Scoring Instructions Division of Medicinal Marijuana	Alternative Treatment Center Request for Applications	Jul-18
Notes for Reviewers		
1. Read each of the applications before beginning the proce		
	the .pdf itself according to the instructions provided. Also mark the scores on a corresponding paper scoresheet. mum point value for each measure. Once finished scoring, tally your scores on the paper copy (it automatically adds	up electronically)
4. On a separate sheet, please provide a short written descr	· · · · · · · · · · · · · · · · · · ·	ap cicci omany,
	res and completeness of responses, not against each other.	
	swer is non-responsive to the measure or criterion, unless otherwise indicated.	
7. Use only whole numbers in the scoring.		
Measure/Criterion	Scoring Instructions	Total Possible Points
Criterion 1	ATC's ability to meet the overall health and safety needs of qualified patients and the safety of the public.	800
	Assess the past business experience of the ATC Entity and its leadership according to the following measures.	
	Note that applicants may include up to 3 references in supporting documentation that are to be considered as a	
Measure 1: Past business experience	part of these measures.	100
1A: Experience operating a regulated medicinal marijuana business or operating a business in another highly regulated	On a scale of 0-25, with 25 representing the highest possible score, assess how experienced the applicant is at	
industry	working in a highly regulated industry.	25
1P. Contributions toward expanding the hadrest existing	On a scale of 0-25, with 25 representing the highest possible score, assess to what extent the applicant has made	
1B: Contributions toward expanding the body of scientific knowledge related to medicinal marijuana cultivation,	contributions to expanding the science and evidence base related to the medicinal marijuana industry. In the past, have they developed any new techniques or processes related to the medicinal marijuana supply chain? Have they	
manufacturing and dispensing.	previously exhibited a commitment to collecting data, and have they contributed data to research projects?	25
	On a scale of 0-25, with 25 representing the highest possible score, assess how experienced the applicant is in all	
1C: Experience in all three aspects of the supply chain: culitivation, manufacturing, and dispensing.	three aspects of the medicinal marijuana supply chain: cultivation, manufacturing and dispensing. Because this RFA i for vertically integrated licenses, applicants will score highest if they have experience in all three aspects.	
1D: Specific qualifications of board members, owners, and	On a scale of 0-25 with 25 representing the highest possible score, assess the qualifications of board members,	25
managers including any business or professional accolades	owners, and managers and to what extent they have individual experience related to the medicinal marijuana	
related to cultivation, production and dispensing of medicina		
marijuana.	cannabis industry, and in all three aspects of the supply chain.	25
	According ATC Fields in the according the second state of the December of the December of the label according to	
	Assess the ATC Entity's plan to comply with the following aspects of the Department of Health's program rules for Alternative Treatment Centers. Each section, except otherwise noted, shall be scored out of 10 with 10	
Measure 2: Business operations plan	representing the highest possible score.	125
2.1A: Recordkeeping and Data Privacy	See 8:64-9.1, 8:64-9.3, 8:64-9.4, 8:64-10.3	10
2.1B: Reporting	See 8:64-9.8 and 8:64-13.3	10
2.1C: Inventory Management	See 8:64-9.9, 8:64-9.10, 8:64-10.1, and 8:64-11.6	10
2.1D: Storage 2.1E: Processing	See 8:64-10.2, 8:64-10.5 See 8:64-10.5 and 10.8	10
2.1F: Packaging	See 8:64-10.5 and 10.8	10
2.1G: Transportation	See 8:64-10.11	10
2.1H: Employee Education	See 8:64-9.5	10
2.1I: Patient Education 2.1J: Disaster Recovery	See 8:64-11.1 and 8:64-11.2 See 8:64-9.1(a)5	10
2.13. Disaster Necovery	See 6.04-5.1(a)5	10
	Review the applicant's mobilization plan for (1) completeness, (2) whether or not their assumptions seem realistic	
	and achievable, and (3) whether they have effectively demonstrated they can be operational in a reasonable amount	
2.2: Mobilization Plan	of time. Score on a scale of 0-25 with 25 representing the highest possible score.	25
	On a scale of 0-100, evaluate the applicant's safety and security plan, with 100 representing the highest possible	
	score. A score of 100 would represent an applicant that demonstrates compliance with all applicable program rules	
	but also goes above and beyond to provide security, prevent diversion, and protect public safety. For applicable	
Measure 3: Safety and Security Plan	program rules, see: 8:64-9.7, 9.8, 10.2, 10.4, 10.5, and 10.11.	100
Measure 4.1: Cultivation Operations	Assass the ATC Entity's proposed cultivation operations	150
ivicasure 4.1. Cultivation Operations	Assess the ATC Entity's proposed cultivation operations. On a scale of 0-20, with 20 representing the highest possible score, assess the applicant's proposed cultivation	150
4.1A: Detailed summary of practices, policies and procedures	operation. Highest scores should demonstrate a proficiency in and the application of industrial cultivation technique	
related to the cultivation of medicinal marijuana	that are rooted in evidence and experience.	20
	On a seek of 0.20 with 20 research to the birth of seekly seek of the birth of the	
	On a scale of 0-30, with 30 representing the highest possible score, assess the applicant's knowledge and application of the sciences related to the cultivation of medicinal marijuana. Highest scores should demostrate proficiency in all	
	three scientific areas, and a solid application of those sciences in their proposed cultivation operation. As one	
4.1B: Knowledge of botany, horticulture, and phytochemistry		
and the application of those sciences in the cultivation of	medicinal marijuana (terpenes) and produce medicinal marijuana with more standardized terpene levels across	
medicinal marijuana.	different batches/crops of the same strain.	30
	On a scale of 0-10, assess the applicant's ability to scale their operations as demand increases. High scores will	
	demonstrate that they have a coherent, evidence-driven plan to scale capacity, and have that capacity in terms of space in the proposed facility. However, while applicants should demostrate the ability to scale, size should not be	
4.1C: Plan to scale operations to meet increasing demand,	the only measure of a high score in this section. Reviewers should assess the validity of the plan as best as they can,	
including initial cultivation capacity in square feet and total	and provide a score based on the reasoning presented by the applicant. In short - evaluate the plan's qualityand	
cultivation capacity in square feet.	quantity.	10

4.1D: Estimate the time needed to produce the first full crop of medicinal marijuana, including projected size of that crop,	On a scale of 0-10, assess the applicant's estimates and time frame for producing a first crop of medicinal marijuana.	
