

What do I need to register?

Once you have established a bona fide relationship with a registered healthcare provider, you will need to register online.

- Create a user account
- Provide proof of New Jersey residence
- Provide a recent photo that meets the requirements for your New Jersey Medicinal Cannabis Program (NJ-MCP) identification card
 - Identification card is valid for two years and is free.
 - If you choose to have a physical identification card mailed to you, it is \$10.

New Jersey's Medicinal Cannabis Program

About NJ's Medicinal Cannabis Program

New Jersey's Medicinal Cannabis Program (NJ-MCP) assists both adult and pediatric qualifying patients, along with their designated caregiver(s), in safely accessing cannabis and cannabis products from licensed dispensaries who are under the care of a NJ-MCP registered healthcare provider (HCP).

As part of their medical treatment, patients may receive an authorization (prescription) from their healthcare provider for up to 3 oz every 30 days for up to one year. Terminally ill patients are exempt from the maximum limits.

Find a participating healthcare provider

What medical conditions are approved?

- Amyotrophic lateral sclerosis
- Anxiety
- Cancer
- Chronic pain
- Dysmenorrhea
- Glaucoma
- Inflammatory bowel disease, including Crohn's disease
- Intractable skeletal muscular spasticity
- Migraine
- Multiple sclerosis
- Muscular dystrophy
- Opioid Use Disorder
- Positive status for HIV and AIDS
- Post-Traumatic Stress Disorder
- Seizure disorder, including epilepsy
- Sickle cell anemia
- Terminal illness
- Tourette syndrome

Do you think cannabis is right for you?

If you have one of the approved medical conditions listed and think cannabis may be beneficial to you, consult your HCP.

Be aware that cannabis may interfere with how your medications work or increase the risk of side effects, especially those for controlling blood pressure. Be sure to discuss with your provider benefits and risks of adding cannabis to your treatment plan.

The Patient Advantage: Benefits of Participating in the New Jersey Medicinal Cannabis Program (NJ-MCP)

LEGAL PROTECTIONS: On December 2, 2022, the federal government enacted the Medical Marijuana and Cannabidiol Research Expansion Act, allowing healthcare providers (HCPs) to discuss cannabis with their patients without fear of federal persecution. Registered NJ-MCP patients also receive legal protections under New Jersey law, including the New Jersey Compassionate Use Medical Marijuana Act and the Cannabis Regulatory, Enforcement Assistance, and Marketplace Modernization Act (CREAMMA).

Supervised treatment: Maintain an ongoing relationship with and receive care from a NJ-MCP participating HCP who assesses, treats, and monitors your qualifying condition.

Tax-free* purchases: No state sales tax on medicinal cannabis or medicinal cannabis products.
(*Municipalities may charge up to 2% sales tax)

No minimum age requirement: Qualified patients of any age may participate in the program. Patients under the age of 18 with a qualifying condition and under the care of an HCP must register with a parent or legal guardian as their caregiver.

Product availability: Reserve medicinal cannabis products in advance to help ensure availability when you visit your Alternative Treatment Center (ATC)/medicinal dispensary.

Patient-only parking and check out: Dedicated parking and expedited checkout for registered patients and caregivers.

Caregivers: If you are unable to pick up your medicinal cannabis at a dispensary, you can register up to two caregivers.

Certificate of Analysis: Know what's in your medicine. At any time, you can request a Certificate of Analysis (COA) to verify a product's safety, quality, cannabinoid potency, and that its contents match the label.

How to Set-up a Medicinal Cannabis Patient Account

1.

Find a participating healthcare provider.

No app needed.
Scan with camera phone.
