These steps help to ensure that language shall not prevent staff from communicating effectively with LEP inmates, detainees, and others to ensure safe and orderly operations, and that limited English proficiency shall not prevent inmates, detainees, or others from accessing important programs and information; understanding rules; participating in proceedings; or gaining eligibility for parole, probation, treatment programs, alternatives to revocation, or favorable classifications. The DOC shall utilize various internal and external sources to provide oral and written language assistance services to communicate with LEP inmates in the areas of programming, safety, medical and quasi-legal proceedings. These sources, include, but are not limited to, the language line services and appropriate staff.

It is also NJDOC policy to ensure that no inmate is retaliated against for requesting language assistance services or participating in any other conduct protected under Title VI.

Except in emergency circumstances, other inmates shall not be utilized to provide interpretation for LEP inmates in significant matters that include psychological, medical and safety. An exception may be made for trained counsel substitutes in disciplinary proceedings.

To assist in the accomplishment of this policy, the Office of Educational Services provides oversight and support and ensures delivery of educational services, including but not limited to, English as a Second Language (ESL) programming for all students who have been identified and/or classified as LEP.

IV. PROCEDURE
In addition to the procedures indicated in NJDOC Policy SUP.004.001, Limited English Proficient (LEP) Language Assistance: Use of Language Line, OSAPAS staff shall also ensure the following procedures are followed:

A. Addiction Assessments

The contract vendor shall attempt to include bilingual staff among the addiction evaluation staff as is currently the case. Non-English speaking offenders are to be referred to his/her assessment list.

Otherwise, the addiction screeners who interview inmates at intake to assess addiction severity attempt to communicate with non-English speaking offenders, but if it is clear that there is a barrier to understanding the interview content, the inmate's addiction determination is referred to the classification file review.

B. Substance Use Disorder

The contract for substance use disorder treatment services shall include the following language assistance services:

Bilingual Personnel

The contractor shall employ a sufficient number of personnel who are bilingual in English and Spanish to meet the needs of the increasing Hispanic component of the State participant population. The contractor shall provide at least one (1) bilingual counseling staff member at each institutional location. The contractor shall work in coordination with the State Contract Manager in monitoring this minimum, should this demographic population shift significantly. The contractor shall document any changes to the minimum number of bilingual staff. When other non-English languages are encountered, staff shall seek assistance from correctional facility staff to obtain competent bilingual staff, contracted interpreters or the language line services telephone interpreter services.

C. Engaging the Family

The Engaging the Family Program includes bilingual staff to interpret and offer program assistance for LEP inmates. Otherwise, if staff encounters a non-English speaking inmate they would seek assistance from another institutional staff member.

D. Responsible Parenting Program (RPP)

Although a federally-funded grant, if RPP staff encounters a non-English speaking inmate they would seek assistance from another institutional bilingual staff member.