·	Here reviewers should lean most heavily on speed and size to determine the score as well as whether or not their	
·	Here, reviewers should lean most heavily on speed and size to determine the score, as well as whether or not their estimates are well reasoned. 10 represents the highest score, an applicant that can produce a sizable first crop	
	quickly - but is not unrealistic. In ideal conditions, 3-4 months is expected for a full crop to be cultivated, cured, and	
and reasoning for the estimates.	ready for dispensing.	10
	On a scale of 0-20, with 20 representing the highest possible score, assess the applicant's plans for quality assurance,	
	quality control, and lab testing related to cultivated marijuana. A score of 20 represents an applicant that goes above	
4.1E: Quality assurance, quality control, and testing protocols		
to assess medicinal marijuana for potential contamination.	extensive QC and QA processes.	20
	On a scale of 0-10, with 10 representing the highest score, assess the applicant's pest control plans. Applicants	
4.1F: Methods to control insects that do not include the	scoring the highest will have a detailed plan for pest control. Note that applicants may use FIFRA 25(b) exempt	
application of pesticides.	products. Eligible products can be found on the EPA's website.	10
	On a scale of 0-10, with 10 representing the highest score, assess the applicant's plans to minimize plant disease.	
	Applicants scoring the highest will have a detailed plan for minimizing plant disease, including how to reduce the	
4.1G: Methods to prevent and minimize plant disease.	prevalance of fungus and bacteria.	10
A ALL A Asalon de condições de contrata de	On a scale of 0-10, with 10 representing the highest score, assess the applicant's plans to reduce odor from cultivated	
4.1H: Methods and practices related to odor mitigation,	marijuana, keep the facility clean, and ensure adequate airflow. Applicants scoring the highest should have a	10
sanitation and airflow.	detailed plan to address this section.	10
	On a scale of 0-15, with 15 representing the highest score, assess the applicant's plans to collect data on cultivated	
	marijuana. Highest scores will be collecting data on all aspects of the cultivation operation, including the chemical	
4.11: Plans to collect data on cultivated marijuana to further	makeup of the product: light exposure, nutrient profile, humidity, temperature, cannibinoid profile of final product,	
scientific research.	terpene profile of final product and have a clear plan to utilize that data for scientific purposes.	15
	On a scale of 0-15, assess the detail of the floor plan provided. Applicants providing a floor plan that is well detailed,	
4.1J: Floor Plan of Cultivation Space	well-thought-out and corresponds to their cultivation plans should receive 15/15.	15
•		
Measure 4.2: Manufacturing/Processing Operations	Assess the ATC Entity's manufacturing operations	75
	On a scale of 0-20, with 20 representing the highest possible score, assess the applicant's proposed manufacturing	
	operation. Highest scores should demonstrate a proficiency in and application of Good Manufacturing Practices	
4.2A: Detailed summary of practices, policies and procedures		
for manufacturing medicinal marijuana products.	patient safety like recall procedures.	20
	On a scale of 0-20, with 20 representing the highest possible score, assess the applicant's proposed products. Note	
	that the products considered need not be compliant with the current limitations on forms (lozenges, oils, topical	
4.2B: Detailed summary of the products the applicant intends		
to manufacture, including information on ingredients (both	medicinal products, including those that aren't currently available on NJ's market. They will also have an array of	
active and inactive), cannibinoid profile, and dosing and administration method.	cannibinoid profiles, i.e. high scores should have both high THC, and high CBD products. The highest scores will also utilize terpenes in their manufactured products.	20
idillilistration metriod.	On a scale of 0-20, with 20 representing the highest possible score, assess the applicant's quality control, quality	20
4.2C: Quality control, quality assurance and testing of	assurance and internal testing protocols. The highest scores shall have detailed methods for QC and QA, will have	
medicinal marijuana products for potential contamination.	internal testing capabilities as well as plans to rely on third party lab validation.	20
nearena mangaana produces for potential contaminations	meeting capabilities as well as plans to very on allina party has tailed on	20
	On a scale of 0-15, assess the detail of the floor plan provided. The highest scores shall be given to applicants	
1.2D: Floor plan of manufacturing space.		15
4.2D: Floor plan of manufacturing space.	providing a floor plan that is well detailed, well-thought-out and corresponds to their manufacturing plans.	15
4.2D: Floor plan of manufacturing space. Measure 4.3: Dispensary Operations		15 75
	providing a floor plan that is well detailed, well-thought-out and corresponds to their manufacturing plans.	
