Houenou

Chairperson

New Jersey Cannabis Regulatory Commission
