

Sandy Funding Criteria Worksheet

State Department:
New Jersey Department of Health Division of Family Health Services
Name of Expenditure or Program:
Community Resiliency —National Center for Disaster Preparedness's Child and Family Health
Amount:
\$1,190,000

Overview:
The National Center for Disaster Preparedness Superstorm Sandy Child and Family Health (S-CAFH) Study is a three to five year longitudinal study that would examine Sandy-related health effects, recovery trajectories, evacuation and recovery decision-making and efficacy of formal help mechanisms, etc. in New Jersey and New York. The New Jersey portion of the proposed study would survey 1,000 households from NJ. The baseline assessment would allow for data to be collected, analyzed, and disseminated quickly with a broader and more detailed understanding of recovery occurring during the longitudinal phase. The cost of the New Jersey portion is \$1.19 million for the entire study.
Federal Department of Origin:
Department of Health and Human Services
Federal Requirements / Restrictions:
Funds to be totally expended by September 30, 2015. Also subject to Integrity Oversight monitoring via Assembly Bill A60 (A-60)(P.L.2013,c.37). Additional State regulations related to Governor Christie's Executive Order 125, as well as all applicable federal and state regulations for Procurement and Grants Management.
Selection Standards:
Specific restrictions listed in Memorandum of Agreement with Rutgers
Eligibility Standards:
The National Center for Disaster Preparedness, based at Columbia University, is currently exploring the possibility of partnering with Rutgers, which would enable the money to be given to Rutgers via an MOA.
