### Introduction

This Language Access Plan (“Plan”) is in compliance with New Jersey’s Language Access Law, [P.L. 2023, c.263](#) (“Law”), as part of New Jersey’s commitment to making our government resources more accessible to our State’s diverse residents. The Law requires State agencies to provide language assistance services and publish a language access plan explaining how they will communicate with individuals with limited English proficiency, and what services they will offer to help.

A language access plan<sup>1</sup> is a document that describes the services that a state government entity<sup>2</sup> and its employees are required to provide to ensure individuals with limited English proficiency have meaningful access to its programs, services, and activities.

Having limited English proficiency means that a person does not speak English as their primary language and may have limited ability to read, write, speak, and/or understand English.

---

<sup>1</sup> P.L. 2023, c.263 requires that “[e]ach State government entity in the Executive Branch that provides direct services to the public, in consultation with the Department of Human Services, Department of Law and Public Safety, and Office of Information Technology, shall develop and publish a language access plan that shall reflect how the entity will comply with the provisions of this act.”

<sup>2</sup> Pursuant to P.L. 2023, c.263, a “State government entity” is defined as “any State department or agency in the Executive Branch and any commission, board, bureau, division, office, or instrumentality thereof providing direct services to the public.”

This document provides information about:

- Our agency and how we interact with the public
- The populations with Limited English Proficiency (LEP) that we serve or are likely to serve

It also outlines how our agency:

- Identifies language needs
- Provides language assistance services
- Makes sure language assistance services are high quality
- Informs the public about available free language assistance services
- Keeps the public informed about our efforts to follow the New Jersey's Language Access Law
- Trains staff on serving people with LEP
- Follows the New Jersey's Language Access Law.

## A. Our Agency and How We Interact with the Public

### 1. Agency Mission

**The Casino Control Commission promotes public confidence and trust in the credibility and integrity of the gaming industry as an independent licensing authority. The Commission openly fosters partnerships and collaborates with all stakeholders while upholding objective and ethical standards with professionalism and integrity.**

### 2. How We Interact with the Public

**The Commission is the independent licensing authority of New Jersey's casinos and the designated key license required employees. Additionally, as a quasi-judicial panel, the Commission conducts hearings on contested casino key employee license matters, as well as appeals from certain decisions of, or penalties imposed by the Division of Gaming Enforcement. Interaction with the public occurs in-person, via telephone, email, and social media.**

### 3. Participating Entities

**Agency-wide participation.**

---

## **B. Populations with Limited English Proficiency that Our Agency Serves or is Likely to Serve**

The Law requires that State agencies provide language assistance services to individuals who have limited English proficiency (LEP). This involves identifying the needs of the populations they serve or are likely to serve, covering both written and spoken language support.

Under the Law, agencies must translate vital documents<sup>3</sup> and information into the seven (7) languages most commonly spoken by individuals with LEP in New Jersey. To determine these top seven languages, our agency uses U.S. Census data (including data from the American Community Survey) and consults with the Language Access Implementation Lead Agencies.

This data also helps our agency understand other language characteristics of the communities we currently serve or are likely to serve, ensuring effective language access planning.

At the time of this Plan, the top languages spoken by individuals with LEP in New Jersey are:

1. Spanish
2. Portuguese (preference for Brazilian dialect)
3. Korean
4. Gujarati
5. Chinese (including Mandarin and Cantonese)<sup>4</sup>
6. French Creole or Haitian Creole
7. Arabic

---

<sup>3</sup> Vital documents are defined in P.L. 2023, c.263 as “documents that affect or provide legal information about access to, retention of, termination of, or exclusion from program services or benefits; which are required by law; or which explain legal rights.”

<sup>4</sup> While spoken Chinese primarily includes Mandarin and Cantonese, translation should be tailored to Simplified and Traditional Chinese for written communication.

## **1. Adding Languages Beyond the Top Seven at a State-level**

The Law also requires that State agencies translate vital documents into any other languages considered necessary by the agency based on the populations they serve.

Our agency has made the following determination about the addition of languages beyond the top 7:

**The Commission will continue to assess the need for additional languages needed for translation and interpreting services on a regular basis and as need arises. The Commission has initiated partnerships with local community stakeholders as required by law, to understand their interactions with communities with LEP, the populations they serve, and their specific needs.**

## **2. Languages Available for Interpreting Services**

Under the Law, State agencies have to provide interpreting services between the agency and an individual in that person's primary language when delivering services or benefits.

## **3. Populations with LEP**

Describe the populations with LEP that interact or are likely to interact with our agency or are otherwise in need or are eligible for our agency's services. This could include any efforts to identify specific language characteristics or needs through internal data or other relevant datasets, such as information from language services providers, school districts, community- based organizations, business associations, etc.

**Based on 2024 U.S. Census data, the largest non-English language spoken at home by immigrants and other residents in Atlantic County, New Jersey is Spanish. It appears that Hispanic groups represent our largest immigrant population.**

---

## **C. Determining the Need for Language Assistance Services and Language Identification**

When an individual with LEP contacts our agency, staff must assess whether language assistance is needed in the following ways (Tables 1–3).

**Table 1: In-Person**