Measure 4.3: Dispensary Operations 4.3A: Detailed summary of practices, policies and producedures for the dispensing of medicinal marijuana to	providing a floor plan that is well detailed, well-thought-out and corresponds to their manufacturing plans. Assess the ATC Entity's dispensary operations On a scale of 0-20, with 20 representing the highest possible score, assess the ATC Entity's proposed dispensary operations. Highest scores will not only demonstrate compliance with 8:64-11, but go above and beyond	75
Measure 4.3: Dispensary Operations 4.3A: Detailed summary of practices, policies and	providing a floor plan that is well detailed, well-thought-out and corresponds to their manufacturing plans. Highest scores will not only demonstrate compliance with 8:64-11, but go above and beyond Department requirements in those sections, particularly related to patient education. On a scale of 0-20, with 20 representing the highest possible score, assess the ATC Entity's educational and counseling materials. Highest scores will demonstrate a commitment to communicate scientific evidence to patients adequately explain potential side effects, and provide information in an easy to understand manner. On a scale of 0-20, with 20 representing the highest possible score, assess the ATC Entity's proposed plans for educating patient-facing staff members and ensuring that qualified patients are properly educated as to the effects and side-effects of medicinal marijuana. Highest scores will demonstrate a commitment to a medical model of patient care and customer service, as well as compliance with program rules (see 8:64-11.1 and 8:64-11.2). On a scale of 0-15, assess the detail and aesthetics of the floor plan and dispensary renderings. The highest scores shall be given to applicants providing a floor plan that is well detailed, well-thought-out and corresponds to their dispensary plans, as well as dispensary renderings that show a well-designed, pleasing customer-focused environment. Assess the financial suitability and sustainability of the ATC applicant On a scale of 0-25 with 25 being the highest possible score, assess the business plan summary and projected expenses for a 5 year period. The highest scores will be well thought out and organized, well supported by data/experience, make a strong case for why the applicant believes the business will be successful, and present realistic financial projections. On a scale of 0-25 with 25 being the highest possible score, assess whether or not the ATC Entity has demonstrated sufficient access to capita	20 20 20 15 100 25

Assess the ATC Entity's plans for value and affordability for qualified patients.	50
On a scale of 0-10, with 10 representing the highest possible score, assess how well the applicant has demonstrated its products will be cost-effective. Cost-effective refers to the cost of products in relation to similar products on the market as well as competing treatments. For example, high scores will demonstrate that its products are cheaper	
than other medicinal marijuana available in NJ, as well as cost-effective in relation to other treatments, like opioids for chronic pain.	10
On a scale of 0-10, with 10 representing the highest possible score, assess how well the applicant has demonstrated its products will be affordable for patients. The highest possible scores will present market research that represents an understanding of who New Jersey's patients are and what they can afford. Currently, over 4 in 10 patients rely on government assistance and therefore have limited income.	10
On a scale of 0-10, with 10 representing the highest possible score, assess the applicant's proposed discount plans for various groups of patients. Highest scores will demonstrate that their discounts are more than the industry average and will make the product affordable for certain patient populations. Industry average is about 20%.	10
On a scale of 0-10, with 10 representing the highest possible score, assess the applicant's plans to provide medicinal marijuana to patients who are indigent. High scorers will provide comprehensive plans for a charity care program that covers the cost of product for such patients.	10
On a scale of 0-10, with 10 representing the highest possible score, assess the applicant's proposed price list. Highest scores will be competitively priced and align with the narrative provided for other Measure 6 responses.	10
On a scale of 0-25, with 25 being the highest possible score, assess the extent to which the ATC Entity will improve competition and diversification in NJ's medicinal marijuana field. The highest scores will represent new investment and new people (as compared to current ATCs), should represent a clear expansion of access based on their location, and should clearly articulate as such in their response to this measure.	25
ATC's Support for New Jersey Communities and Local Participation	150
Assess the extent to which the ATC Entity has ties to the local community, participates in the local community, and has demostrated a commitment to bettering New Jersey. Note that applicants may include up to 3 letters of support in supporting documentation that are to be considered as a part of these measures.	50
On a scale of 0-10, with 10 representing the highest possible score, assess the extent to which the applicant has demonstrated a history of doing business in New Jersey and investing in the industry in this state. The highest scores will have strong business history in NJ, and have a marked commitment to investing here.	10
