7. I am happy to fulfill my purpose of making New Jersey a healthier place for the people (including my family members), animals, plants, and organisms in my work as a Research Scientist for the NJDEP. I am a chemist and did not want to work in an industry that pollutes our planet. This was a great match for my talents and education. Serving the people of New Jersey is rewarding, regardless of their awareness of all that we are doing and attempting to do, on theirs and their children's behalf.
