

Commission (Commission) in the event of a successful appeal instituted during the life of a list, to correct an administrative error, or for other good cause.

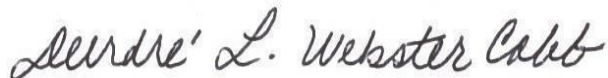

In the present matter, Nakayama submitted a classification appeal of her permanent title, Technical Assistant 2. Agency Services issued a determination on October 5, 2020, that the most appropriate classification for her position was Data Entry Operator 4 with an effective provisional appointment date of December 21, 2019, which was during the time the PS3923U list was still active. Accordingly, the appointing authority seeks revival of the subject list to allow for the regular appointment of Nakayama to the title of Data Entry Operator 4. Given that Nakayama was the sole remaining eligible on that list, and given that the effective date of the reclassification of her title was during the life of the PS3923U eligible list, it would be unjust to require that she undergo current promotional examination procedures. Accordingly, under these circumstances, good cause has been established to revive the subject eligible. Accordingly, the Commission orders that the PS3923U list be revived and Nakayama's name be reflected as appointed off certification PS170547, effective December 21, 2019. However, the Commission further orders that Nakayama be required to complete a current working test period. Upon successful completion of that working test period, her appointment shall be considered permanent, effective December 21, 2019.

ORDER

Therefore, it is ordered that this request be granted, the Data Entry Operator 4 (PS3923U), Department of the Treasury eligible list be revived, and Dolores Nakayama's name to reflected as appointed, effective December 21, 2019, from certification PS170547. Upon successful completion of a current working test period, her appointment shall be considered permanent, effective December 21, 2019.

This is the final administrative determination in this matter. Any further review should be pursued in a judicial forum.
